

CONTENTS OF VOLUME II

		<u>Page No.</u>
SESSION 4	LOWER HYBRID WAVES - EXPERIMENT	
(Cont)		
	Lower Hybrid Current Drive in the PLT Tokamak (Invited)	R W Motley 299
	Experiments on Current Drive by Lower Hybrid Waves in the T7 Tokamak (Invited)	V I Il'in 313
	Toroidal Plasma Current Start-up and Sustainment by RF in the WT-2 Tokamak	S Tanaka 327
	Plans for Lower Hybrid Current Drive in ASDEX	D Eckhartt and LH Working Group 336
	Analysis and Interpretation of Experimental Data on the "Critical Density" in Current Drive by Lower Hybrid Waves	J-G Wegrowe and G Tonon 343
	Enhanced Conductivity during Current Drive Experiments	D Van Houtte and F Parlange 356
SESSION 5	ALTERNATIVE CONCEPTS	
	Current Drive by (1) Injection of Moderately Heavy Ions at MeV/nucleon; (2) Plasma Synchrotron Radiation (Invited)	J M Dawson (V Decyk-rapporteur) 366
	Quasi Steady State Current Drive by Plasma Relaxation (Invited)	M K Bevir 376
	Current Drive by Means of Rotating Magnetic Fields (Invited)	I R Jones (J B Lister-rapporteur) 388
	The Generation of Reversed Field Configurations by RF Driven Currents.	M Kuhnappel and H Tuczek 417

	Current Drive and Plasma Heating by Radio Frequency Sustainment of Relativistic Electrons in Tokamak Plasmas	I Fidone M Fichet G Giruzzi G Granata and R L Meyer	
	Plasma Waves for Electron Current Drive in Tokamaks	D Moreau and C M Singh	432
	Current Drive and Bootstrap Current	A Samain	438
SESSION 6	REACTORS		
	Driver Options and Burn Cycle Selections Based on Power Reactor Considerations (Invited)	D A Ehst	442
	The Benefits for Tokamak Reactor Magnet Design of Steady State Operation.	W Spears	467
SESSION 7	ELECTRON CYCLOTRON WAVES		
	A Review of ECRH Current Drive Theory (Invited)	C N Lashmore- Davies	473
	Effects of the Relativistic Correction of the Resonance Condition of Electron Cyclotron Current Drive	R A Cairns J Owen and C N Lashmore-Davies	496
	Relativistic Effects on Current Drive by Quasi-Perpendicular Electron Cyclotron Waves	D Farina M Lontano R Pozzoli and S Razzini	502
	ECRH Current Drive Experiments at Culham	T Edlington	514
	Coupling between ECRH Driven and Ohmic Plasma Currents	D F H Start	521
SESSION 8	SUMMARIES		
	Current Drive Experiments	R W Motley	529
	Current Drive Theory	E Cannobio	546
LIST OF PARTICIPANTS			551
