

CONTENTS

Inductive Energy Storage Circuits and Switches	1
E.M. Honig (Los Alamos National Laboratory)	
Diffuse Discharge Opening Switches	49
K.H. Schoenbach (Old Dominion University) G. Schaefer (Polytechnic University, NY)	
Low Pressure Plasma Opening Switches	93
R.W. Schumacher and R.J. Harvey (Hughes Research Laboratories)	
Recovery of Dielectric Strength of Gases	131
R.N. DeWitt (Naval Surface Weapons Center/Dahlgren)	
The Plasma Erosion Opening Switch	149
R.J. Comisso, G. Cooperstein, R.A. Meger, J.M. Neri, P.F. Ottinger (Naval Research Laboratory) B.V. Weber (JAYCOR)	
The Reflex Switch: A Fast-Opening Vacuum Switch	177
L.J. Demeter (Physics International Company)	
Plasmadynamic Opening Switch Techniques	191
P.J. Turchi (RDA Washington Research Laboratory)	

Fuse Opening Switches for Pulse Power Applications	209
R.E. Reinovsky (Air Force Weapons Laboratory)	
Explosively-Driven Opening Switches	233
B.N. Turman and T.J. Tucker (Sandia National Laboratory)	
Dielectric Breakdown in Solids	257
A.K. Jonscher (Royal Holloway and Bedford New College, England)	
Solid State Opening Switches	273
M. Kahn (Naval Research Laboratory)	
Mechanical Switches	287
W.M. Parsons (Los Alamos National Laboratory)	
List of Contributors	307
Index	309
