

CONTENTS

Volume 2

Session No. 13D

NON-IONIZING RADIATION - ELECTROMAGNETIC FIELDS

- Electromagnetic Energy Deposition and Models of Human Thermoregulation 593
Jan A.J. Stolwijk
- Considerations Involved in the Specification of Limits on Human Exposure to Electric and Magnetic Fields at Frequencies Below 300 GHz 594
J.A. Dennis
- Time Varying Magnetic Fields and Dosimetric Principles 595
Jürgen H. Bernhardt
- Radiofrequency Power Deposition During Magnetic Resonance Diagnostic Examinations 599
M. Grandolfo and P. Vecchia
- Safety of the Patient During In Vivo Magnetic Resonance Examinations. Rationale for the INIRC/IRPA Guideline 603
Przemysław Czerski
- The Measurement of Body Currents Induced by Radio Frequency Fields 607
S.G. Allen, R.P. Blackwell, C. Unsworth and J.A. Dennis
- A Surface Acoustic Wave Electric Field Strength Meter for Environmental Studies of HV Transmission Lines 608
M. Grandolfo, C. Ranghiasi, L. Raganella and E. Verona
- An Automated Dosimetry System for Microwave and Thermal Exposure of Biological Samples In Vitro 612
K.H. Joyner, C.C. Davis, E.C. Elson, E.M. Czerska and P. Czerski
- Methodology of Measurements and Evaluations of Electromagnetic Fields Around Radiotransmitter Devices 616
Anna Russo and Renzo Delia
- Measurement Procedure for Electromagnetic Fields of Radar Systems, Using a Spectrum Analyzer Apparatus 620
Anna Russo and Biagio Russo

| | |
|--|-----|
| The Effects of Ultraviolet Radiation on Some Plastic Detectors <i>C.F. Wong and R. Fleming</i> | 624 |
| Session No. 7A ENVIRONMENTAL TRANSFERS AND MODELLING | |
| Contribution de la Radioécologie à la Radio- protection - Bilan de 30 Ans de Recherche - Evolution des Programmes Notamment dans le Domaine des Accidents <i>A. Grauby</i> | 628 |
| A Plea for Consistent Criteria for Interpreting Radiological Environmental Data <i>D.H. Denham and R.L. Kathren</i> | 632 |
| Le Concept de Retour d'Expérience en Radioécologie - Application au Cas d'un Fleuve a Forte Implantation Nucléaire : Le Rhône <i>L. Foulquier, A. Grauby, A. Lambrechts and M. Pally</i> | 633 |
| Radioecological Pathway of Elementary Tritium Studied in the Laboratory and During Release Experiments <i>H. Förstel</i> | 637 |
| Transfer Factors Across the Human Gut for Plutonium and Americium in Shellfish from Near Sellafield <i>G.J. Hunt, D.R.P. Leonard and M.B. Lovett</i> | 638 |
| The Use of Thermoluminescent Dosemeters in Measuring External Exposure of Potential Members of a Critical Group Near Sellafield to Verify Data from Habits Surveys <i>D.R.P. Leonard and G.J. Hunt</i> | 642 |
| Dose to Man from the Consumption of Marine Seafoods: A Comparison of Naturally-Occurring and Artificial Radionuclides in Fish and Shellfish <i>R.J. Pentreath</i> | 646 |
| Application of Parameter Uncertainty Analysis to the Accumulation of Cs-137 in Fish <i>Sverker Evans</i> | 647 |
| Concentration Factors of Stable Elements and Radio- nuclides in Po River Fish <i>M. Achilli, A. Bozzani, G. Ciceri, L. Guzzi and G. Queirazza</i> | 648 |
| The Transport and Deposition of Radionuclides Discharged into Creek Waters from the Ranger Uranium Mine <i>A. Johnston, A.S. Murray, R. Marten and P. Martin</i> | 652 |

