

Contents

1	The Energy Perspective and Nuclear Power ...	1
2	Economics and Reliability	5
3	Energy Independence and Conservation	12
4	Alternative Technologies	17
5	Sources of Radiation	25
6	Radioactivity from Nuclear Power Plants	28
7	Biological Effects of Radiation.....	32
8	Transportation in the Nuclear Fuel Cycle.....	38
9	Fuel Reprocessing and Nuclear Waste Disposal	44
10	Plutonium Toxicity	53
11	Diversion of Nuclear Fuel	59
12	Nuclear Plant Security.....	65
13	Thermal Discharges.....	68
14	Nuclear Power Plant Siting: Earthquakes.....	73
15	Safety: Power Plant Systems	77
16	Safety: Licensing and Regulation	81
17	Safety: Emergency Core Cooling.....	86
18	Public Risk from Nuclear Power	91
19	Benefit and Risk Perspective	96
20	Nuclear Liability and Insurance	102
21	Breeder Reactors	106
22	Thermonuclear Fusion	110
	Energy Conversion Table.....	114
	Bibliography.....	115
