xxv

SIEVERT LECTURE

- Some Non-Scientific Influences on Radiation Protection
Standards and Practice
Lauriston S. Taylor

3

OCCUPATIONAL EXPOSURE

- Reducing Occupational Radiation Exposures at LWRs
D. Lattanzi, C. Neri, C. Papa and S. Paribelli
- Radiation Protection Aspects in Decommissioning of a Fuel
Reprocessing Plant
P. Kotrappa, P. P. Joshi, T. K. Theyyunni, B. M. Sidhwa and
M. N. Nadkarni
- The Practical Application of ICRP Recommendations Regarding
Dose-Equivalent Limits for Workers to Staff in Diagnostic
X-Ray Departments
J. R. Gill, P. F. Beaver and J. A. Dennis
- Radiation Protection in the Dental Profession
B. Holyoak, J. K. Overend and J. R. Gill
- The Development of Criteria for Limiting the Non-Stochastic
Effects of Non-Uniform Skin Exposure
M. W. Charles and J. Wells
- Occupational Exposures Associated with Laser Heat Sealers
F. J. Bradley, L. Schuster, L. Cabasino, C. Tedford, D. Warren
and L. Fitzrandolph

Contents

Investigation of the Nature of a Contamination Caused by Tritium Targets used for Neutron Production E. M. M. de Ras, J. P. Vaane and W. Van Suetendael	48
Les Problemes de Radioprotection Rencontres Dans un Laboratoire de Marquage de Molecules au Carbone-11 H. Viallettes and A. Moreau	52
Some Radiation Protection Problems in a Cancer Hospital and Associated Research Institute N. G. Trott, W. Anderson, R. Davis, R. P. Parker, D. M. Carden, Nina Pearson and Elizabeth Harbottle	56
Problemes de Radioprotection Rencontres Dans un Laboratoire de Controle Radiopharmaceutique - Irradiation des Extremites des Mains J. J. Andre, J. Goubert, A. Moreau and J. P. Perotin	60
Health Physics Evaluation of an Acute Overexposure to a Radiography Source J. K. Basson, A. P. Hanekom, F. C. Coetzee and D. C. Lloyd	64
Contamination of Persons Occupationally Exposed to Natural Radioactivity in a Coal Fired Power Plant Alica Bauman and Djurdja Horvat	68
Occupational Thyroid Exposure Due to Internal Radioiodine Contamination in Radiation Workers Handling Iodine-131(125) for Non-Therapeutic Use H. R. Erlenbach	72
Personnel Dosimetry System Based on TLD at PNC Tokai Works H. Ishiguro and S. Fukuda	76
Mean and Individual Radiation Exposures of the Staff of the Karlsruhe Nuclear Research Center, 1969-1978 Winfried Koelzer and H. Kiefer	80
Personnel Hazards from Medical Electron Accelerator Photoneutrons R. C. McCall, T. M. Jenkins, R. A. Shore and P. D. LaRiviere	84
Investigation Levels of Radioisotopes in the Body and in Urine. Consequences of the Recent Recommendations on the Annual Limits of Intake Y. Shamai, M. Tirkel and T. Schlesinger	88
Health Physics Documentation G. Stäblein	92
Analysis of Medical Occupational Exposure to Ionizing Radiation on Taiwan During Past Two Decades P.-S. Weng and S.-Y. Li	95

ENVIRONMENTAL MODELLING AND DOSE ASSESSMENT

A Methodology for the Evaluation of Collective Doses Arising from Radioactive Discharges to the Atmosphere J. Hallam and G. S. Linsley	101
---	-----

Contents

Collective Doses Due to Radioactive Emissions from Nuclear Plants H. Bonka and H.-G. Horn	105
Evaluation de la Dose Collective a l'Echelle Europeenne due a des Rejets Atmospheriques A. Després, J. Le Grand, A. Bouville and Jean-Marie Guezengar	109
Influence of the Most Important Data on the Calculation of the Maximum Radiation Exposure in the Vicinity of Nuclear Facilities P. Schmidlein, H. Bonka, D. Hesel and H.-G. Horn	113
Impact Sanitaire du Programme Nucleaire Francais en 1990 C. Maccia and F. Fagnani	117
The Status of Radioactive Waste Management: Needs for Reassessments Merril Eisenbud	121
Radioecological Models for Estimating Short and Long-Term Effects of Releases in the Nuclear Fuel Cycle M. Nilsson and B. Persson	129
Evaluation des Doses Individuelles et Collectives Resultant de Rejets en Riviere H. Fabre, J. Le Grand and A. Bouville	133
Modelisation des Echanges de Produits Alimentaires en vue de l'Evaluation des Doses Collectives A. Garnier, J. Brenot, A. M. Obino and J. M. Herbécq	137
The Identification of Critical Groups G. J. Hunt and J. G. Shepherd	141
Assessment of the Radiation Exposure from the Radioactive Material Released from the Stack of a 2000 MWe Coal Fired Power Station W. C. Camplin and J. Hallam	145
Effect of the Foodchain in Radioactivities Released from Thermal Power Plants K. Okamoto	149
Hazards from Radioactivity of Fly Ash of Greek Coal Power Plants (CPP) C. Papastefanou and S. Charalambous	153
 <i>PATIENT EXPOSURE AND RADIOTHERAPY</i>	
Optimising Information Density in Nuclear Medicine Imaging Procedures L. D. Brown	161
A Study of Gonad Doses in X-Ray Radiographic Examinations of the Abdomen L. D. Brown	165
Diagnostic X-Ray Equipment Evaluation in Brazil Anna Maria Campos de Araujo, J. E. Peixoto and Vera R. G. Reis	169