| | |
|---|-----|
| Cellular and Subcellular Distribution of Uranium and Transuranic Radionuclides in Marine Organisms <i>C. Chassard-Bouchard and P. Galle</i> | 656 |
| Measured Deposition Velocities and Rainout Coefficients After the Chernobyl Accident Compared with Theoretical Models and Experimental Data <i>H. Bonka, H.-G. Horn and M. Maqua</i> | 660 |
| Relevant Nuclides and Exposure Pathways for the Radiation Exposure in the Vicinity of the Reprocessing Plant at Wackersdorf, Federal Republic of Germany <i>A. Weinig, A.D. Brenk, R. Gasteiger and H. Hauske</i> | 664 |
| Simulation Model Predicting Contaminant Spread Due to Radionuclides Released from Nuclear Power Plants <i>Kousuke Katsurayama and Fukui Prefectural Committee on Nuclear Safety</i> | 669 |
| Dispersion and Resuspension Factors of Radioactive Dusts Derived from Air Monitoring Data in JAERI <i>H. Matsui, Y. Ikezawa, Y. Izumi, H. Tomii, J. Onodera, Y. Anazawa, H. Yamamoto and Y. Yoshida</i> | 673 |
| Test of Existing Models on the Long-Term Radio- active Contamination of Foodstuffs Through Field Measurements on Wheat Crops <i>G. Campos Venuti, G. Imbroglini, G. Mariutti, S. Risica and S. Simula</i> | 677 |
| Natural and Artificial Levels of Radioactivity in Soil of Campania Region <i>G. Gialanella, M. Napolitano, V. Roca and P.R. Speranza</i> | 681 |
| Evaluation of the Radiological Impact Due to the Operation of Nuclear Power Stations in Argentina <i>A.A. Oliveira, A.R. Curti and C.E. Nollmann</i> | 685 |
| Some Experience with Measurements of Stack Releases and their Correlation with Environmental Measurements <i>J. Czarnecki</i> | 689 |
| Radionuclides Sorption Studies in Ezeiza Soils <i>G. Siraky, C. Lewis, S. Hamlat and C. Nollmann</i> | 693 |
| Détermination Expérimentale de la Vitesse d'Oxydation du Tritium dans l'Atmosphère <i>H. Clerc, J.P. Calando, Ph. Paillard, R. Gros and B. Hircq</i> | 698 |

| | |
|---|-----|
| Experiments and Calculations on the Adsorption of Radioactive Elemental Iodine Gas on Aerosol <i>H. Noguchi, M. Murata and H. Matsui</i> | 702 |
| Long-Term Observation of Tritium in Pine Needles Near Nuclear Facilities <i>Y. Inoue, K.T. Miuamoto, T. Iwakura and S. Jin</i> | 706 |
| Behaviour of Tritium in Environmental Samples Around Nuclear Facilities at Tokai-Mura <i>J. Ishida, O. Narita and Y. Kitahara</i> | 710 |
| Determination of ^{127}I and ^{129}I in Environmental Samples by Neutron Activation Analysis <i>M. Takeishi, A. Namiki, J. Ishida and Y. Kitahara</i> | 714 |
| Monte Carlo Calculation of Gamma Radiation Field Due to Iodine-131 Released to the Environment <i>N. Fujinami, S. Esaka and S. Minato</i> | 715 |
| Session No. 4 | |
| MEDICAL RADIATION EXPOSURE | |
| Evaluation of Risk-Benefit in Diagnostic Imaging <i>J. Cormack</i> | 716 |
| New Trends Affecting Swedish Patient Doses from Diagnostic Procedures <i>J. Valentin, Per-Göte Blomgren, G. Hellström, P. Hofvander, J. Karlberg and W. Leitz</i> | 720 |
| Analysis of Radiation Exposure and Control in the Cardiac Catheterization Laboratory <i>Jerrold T. Bushberg, J. Anthony Seibert, J. Gargano and T. Murphy</i> | 724 |
| Compositional Qualification of Radiation Protection in Neutron Radiotherapy Room with 50 MeV Cyclotron <i>Seong Yul Yoo, Kyuong Hwan Koh and Chul Goo Cho</i> | 725 |
| Determination of the Collective Radiation Dose to Certain Organs in Patients Undergoing X-Ray Examinations <i>Marlon Raul Z. Tecson</i> | 726 |
| Radiological Dose to the Child During Cardiac Catheterization (Axial Radiological Projections) <i>G. Testoni, T. Bernardi, R. Zannoli and B. Magnani</i> | 727 |
| Radiation Exposures to Patients During Cardiac Angiography and Coronary Angioplasty <i>J. Hagekyriakou and M.A. Chaudhri</i> | 732 |

