

CONTENTS

Some Thermal-Hydraulics Aspects of the Impurity Control System for FED/INTOR <i>Y. S. Cha, R. F. Mattas, M. A. Abdou and J. R. Haines</i>	1
Experimental Study of the Enhancement of Critical Heat Flux Using Tangential Flow Injection <i>J. Weede and V. K. Dhir</i>	11
Review of Subcooled Flow Boiling Critical Heat Flux (CHF) and Its Application to Fusion Systems Part I: Fundamentals of CHF <i>R. D. Boyd</i>	19
Review of Subcooled Flow Boiling Critical Heat Flux (CHF) and Its Application to Fusion Energy System Components Part II: Microconvective, Experimental and Correlational Aspects <i>R. D. Boyd</i>	31
Thermal Performance of Thermionic Diodes for Fusion Power Production <i>J. F. Stubbins</i>	43
Thermal Analysis of a Helium-Cooled, Tube-Bank Blanket Module for a Tandem Mirror Fusion Reactor <i>R. W. Werner, M. A. Hoffman and G. L. Johnson</i>	53