Contents

Surveillance of X-Ray Machines in Israel A. Donagi, J. Hai and M. Kuszpet	173
Projections of Organ Doses from Diagnostic Radiology in Radiation Protection and Control J. J. Fletcher and H. Cember	175
Computer Aided Design of Fast Neutron Therapy Units A. E. Gileadi, H. J. Gomberg and I. Lampe	179
Measurements of the Effect of "Thyroid Blocking" in Patients Investigated with ^{125}I -Fibrinogen L. Jacobsson, S. Mattsson and B. Nosslin	183
Whole Body Electron Therapy Using the Philips SL75/10 Linear Accelerator Y. Mandelzweig, M. Tatcher and M. Yudelev	186
Neutron Production and Leakage from Medical Electron Accelerators R. C. McCall and W. P. Swanson	190
Patient Dose Evaluations from Medical X-Ray Exposure in Italy: An Analysis of Next Data M. Andrea, P. F. Mario, Susanna Antonio, C. Angelo and S. Paolo	194
Retention of Molybdenum-99 in Adult Man A. Parodo, F. Manca and G. Madeddu	198
Organ Doses in Diagnostic Radiology M. Rosenstein	202
Internal Radiation Dosimetry of F-18-5-Fluorouracil J. Shani, D. Young, T. Schlesinger and W. Wolf	206
The Current Contribution of Diagnostic Radiology to the Population Dose in Great Britain B. F. Wall, S. Rae, G. M. Kendall, S. C. Darby, E. S. Fisher and S. V. Harries	210
 <i>RADIOACTIVE RELEASES AND ENVIRONMENTAL MONITORING</i>	
Detection of Low-Level Environmental Exposure Rates Due to Noble Gas Releases from the Muehleberg Nuclear Power Plant J. Czarnecki, H. Völkle and S. Prêtre	217
Retention of ^{14}C in Nuclear Power Plants and Reprocessing Plants D. Gründler and H. Bonka	221
Statistical Correlation of Environmental Tritium Values at Trombay T. S. Iyengar, J. V. Deo, S. D. Soman and A. K. Ganguly	225
An Air Monitoring Programme in the Environment of a Major Nuclear Establishment: Operation and Results A. Knight, B. M. R. Green, M. C. O'Riordan and G. S. Linsley	229
Six-Year Experiences in the Environmental Radioactivity Monitoring of Taiwan Y.-M. Lin and C.-H. Cheng	233

Contents

The Pre-Operational Monitoring - How Useful are Recommendations of International Organizations and Various National Programs M. Mihailović	237
Migration of Radionuclides Following Shallow Land Burial J. Sedlet and N. W. Golchert	240
Principles and Results of Environmental Surveillance of the Austrian Research Center at Seibersdorf within the Last Twenty Years F. Steger, E. Etzersdorfer and H. Sorantin	244
Six-Year Experiences in the Operation of a Low Level Liquid Waste Treatment Plant S.-J. Wen, S.-L. Hwang and C.-M. Tsai	248
 <i>ASSESSMENT OF RISK</i>	
Risk Assessment Perspectives in Radiation Protection W. D. Rowe	255
On the Characterization of Risk Y. Tzur	262
Stochastic and Non-Stochastic Effects: A Conceptual Analysis L. R. Karhausen	266
Risk Estimates of Stochastic Effects Due to Exposure to Radiation - A Stochastic Harm Index Y. G. Gonen	268
Risk Ratios for Use in Establishing Dose Limits for Occupational Exposure to Radiation P. E. Metcalf and B. C. Winkler	272
Comparaison des Couts Marginaux de Protection dans les Centrales Thermiques Classiques et Nucleaires A. Oudiz and J. Lochard	276
Evaluation Quantitative et Comparative des Risques Lies Aux Centrales Nucleaires S. Vignes, J. C. Nénot and M. Bertin	280
Radiation and the Perception of Risk in the USA J. A. Hébert and R. L. Kathren	284
Physical Characteristics of the Japanese in Relation to <i>Reference Man</i> G-I. Tanaka, H. Kawamura and E. Nomura	288
Competing Risk Theory and Radiation Risk Assessment P. G. Groer	292