| | |
|---|-----|
| Assessment of Radiation Exposures in Bi-Plane C-Arm Pediatric Cardiac Studies <i>Wei-Kom Chu</i> | 736 |
| Radiation Exposure During Cardiac Catheterization Procedures <i>Pierre J.H. Kicken, Johan H.A. Janssen, Herman R. Michels and Chris J. Huyskens</i> | 737 |
| The Effect of the Chernobyl Accident on the Number of Radiographic Examinations in Greece <i>C. Proukakis, E. Georgiou, C. Ntalles, M. Niagasas, M. Molfetas and S. Kyrkanidis</i> | 741 |
| High Contrast Images for the Verification and Documentation of Treatment Fields During Teletherapy <i>J. Schütz, H.L. Kronholz and E. Schnepfer</i> | 742 |
| Radiation Shielding Design and Surveying of Radiodiagnostic and Radiotherapy Installations Based on Several Computer Codes <i>E. Ne'eman, S. Brenner and S. Faermann</i> | 746 |
| Internal Contamination in Nurses Attending Patients, That Received Therapeutic Amounts of Radio- iodine-131 <i>W. Termorshuizen and A.J.M. Gerritsen</i> | 747 |
| "S" -Absorbed Dose Per Unit Cumulated Activity for Selected Radionuclides in Organs of Pediatric Models <i>Robert E. Simpson, Donald R. Hamilton, Mark Cristy, K.F. Eckerman and J.C. Ryan</i> | 751 |
| Patient Exposure in General Dental Practice in The Netherlands <i>X.L. Velders and H.A. Selling</i> | 752 |
| The Development and Operation of a Dental Monitoring Service Involving the Remote Determination of X-Ray Beam Parameters <i>A.P. Hudson, J.M. Hewitt, J.R. Croft and G.A.M. Webb</i> | 756 |
| Dose Distribution in Oral Radiography <i>P.F. van der Stelt and A. Zwigf</i> | 760 |
| Patient Exposures from Intra-Oral Dental Radio- graphic Examinations <i>S.Y. Acram</i> | 764 |
| Handbooks of Tissue Doses in Diagnostic Radiology <i>Marvin Rosenstein</i> | 765 |

| | |
|---|-----|
| Performance Evaluation of DSA Units <i>A. Servomaa and Y. Björkman</i> | 769 |
| An Evaluation of the Victoreen "NERO" (Non- Invasive Evaluator of Radiation Outputs) <i>G.A. Shah, J. Hagekyriakou and M.A. Chaudhri</i> | 770 |
| Radiation Protection in the Medical Field <i>César F. Arias</i> | 774 |
| Radiation Protection Surveys - As an Optimising Procedure in Diagnostic Radiology <i>C.M. Vasisht and Y.Y. Bakir</i> | 775 |
| Optimum X-Ray Energy in Diagnostic Radiology: Monte Carlo Simulation Studies <i>R. Pani, P.L. Ballesio, R. Pellegrini, A. Soluri and R. Horn Orni</i> | 779 |
| Exit Spectra from the Patient in Diagnostic Radiology: Monte Carlo Simulation Studies <i>R. Pani, R. Pellegrini, A. Soluri, L. Ballesio and F. Forzano</i> | 783 |
| A New Postal Quality Assurance Program for Diagnostic Radiology Departments <i>L.D. Brown</i> | 787 |
| A Microcomputer Based X-Ray Quality Assurance Program <i>L. Denis Brown</i> | 791 |
| Current State of a Dosimetric Evaluation Programme in Diagnostic Radiology Installations in Spain <i>E. Vañó, L. González, A. Calzado, V. Delgado, P. Morán, B. Sanchez and F. Murias</i> | 795 |
| Two Important Factors Influencing Thyroid Internal Dose for Radioiodine <i>lei Kui, Zhang Zhonghou and Li Shijun</i> | 799 |
| Session No. 1A RISK (PLENARY) | |
| How Safe Can We Be? <i>Bo Lindell</i> | 800 |
| Optimisation in Medicine: The Potential and the Problems <i>G.A.M. Webb, J.R. Croft and B.F. Wall</i> | 804 |
| International Approach Towards Treating Radiation Exposure with Probability Less Than One <i>J.U. Ahmed and A. Gonzalez</i> | 808 |

