

CONTENTS

Foreword	v
Production of thermal plasma <i>P. Fauchais</i>	1
Measurements of temperatures in thermal plasma <i>P. Fauchais</i>	39
Review of thermal plasma research and development for hazardous waste remediation in the United States <i>S. F. Paul</i>	67
Design of a plasma torch for toxic waste treatments <i>G. Bonizzoni</i>	93
The PERC™ process for hazardous waste treatment <i>A. Blutke</i>	104
Industrial treatment of waste materials using Tronics plasma systems <i>J. Willaims</i>	112
New incineration and melting facility for treatment of low level radioactive wastes in Switzerland <i>W. Hoffelner, T. Müller, M. R. Fünfschilling, A. Jacobi, R. C. Eschenbach, H. R. Lutz, Vuilleumier</i>	126
Conversion of liquid toxic waste by means of a plasma reactor <i>Z. A. Janasz, A. Mossé, D. Hebeker</i>	146
Arc plasma incineration of surrogate radioactive wastes <i>C. Girold, R. Cartier, J. P. Taupiac, C. Vandensteendam, J. M. Baronnet, T. Flament</i>	160

Modelling of plasma treatment of dispersed charge for vitrification of activated wastes <i>L. I. Krasovskaya</i>	169
Progresses in a plasma torch design for hazardous waste treatment at the University of Milan <i>R. Benocci, G. Braga, R. Florio, A. Galassi, S. Latorre, M. Paolicchio, M. Piselli, M. Sciascia, E. Sindoni</i>	178
MHD model of a free burning arc <i>R. Benocci, R. Florio, A. Galassi, L. Pessini, V. Petrillo, L. Serafini, E. Sindoni</i>	185
Multifluid description and the Bohm criterion for multi-species plasmas <i>M. S. Benilov</i>	198
Theory and design of an enthalpy probe diagnostic system <i>R. Benocci, G. Bonizzoni, G. Braga, R. Florio, A. Galassi, S. Latorre, M. Paolicchio, M. Piselli, M. Sciascia, E. Sindoni</i>	207
Generation of fine particles at high concentration in thermal plasma <i>A. Krasenbrink, A. Hautojärvi, R. Hummel, G. De Santi</i>	215
