

## CONTENTS

### PART B: SHIELDING

7	Shield Design Criteria and Procedures .....	3
8	Sources of Neutrons and Gamma Rays .....	16
9	Neutron Attenuation .....	63
10	Gamma-Ray Attenuation .....	102
11	Analytical Methods of Shield Design .....	128
12	Ducts and Voids in Shields .....	151
13	Heat Generation in Shields .....	172
14	Shield Optimization with Respect to Weight .....	185
15	Air, Ground, and Structure Scattering .....	188
