

VOLUME III

The following list of session topics is given as a general guide to the location of papers in this volume. The complete table of contents may be found at the beginning of Volume I.

	Session	Page
22.	Large Coil Project	1140
23.	Electrical Components and Rotating Machines	1191
24.	Power Supplies and Protection	1231
25.	Experimental Systems	1303
26.	Neutral Beam Injector Systems	1370
27.	Superconducting Stability and Cryogenic Cooling	1407
28.	Magnet Design—Structural and Analytical	1456
29.	Fusion-Fission Reactors	1504
30.	Vacuum and First-Wall Technology	1568
31.	Starfire	1614
32.	Superconducting Coil Design	1653