Session No. 10C

RADIATION ACCIDENTS - ACCIDENT SCENARIOS,
MEDICAL TREATMENT

Accidental Release of UF₆ At the Sequoyah Fuels
Corporation Facility at Gore, Oklahoma, U.S.A. 809
Edward Y. Shum

REAC/TS: A Comprehensive Program for Medical
Management of Radiation Accidents 813
Robert C. Ricks

Medical Treatment of Whole-Body Overexposed
Individuals 814
*D. Jullien, A. Flury-Hérard, N. Parmentier and
J.C. Nénot*

Emergency Preparedness : Medical Management of
Nuclear Accidents Involving Large Groups of
Victims 818
N. Parmentier and J.C. Nénot

Accidents and Incidents Outside the Nuclear
Energy Sphere 822
Jack Valentin and Lars Upphed

Assessment of Radiation Exposure to a Non-Radiation
Worker in an Industrial Radiography Source
Transport Accident 826
*P. Gangadharan, A.V. Lakshmipathy, B.K.S. Murthy
and Geetha Varadharajan*

Diagnostic Procedure and Treatment of a Residual
Radioactive Contamination with Co-60 827
J.C. Giménez, M.A. Righetti and E. Thomasz

Accident in a Critical Facility: Physical Dosimetry 831
*A. Bomben, B. Gregori, G. Massera, M. Righetti
and E. Thomasz*

Incident Involving Loss of a 37 GBq Americium 241
Source from a Radiation Gauge 835
A.J. Melbourne

Surgical Treatment of Plutonium-Contaminated Wounds 839
Liu Yan-Ling

Session No. 6B

NATURAL RADIATION - RADON BEHAVIOUR AND
OTHER ASPECTS

Space Age Radiation Protection 840
Joseph A. Angelo, Jr.

| | |
|--|-----|
| Intercomparison of Radon Measurement Techniques <i>J. Keskinen, E. Oksanen, M. Lehtimäki, M. Annanmäki and J. Laaksonen</i> | 841 |
| Pacific Region Radon Daughter Intercomparison <i>S.B. Solomon, J.R. Peggie and T.H. Gan</i> | 845 |
| Ionization Chamber Radon Monitor with Pulse Counting Mode <i>J. Laaksonen, M. Lehtimäki, J. Keskinen and K. Janka</i> | 849 |
| A Method of Measuring the Attachment Rate Equivalent Particle Concentration <i>M. Lehtimäki, K. Janka and J. Keskinen</i> | 853 |
| The KFK Passive Personal Dosemeter for Exposure to Radon and External Gamma-Radiation <i>M. Urban and J. Schmitz</i> | 857 |
| An Integrating Potential α -Energy Monitor for Environmental Radon Measurements <i>Takao Iida</i> | 861 |
| Radiological Problems in Phosphoric Acid Plants <i>A. Bassignani, P. Finazzi and L. Falconieri</i> | 865 |
| Considerations About Treatment and Handling of Radioactive Scales from Petroleum and Formation Waters <i>A. Bessignani, G. Dossena, G. Di Luise and P. Finazzi</i> | 866 |
| Chemical and Radiometric Determination of Uranium and Thorium in Zircon Sands and Phosphorites After Separation by Extraction Chromatography <i>C. Testa, D. Desideri and S. Bazzarri</i> | 867 |
| A Comparison of Radon Emanation Rates from Fly Ash and From Concrete Made with Fly Ash <i>Paul L. Ziemer, Terence P. Barton and Jou-Guang Hwang</i> | 871 |
| Radioactive Scale in Off-Shore Oil Installations <i>Brian Heaton</i> | 872 |
| Some Radioecological Aspects from Coal Power Plants <i>C. Papastefanou, M. Manolopoulou and S. Charalambous</i> | 876 |
| Observation of the Diurnal Variation of the Short-Lived ^{222}Rn Daughters Concentrations in the Atmosphere by α -Ray Spectrometry <i>Toshio Kataoka, Eiji Yunoki, Kenshuh Michihiro, Hirokazu Sugiyama, Kazuyoshi Matsunaga, Hirokazu Tanimoto and Tatsuo Ishida</i> | 877 |

