

CONTENTS of VOLUME II

	Page
- C. K. Phillips ICRF Modelling	455
- <u>E. J. Valeo, D. C. Eder</u> Numerical Modeling of Lower Hybrid Heating and Current Drive	493
- T. Consoli New Applications of ECR Longitudinal Wave Propagation	512
- D. W. Ignat, <u>P. H. Rutherford</u> , H. Hsuan Feedback Stabilization of Magnetic Islands by RF Heating and Current Drive	525
- B. B. Kadomtsev, <u>O. P. Pogutse</u> Anomalous Transport in a Tokamak Plasma	542
- J. Olivain Scattering Experiments as a Tool to Observe Modes Associated with RF Auxiliary Heatings	551
- J. Olivain Density Fluctuations and "Anomalous" Heat Transport in Ohmically and Auxiliary Heated Plasmas	570
- <u>E. Canobbio, R. Croci</u> Nonlinear Effects in RF Plasmas	585
- N. A. Zharova, A. G. Litvak, <u>A. M. Sergeev</u> Nonlinear Effects at High-Frequency Plasma Heating	620
- F. Leuterer et al. Lower Hybrid Current Drive and Recharging of the Ohmic Heating Transformer in ASDEX	633
- J. G. Wégrowe Potential of Lower-Hybrid Waves for Reactor Applications	644
- J. C. Hosea Reactor Applications of ICRF Heating and Current Drive	666
- P. P. Lallia Status and Prospects of RF Waves in Tokamaks	695

CONTRIBUTED PAPERS

- G. A. Cottrell 710  
Measurements of Ion Cyclotron Emission from Ohmic and ICRF Discharges in JET
- F. Wesner et al. 716  
ICRH in ASDEX, Layout and Experimental Results
- TFR Group (Presented by D. J. Gambier) 722  
Influence of Partially Stripped Impurity Ions on the Cyclotron Absorption of the Fast Magnetosonic Wave
- F. Söldner et al. 740  
Electron and Ion Heating by Lower Hybrid Waves in Asdex
- F. Ryter et al. 746  
Study of Fast Ions during Lower Hybrid Experiments on ASDEX
- A. Cardinali, F. Romanelli 752  
Asymptotic Analysis of Lower Hybrid Waves Propagation in Toroidal Plasma
- J. G. Wegrowe 758  
Absorption of LH Wave Power and Driven Current in the Presence of a Toroidal Electric Field for Weak and Strong Injected Power
- F. R. Hansen, J. P. Lynov, P. Michelsen 764  
A Mode Conversion Scheme for ECRH of a High-Density Plasma
- A. Montes, R. O. Dendy 770  
Absorption of Electron Cyclotron Waves by Superthermal Electron Velocity Distributions in Tokamak Plasmas
- L. Rebuffi 776  
Comparison of  $TE_{44}$  and  $HE_{44}$  Modes for ECRH Experiment on TFR and Lens Design for Beam Focalisation
- A. H. Kritz, H. Hsuan, D. R. Mikkelsen, A. Cavallo, D. McCune 784  
Modeling Electron Transport in Plasmas Subject to Electron Cyclotron Heating
- D. Farina, M. Lontano, R. Pozzoli 790  
Electron Cyclotron Wave Interaction in a Lower Hybrid Sustained Plasma
- A. C. Riviere, M. W. Alcock, A. N. Dellis, M. Hughes, D. C. Robinson, T. N. Todd 797  
The 2 MW ECRH System for COMPASS
- B. Lloyd, N. R. Ainsworth, M. W. Alcock, B. Alper, D. Atkinson, S. G. F. Blewett, P. R. Collins, A. N. Dellis, T. Edlington, S. L. Hall, F. Ma, P. Parham, J. Riley, A. C. Riviere, D. C. Robinson, T. N. Todd 804  
ECRH at the First and Second Harmonic in CLEO Tokamak

- L. Argenti, G. Cima, S. Cirant, F. De Luca, A. Jacchia, P. Mantica, G. Ramponi, A. Simonetto, U. Tartari 28 GHz E.C. Waves in Thor Tokamak Plasma	811
- S. Puri Periodic Loop-Antenna Coupling to Alfvén Waves	817
- T. K. Nguyen, D. Moreau Slow-Waves Lower Hybrid Couplers for Heating and Current Drive in Large Scale Tokamak-Plasmas	829
- C. David, P. Briand, G. Tonon, H. Bottolier-Curtet, G. Ichtchenko, G. T. Hoang, G. Rey, C. Gormezano, Ph. Bibet, F. Parlange 8 Waveguide Electron Grill Launcher for Lower Hybrid Heating in PETULA-B	835
- K. Felch, R. Bier, L. Fox, H. Huey, L. Ives, H. Jory, N. Lopez, J. Shively, S. Spang Recent Operating Experience with Varian 70 GHz and 140 GHz Gyrotrons	842
- H. G. Mathews Design of a Quasi-Optical 120 GHz Gyrotron	848
- E. W. Mc Cune An 8 GHz, 250 kW CW Klystron Amplifier for Lower Hybrid Heating	857
- G. Faillon, J. P. Ichac New Developments in Klystrons and Tetrodes for Fusion Applications	863
- A. Bensimhon, G. Faillon, P. Garin, G. Mourier, A. Thevenot Development of 35 GHz and 100 GHz Gyrotrons at Thomson-CSF	869
- J. R. Button Gridded Power Tubes for RF Heating of Plasmas	876
- J. Wyss, K. Holm Power Amplifiers and Tubes for ICRH. Technical Requirements and Solutions	882
- D. W. Swain, F. W. Baity, D. J. Hoffman, T. L. Owens, C. C. Tsai The Technology of ICH Systems for Advanced Fusion Experiments	890
- A. Airoidi, S. Cirant, F. De Luca, D. Farina, A. Jacchia, M. Lontano, E. Minardi, A. Orefice, R. Pozzoli, G. Ramponi Proposal for High Density ECRH Experiment on FTU	898
