

TABLE OF CONTENTS

Preface	VII
List of Participants	IX
Where is the Interstellar Medium?	
H.C. van de Hulst	1
Radio Observations	
P.G. Mezger	9
Visible and Ultraviolet Observations of the Inter- stellar Medium	
G.R. Carruthers	29
The Interstellar Medium in X- and Gamma Ray Astronomy	
C. Dilworth	69
H II Regions	
H.J. Habing	91
Physics of Interstellar Medium	
S.R. Pottasch	127
Molecules in Dense Interstellar Clouds	
B.J. Robinson	159
Interstellar Extinction in the Ultraviolet from Telescope Observations	
K. Haramundanis	185
Ideas about the Study of Dust	
C.D. Andriess	187

Large-Scale Distribution of Interstellar Matter in the Galaxy	
J. Lequeux	191
Density-Wave Theory of Spiral Structure	
F.H. Shu	219
Star Formation and Star Destruction	
F.D. Kahn	235
The Nucleosynthesis of the Light Elements and the Interstellar Medium	
H. Reeves	267
