

## CONTENTS

Preface .....	vii
---------------	-----

### I. GENERIC PROCESSES INVOLVING HIGH ENERGY PARTICLES

Gyro-Averaged Simulation of Ion Cyclotron Bernstein Modes Destabilized by Energetic Protons .....	3
H. V. Wong and K. R. Chen	
Basic Principles Approach for Studying Nonlinear Alfvén Wave-Alpha Particle Dynamics.....	18
H. L. Berk, B. N. Breizman, and M. Pekker	
Electron Acceleration by Ion Acoustic Double Layer .....	32
H. Takamaru, T. Sato, R. Horiuchi, and K. Watanabe	

### II. IGNITED TOKAMAKS

Collective Modes in Igniting Plasmas .....	47
B. Coppi	
Theory of Magnetohydrodynamic Instabilities Excited by Energetic Particles in Tokamaks .....	63
L. Chen	
Energetic Particle Effects on Toroidal Alfvén Eigenmodes .....	68
C. Z. Cheng, G. Y. Fu, and J. W. Van Dam	
Neoclassical Effects on Slowing Down Alphas in Tokamak Plasmas .....	81
K. Hamamatsu, M. Azumi, K. Tani, and A. Fukuyama	
Alfvén Wave Excitation by Energetic Beam Ions in a Divertor Tokamak.....	87
J. W. Van Dam, S. T. Tsai, S. C. Guo, and M. Wakatani	

### III. HELICAL SYSTEMS

Comments on Diagnostics for High Energy Particles and a Possibility of Simulation Experiments in LHD.....	99
K. Sato	
Particle Orbit Studies in a Helias-Heliac Hybrid Stellarator.....	114
Y. Nakamura, M. Yokoyama, and M. Wakatani	
Study of ICRF Minority Heating in a Helical System .....	124
M. Okamoto, S. Murakami, and N. Nakajima	
Chaotic Behavior of High Energy Ions in a Helical System .....	139
T. Watanabe	

**IV. FIELD REVERSED CONFIGURATIONS**

<b>Stability of Large Orbit, High-Current Particle Rings.....</b>	<b>153</b>
R. V. E. Lovelace	
<b>Classical Scattering in a High Beta Self-Collider/FRC.....</b>	<b>168</b>
N. Rostoker, M. Binderbauer, and R. Skinner	
<b>Formation of Field Reversed Configuration by Magnetic Reconnection of Two Spheromaks .....</b>	<b>186</b>
Y. Ono, M. Katsurai, and M. Yamada	
<b>Injection, Trapping, Compression and Acceleration of a Field-Reversed Ion Ring.....</b>	<b>194</b>
R. N. Sudan	
<b>Variational Formulation for a Multi-Fluid Flowing Plasma and its Application to Field-Reversed Configurations.....</b>	<b>206</b>
A. Ishida	
<b>Tilting Stability of Field-Reversed Configurations .....</b>	<b>216</b>
L. C. Steinhauer and A. Ishida	

**V. ALTERNATIVES: SYSTEMS WITH LARGE ORBIT PARTICLES**

<b>Staged Z-Pinch for Inertial Confinement Fusion and Ion Acceleration .....</b>	<b>231</b>
H. U. Rahman, P. Ney, F. J. Wessel, N. Rostoker, and V. M. Bystritskii	
<b>Magnetless Magnetic Fusion.....</b>	<b>247</b>
A. D. Beklemishev and T. Tajima	
<b>High Energy Particle Transport in Laser Fusion .....</b>	<b>256</b>
A. Nishiguchi, S. Nakagawa, H. Takahashi, H. Takabe, and K. Mima	
<b>Collective Instabilities in High Energy Accelerators.....</b>	<b>269</b>
A. Chao	
<b>Modern Magnetic Fusion .....</b>	<b>292</b>
B. C. Maglich, T.-F. Chuang, C. Powell, J. Nering, and A. Wilmerding	

**VI. SUMMARY**

<b>Closing Remarks.....</b>	<b>323</b>
N. Rostoker	
<b>Summary .....</b>	<b>325</b>
M. Okamoto, T. Tajima, N. Rostoker, B. Coppi, A. Ishida, and Y. Nakamura	
<b>Author Index.....</b>	<b>327</b>
<b>Subject Index .....</b>	<b>329</b>
