

CONTENTS

Welcoming Address	1
William J. McDONALD, <i>The Catholic University of America, Washington, D.C.</i>	
Welcoming Address on Behalf of the National Aeronautics and Space Administration	3
Hugh L. DRYDEN, <i>National Aeronautics and Space Administration, Washington, D.C.</i>	
PART I / SOLAR PHENOMENA	
The Solar Magnetic Cycle	7
H. W. BABCOCK, <i>Mt. Wilson and Palomar Observatories; Carnegie Institution of Washington, Washington, D.C. and California Institute of Technology, Pasadena, Calif.</i>	
Kinematics of Solar Flares	24
G. E. MORETON, <i>Solar Observatory, Lockheed-California Company, Burbank, Calif.</i>	
Solar Flares and Concurrent Phenomena in the Solar Atmosphere	38
H. ZIRIN, <i>High Altitude Observatory, Boulder, Colo.</i>	
Observational Study of the Dynamics of the Solar Atmosphere	52
John W. EVANS, <i>Sacramento Peak Observatory, Air Force Cambridge Research Laboratories, Sunspot, N. Mex.</i>	
Round Table Discussion	54
J. W. DUNGEY (Chairman), <i>Department of Physics, Imperial College, London</i>	
PART II / INTERPLANETARY PLASMA AND COSMIC RAYS	
Interplanetary Solar-Wind Measurements by Mariner II	67
Conway W. SNYDER and Marcia NEUGEBAUER, <i>Jet Propulsion Laboratory, California Institute of Technology, Pasadena, Calif.</i>	
The Plasma in Interplanetary Space	91
L. BIERMANN, <i>Max Planck Institut für Physik und Astrophysik, München</i>	
Coronal Expansion and Solar Corpuscular Radiation	99
E. N. PARKER, <i>Enrico Fermi Institute for Nuclear Studies and Department of Physics, University of Chicago, Chicago, Ill.</i>	
Solar Proton Experiments	115
K. W. OGILVIE, <i>Space Sciences Division, Goddard Space Flight Center, Greenbelt, Mld.</i>	
Round Table Discussion	136
J. W. TOWNSEND (Chairman), <i>Space Science and Satellite Applications, Goddard Space Flight Center, Greenbelt, Mld.</i>	

**PART III / MAGNETOSPHERE, MAGNETOPAUSE AND
TRAPPED RADIATION**

On the Penetration of Interplanetary Plasma into the Magnetosphere	145
H. ALFVÉN, L. DANIELSSON, C.-G. FÄLTHAMMAR and L. LINDBERG, <i>Royal Institute of Technology, Stockholm</i>	
Null Points in Space Plasma	160
J. W. DUNGEY, <i>Department of Physics, Imperial College, London</i>	
The Artificial Radiation Belt made on July 9, 1962	170
W. N. HESS, <i>Theoretical Division, Goddard Space Flight Center, Greenbelt, Mld.</i>	
Studies of Trapped Radiation by the Telstar I and Explorer XV Satellites	189
W. L. BROWN, <i>Bell Telephone Laboratories, Inc., Murray Hill, N.J.</i>	
Low Energy Trapped Protons and Electrons	212
L. R. DAVIS, <i>Space Sciences Division, Goddard Space Flight Center, Greenbelt, Mld.</i>	
Preliminary Results of Magnetic Field Measurements in the Tail of the Geomagnetic Cavity	227
Laurence J. CAHILL, Jr., <i>National Aeronautics and Space Administration, Washington, D.C.</i>	
Observations of the Geomagnetic Cavity Boundaries	233
Norman F. NESS, <i>Space Sciences Division, Goddard Space Flight Center, Greenbelt, Mld.</i>	
Round Table Discussion	254
A. J. DESSLER (Chairman), <i>Department of Space Science, Rice University, Houston, Tex.</i>	

**PART IV / MISCELLANEOUS GEOPHYSICAL AND
LUNAR PHENOMENA**

The Ring Current, Geomagnetic Storms and the Aurora	263
Sydney CHAPMAN, <i>Geophysical Institute, University of Alaska, College, Alas. and High Altitude Observatory, Boulder, Colo.</i>	
Ionospheric Research from Space Vehicles	280
R. E. BOURDEAU, <i>Space Sciences Division, Goddard Space Flight Center, Greenbelt, Mld.</i>	
Observational Manifestations of the Interaction of the Lunar Surface with Interplanetary Space	317
Zdeněk KOPAL, <i>Department of Astronomy, The University, Manchester</i>	
Round Table Discussion	324
Sydney CHAPMAN (Chairman), <i>Geophysical Institute, University of Alaska, College, Alas. and High Altitude Observatory, Boulder, Colo.</i>	

APPENDIX

The National Aeronautics and Space Administration Space Science Program – Progress and Potential	335
John E. NAUGLE, <i>National Aeronautics and Space Administration, Washington, D.C.</i>	
Remarks on Science and Technology	372
Leland J. HAWORTH, <i>Director, National Science Foundation, Washington, D.C.</i>