| | |
|--|-----|
| The Verticle Distribution of Radon 222 in the Atmosphere <i>Tadayoshi Kubozoe, Yoshihisa Watanabe, Katsumi Nakamura, Masuo Kabeyama and Yuzi Aihara</i> | 881 |
| Comparison of Atmospheric Radon Daughters Content Observed at Mountain Peak with Nearby Plain <i>T. Nishikawa, S. Okabe and M. Aoki</i> | 885 |
| The Size Distribution of Radon Daughter Aerosol Particles in Indoor and Outdoor Air and Their Deposition to Respiratory Tract <i>M. Shimo, K. Sugiyama and V. Ikebe</i> | 889 |
| Dose Assessment of Maintenance Workers and Significance of Radium-Impregnated Used Filters in the Phosphate Fertilizer Industry <i>John M. Wetherill</i> | 893 |
| Neutralization, Clustering and Attachment of Radon Progeny in Air <i>Colin R. Phillips</i> | 894 |
| The Implication of the Time-Dependent Diffusion Theory on Radon-222 Exhalation Measurements <i>Christer Samuelsson and Kjell Erlandsson</i> | 898 |
| Effects of Atmospheric Stability on Radon Dispersion in the Lower Boundary Layer <i>R.S. O'Brien and K.N. Wise</i> | 902 |
| Probability of Background Radiation Enhancement Accompanied with Rain <i>Kazunobu Fujitaka and Siro Abe</i> | 906 |
| Shielding Effect of Snow Cover on Indoor Exposure Due to Terrestrial Gamma Radiation <i>Kenzo Fujimoto and Sadayoshi Kobayashi</i> | 910 |
| Vertical Distribution of Natural Radioactive Nuclides in Soil (Depth of 0 to 30 Cm) <i>Kazuko Megui, Shojiro Kimura, Tadashi Tsujimoto and Kousuke Katsurayama</i> | 914 |
| Background Radiation in the Sydney Metropolitan Area Scientific Reality and Public Perception <i>L.G. Kemeny</i> | 918 |
| Results of 30 Years of Environmental Surveillance in Italy <i>C. Faloci, S. Mancioffi, S. Piermattei and A. Susanna</i> | 922 |
| Natural Radiation External Exposures Levels in Chilean Sub-Antartic and Country Stations <i>E. Stuardo</i> | 926 |

| | |
|---|-----|
| Results from the Automatic Swiss Dose Rate Monitoring Network NADAM <i>P. Honegger</i> | 930 |
| Measurement of Alpha Activity Concentration in the Ground Air Using Collulose Nitrate Nuclear Track Detectors <i>Jae-Shik Jun and Dong-Bum Myung</i> | 934 |
| Session No. 3 REGULATORY DEVELOPMENTS | |
| Radiological Protection in the CEGB - The Changing Scene <i>R.B. Pepper</i> | 935 |
| Nouvelle Législation dans le Domaine de la Radioprotection <i>B. Michaud, M. Monnier, E. Müller and G. Wagner</i> | 939 |
| Radiation Protection Standards in the United States <i>W.A. Mills, F.J. Arsenault and E.F. Conti</i> | 943 |
| The Use of Radioactive Substances in The Netherlands <i>Jos Th. Hemelaar and Chris J. Huyskens</i> | 947 |
| The State of Radiation Protection in Iran <i>M. Sohrabi</i> | 951 |
| Radiation Protection in the Ministry of Nuclear Industry <i>Pan Zhiqian, Li Zhenping and Mao Huanzhang</i> | 955 |
| Review of IAEA Recommendations on the Principles and Methodologies for Limiting Releases of Radioactive Effluents to the Environment <i>J.U. Ahmed</i> | 956 |
| Application of the Ionising Radiations Regulations 1985 to a Research Establishment in the UK <i>I. Ashton and J.M.G. Walker</i> | 960 |
| Licensing Requirements for Users of Ionizing Radiation Sources in South Australia : Training Courses and Assessment Procedures <i>G. Bibbo and T. Passmore</i> | 964 |
| Session No. 10D RADIATION ACCIDENTS - EMERGENCY PROCEDURES | |
| Application of Intervention Levels in Sweden After Chernobyl <i>Gunnar Bengtsson</i> | 968 |