Contents

DOSE EQUIVALENT

Medical Irradiation and the Use of the "Effective Dose Equivalent" Concept B. R. R. Persson	299
Is the Dose Equivalent Index a Quantity to be Measured? S. R. Wagner	307
Dose Equivalent Conversion Factors for External Photon Irradiation R. Kramer and G. Drexler	311
A Theoretical Approach for the Measurement of the Effective Dose Equivalent for External Radiations R. Jahr, R. Hollnagel and B. Siebert	317
Biological Effectiveness of Fast Neutrons M. Coppola and G. Silini	321

DOSIMETRY

A Systematic Approach to Personnel Neutron Monitoring R. V. Griffith and D. E. Hankins	327
The Present State of Nuclear Accident Dosimetry B. Majborn	335
Remarks on the Present TLD Concept in Personnel Monitoring D. F. Regulla and G. Drexler	339
Phosphate Glass Dosimetry: A Potential Alternative in Personnel Monitoring E. K. A. Piesch and D. F. Regulla	343
Track Structure Calculation of the Thermoluminescent Yields of Heavy Charged Particles Y. S. Horowitz and J. Kalef-Ezra	347
Fast Neutron Dosimetry Using CaSO ₄ :Dy Thermoluminescent Dosimeters N. J. Azorín, C. R. Salvi, J. L. Rubio and C. A. Gutiérrez	351
European Interlaboratory Test Programme for Luminescence Dosemeter Systems Used in Environmental Monitoring B. Burgkhardt, E. Piesch and H. Seguin	355
Simultaneous Sensitisation and Re-Estimation in Thermoluminescent LiF M. W. Charles and Z. U. Khan	359
Skin Dose Assessment in Routine Personnel Beta/Gamma Dosimetry P. Christensen	363
Electret Dosimetry G. Dreyfus, J. Lewiner, D. Perino, W. Buttler and J. C. Magne	367

Contents

Development of Neutron Dosimeters for Fast and Epithermal Neutrons Y. Eisen, Y. Shamai, E. Ovadia, Z. Karpinovitch, S. Faerman and T. Schlesinger	371
Arrangement of a TLD System to Measure the Dose to Patients Undergoing Irradiation C. Furetta, R. Pellegrini and C. Bacci	375
Polyurethane as a Base for a Family of Tissue Equivalent Materials R. V. Griffith	380
Development of a Personnel Neutron Dosimeter/Spectrometer R. V. Griffith, J. C. Fisher, L. Tommasino and C. Zapparoli	384
Neutron Sensitivity of Geiger-Müller Photon Dosimeters for Neutron Energies Between 100 keV and 19 MeV S. Guldbakke, R. Jahr, H. Lesiecki and H. Schölermann	388
Microdosimetric Approach for Lung Dose Assessments W. Hofmann, F. Steinhäusler, E. Pohl and G. Bernroider	392
Calibration and Application of the Multisphere Technique in Neutron Spectrometry and Dosimetry C. J. Huyskens and G. J. H. Jacobs	396
Spark Counting Technique with an Aluminium Oxide Film H. Kawai, T. Koga, H. Morishima, T. Niwa and Y. Nishiwaki	400
A Microcomputer Controlled Thermoluminescence Dosimetry System C. J. Huyskens and P. J. H. Kicken	404
Recent Development of Fluoro-Glass Dosimeter in Japan Y. Nishiwake and T. Omori	408
TSEE Dosimeter for Gamma-Rays and Fast Neutrons Using Ceramic BeO S. Ohtani	412
Beta Response of TL Personnel and Environmental Surveillance Dose Meters D. F. Regulla and L. Caldas	416
Dosimetric Applications of Cellular Electrophysiological Changes Under High- and Low-LET Irradiation in Health Physics F. Steinhäusler, W. Hofmann, P. Eckl and Johanna Pohl-Rüling	420
Electrochemical Etching CR-39 Foils for Personnel Fast Neutron Dosimetry L. Tommasino, G. Zapparoli, R. V. Griffith and J. C. Fisher	424
Classification of LiF- Dosimeters Using the Ratio of Peak Heights W. Wachter, N. J. Vana and H. Aiginger	428
Enquête sur la Qualité d'Exploitation des DéTECTEURS GAMMA au Germanium J. C. Zerbib	431

