
Contents

1. Introduction

<i>1.1 Introduction and Historical Background</i>	1
<i>1.2 Charged Particle Motion in a Nonneutral Plasma Column</i>	4
<i>1.3 Levels of Theoretical Description</i>	10
<i>1.3.1 General Discussion</i>	10
<i>1.3.2 The Vlasov Description</i>	12
<i>1.3.3 The Macroscopic Fluid Description</i>	14

2. Macroscopic Equilibria and Stability

<i>2.1 The Equilibrium Force Equation</i>	17
<i>2.2 Nonrelativistic Nondiamagnetic Equilibria</i>	21
<i>2.3 Relativistic Diamagnetic Equilibria</i>	25
<i>2.4 Relativistic Electron Beam Equilibria</i>	32
<i>2.5 Macroscopic Model of the Bennett Pinch</i>	40
<i>2.6 Electrostatic Stability of Nonneutral Plasmas</i>	41
<i>2.7 Dispersion Relation for a Constant-Density Plasma Column</i>	45
<i>2.8 Nonneutral Plasma-Filled Waveguide</i>	49
<i>2.8.1 Electrostatic Dispersion Relation</i>	49
<i>2.8.2 Stable Oscillations</i>	52
<i>2.8.3 Electron-Electron Two-Rotating-Stream Instability</i>	55
<i>2.9 Surface Waves on a Nonneutral Plasma Column</i>	60
<i>2.9.1 Electrostatic Dispersion Relation</i>	60
<i>2.9.2 Stable Oscillations</i>	61
<i>2.9.3 Electron-Ion Two-Stream Instability</i>	62

2.10	<i>The Diocotron Instability</i>	66
2.10.1	<i>Poisson's Equation for a Low-Density Electron Gas</i>	66
2.10.2	<i>A Sufficient Condition for Stability</i>	67
2.10.3	<i>Stability of Hollow Beam Equilibria</i>	69
2.10.4	<i>Resonant Diocotron Instability</i>	74
2.11	<i>Interaction of Relativistic Electron Beams with Plasma</i>	78
2.11.1	<i>Equilibrium Configuration and Electrostatic Dispersion Relation</i>	78
2.11.2	<i>Two-Stream Instability in Plasma-Filled Waveguide</i>	81
2.11.3	<i>Two-Stream Instability in Thin Beam Limit</i>	86
3.	Vlasov Equilibria and Stability	
3.1	<i>Vlasov Equilibria for Axisymmetric Systems</i>	90
3.1.1	<i>General Discussion</i>	90
3.1.2	<i>Axisymmetric Column Equilibria</i>	92
3.1.3	<i>Axisymmetric Mirror-Confined Equilibria</i>	96
3.2	<i>Nonrelativistic Nondiamagnetic Equilibria</i>	98
3.2.1	<i>General Discussion</i>	98
3.2.2	<i>Rigid-Rotor Equilibria</i>	100
3.2.3	<i>Hollow Beam Equilibria with Shear in Angular Velocity</i>	109
3.3	<i>Relativistic E-Layer Equilibria</i>	113
3.3.1	<i>General Discussion</i>	113
3.3.2	<i>E-Layer Equilibrium with Sharp Radial Boundaries</i>	116
3.3.3	<i>E-Layer and Theta-Pinch Equilibrium with Diffuse Radial Boundaries</i>	121
3.4	<i>Relativistic Electron Beam Equilibria</i>	125
3.4.1	<i>General Discussion</i>	125
3.4.2	<i>Example of a Relativistic Electron Beam Equilibrium</i>	129
3.5	<i>Relativistic Electron Ring Equilibria</i>	141
3.5.1	<i>General Discussion</i>	141
3.5.2	<i>Example of an Electron Ring Equilibrium with Thermal Energy Spread</i>	146
3.5.3	<i>Electron Density Profile</i>	149
3.6	<i>Stability Theorem for Nonrelativistic Nondiamagnetic Equilibria</i>	155
3.7	<i>Body Waves in a Nonneutral Plasma Column</i>	159
3.7.1	<i>Equilibrium Configuration and Assumptions</i>	159
3.7.2	<i>Electrostatic Dispersion Relation</i>	162
3.7.3	<i>Examples of Electrostatic Waves and Instabilities</i>	169
3.7.4	<i>Dispersion Relation for Transverse Electromagnetic Waves</i>	174