Contents

APPLIED RADIATION PROTECTION

Radiation Protection for Industrial Radiography in the Aerospace Industry W. E. Morgan	437
Simulation and Computation in Health Physics Training J. R. A. Lakey, D. C. C. Gibbs and C. P. Marchant	443
Retention of Radioactive Substances, Aerosols and Poison Gas by Sandfilter L. Balcarczyk, V. Hess and H. Sorantin	447
A Study of Effluent Control Technologies Employed by Radiopharmaceutical Users and Suppliers L. Leventhal, J. Slider, E. Chakoff, J. I. Cehn and E. Savage	450
Surveying and Assessing the Hazards Associated with the Processing of Uranium J. Kruger	454
Rupture Accident in a BWR Offgas Charcoal Treatment System Michele Laraia	460
Tritium Control at the Tritium Systems Test Assembly R. A. Jalbert	464
Tritium Control Field Study at an 'Open-Concept' Candu (PHWR) Station L. J. Sennema, M. A. Maan and G. A. Vivian	468
The Control of Radioactivity in the Working Environment in the Factories for Production of Phosphate Fertilizers B. N. Ajdacic, S. S. Gnjatovic and P. V. Vujoovic	472
Present State of the Monitoring for Internal Contamination at Tokai Research Establishment, Japan Atomic Energy Research Institute J. Akaishi, H. Fukuda and S. Mizushita	476
Uranium Compounds in Ceramic Enamels-Radioactivity Analysis and Use Hazards G. Cucchi and P. Amadesi	480
Emergency Plan for a Uranium and Plutonium Handling Laboratory A. Hefner, P. Mullner and H. Sorantin	483
Radiation Exposure of Personnel in a Reprocessing Plant G. Herrmann	487
Radiological Protection Aspects of ^{123}I Production C. J. Huyskens and R. L. P. van den Bosch	491
Experiences in Monitoring Airborne Radioactive Contamination in Jaeri Y. Ikezawa, T. Okamoto and A. Yabe	495
An Operational System of Radiation Protection for Occupationally Exposed Personnel R. Kramer and G. Drexler	499

Contents

Studies on the Radiation Burden Using ^{131}I for Thyroid Therapy J. W. Krzesniak and O. A. Chomicki	502
Evaluation of the Protection Factor of Half-Masks with Respirator Fitting Test Apparatus M. Murata, Y. Ikezawa, Y. Yoshida, H. Matsui and M. Kokubu	506
Mesures de Debit de Dose au Contact de Divers Materiels de Laboratoire Utilises en Radiochimie et Radiobiologie J. P. Perotin, A. Moreau, J. P. Guerre and J. Goubert	510
Contribution a l'Irradiation de l'Am 241 Present Dans le Plutonium. Risques Radiologiques Lies Aux Manipulations de l'Am 241 G. Pescayre and L. Piton	514
Radiation Protection Problems at Compact Cyclotrons for Medical and Other Use P. F. Sauermann, W. Friedrich, J. Knieper, K. Komnick and H. Printz	518
Development of Guidelines for Incorporation Monitoring Programs H. Sorantin, K. Irlweck and F. Steger	522
Characterization of Working Conditions for Handling Radionuclides Y. van der Feer	528
<i>ETHICAL AND LEGAL ASPECTS</i>	
A Bioethical Perspective on Radiation Protection and "Safety" M. N. Maxey	535
Ethical Norms in the Use of Radiation and Nuclear Power P. Oftedal	543
The Irradiation of Human Volunteer Subjects in Research R. Rosen	549
Regulatory Limits in Radiation Injury Cases: Recent Developments G. Charnoff	553
<i>ATMOSPHERIC DISPERSION AND AEROSOL BEHAVIOR</i>	
Long-Range Transport of Radioisotopes in the Atmosphere and the Calculation of Collective Dose H. M. ApSimon, A. J. H. Goddard and J. Wrigley	559
Comparison of the Atmospheric Dispersion Calculation with the Measurements of γ -Radiation Levels from Ar-41 Releases S. Chakraborty, E. Nagel and A. Zurkinden	563
Realistic Environmental Exposure Calculation for a Multisource Facility H. G. Ehrlich, K. Heinemann and K. J. Vogt	567
Reduction of the Environmental Concentration of Air Pollutants by Proper Geometrical Orientation of Industrial Line Sources J. Tadmor and A. Eisner	571
The Importance of Plume Rise in Risk Calculations L. S. Fryer and G. D. Kaiser	575

Contents

Statistical Studies on the Limitation of Short-Time Releases from Nuclear Facilities K. Heinemann and K. J. Vogt	579
Washout and Dry Deposition of Atmospheric Aerosols J. Porstendorfer, G. Robig and A. Ahmed	583
The Functional Dependence of the Total Hazard from an Air Pollution Incidence on the Environmental Parameters D. Skibin	588
Resuspension of Plutonium from Contaminated Soils V. D. Vashi, P. Kotrappa and S. D. Soman	592
A Revised Method to Calculate the Concentration Time Integral of Atmospheric Pollutants E. Voelz and H. Schultz	596
Comparison of Two- and Three-Dimensional Atmospheric Dispersion Models A. Zurkinden	600