| | |
|---|------|
| Organisation d'Intervention en Cas d'Augmentation de la Radioactivité <i>B. Michaud, D. Schmid and J.-B. Ramelet</i> | 972 |
| Emergency Preparedness in Sweden After Nuclear Safety Improvements and the Chernobyl Accident <i>Jan Olof Snihs and B. Ake Persson</i> | 976 |
| Emergency Planning Lessons Learned from a Review of Past Major Radiological Accidents <i>J.G. Stephan, J.M. Selby, J.B. Martin, D.W. Moeller and E.J. Vallario</i> | 980 |
| Decontamination Strategies in Urban Areas After Nuclear Accidents <i>R. Hille, K. Frenkler and H. de Witt</i> | 984 |
| New International Law Concerning Nuclear Accidents and Radiological Emergencies <i>Werner Bischof</i> | 988 |
| Site Emergency Data Interpretation <i>A. McWhan, G.C. Meggitt, I.P. Graham and G.P. Stonell</i> | 989 |
| The Prevention of Accidents in Industrial Gamma Radiography <i>J. Candiotti</i> | 993 |
| Spanish Practice and Experience in the Implementation of Nuclear Emergency Plans <i>Dolores Carrillo and Francisco Diaz De La Cruz</i> | 994 |
| Radiation Risks of Large Scale Nuclear Accidents - A Case Study <i>John G. Kollas</i> | 995 |
| Off-Site Risk Study for the Three Operating Nuclear Power Stations in Taiwan <i>Tien-Ko Wang, Bau-Sheil Pei, Cheng-Chung Lin, Chao-Ting Huang and Hung-Ming Liu</i> | 999 |
| Fires Involving Radiactive Materials Transference Model. Operative Recommendations <i>C.E. Rodriguez, L.J. Puntarulo and J.A. Cañibano</i> | 1000 |
| Some Experiences on Effect of External Decontamination in the Prevention of Irradiation <i>Dragoslav B. Stojanović and Katarina S. Milivojević</i> | 1004 |
| Intervention Levels for Cases Following Nuclear Accidents <i>H.A. Bruno, E. Palacios and J.J. Kunst</i> | 1008 |
| Radioactivity and Fire : A Hard Challenge for the Risk Manager : An Unacceptable Risk <i>A. Bazzan</i> | 1012 |

| | |
|---|------|
| How to Cope with Emergency from Transboundary Releases of Radioactivity <i>Alica Bauman</i> | 1014 |
| Session No. 8G INSTRUMENTATION - INDUSTRIAL | |
| The Comprehensive Evaluation of the Radiological Hazard from Surface Contamination <i>G.D. Whitlock</i> | 1017 |
| Comparative Evaluation of Whole Body Counters for Use in the Implementation of an ICRP 30 Internal Dosimetry Program <i>James W. Neton and Mark T. Mercier</i> | 1018 |
| Rapid Monitoring of Personnel for Internal Contamination <i>Clive H.C. Dray</i> | 1022 |
| A Vertical Scanning Germanium Whole Body Counter: The ACCUSCAN-11 <i>Frazier L. Bronson</i> | 1026 |
| Uranium/Plutonium Lung Counter Using Multiple Germanium Detectors <i>Frazier L. Bronson</i> | 1029 |
| A Safe Infra-Red Nd:YAG Laser Fiberoptic Guide System <i>Zahoor M. Alvi</i> | 1032 |
| A High Reliability Personal Alarm Dosemeter with a Semiconductor Detector <i>Toshikazu Suzuki, Yoshiyuki Nagase, Takeshi Ishikura, Eisuke Okamoto and Yoshiteru Yoshida</i> | 1033 |
| Towards an Automated TLD System that Meets International Requirements <i>L. Bøtter-Jensen and V. Vanamo</i> | 1036 |
| Contamination Control: Instrumentation and Measurement Trends in the USA <i>Eric L. Geiger and Steven B. Willhoite</i> | 1040 |
| Session No. 16A ICRP (PLENARY) | |
| Recent Biological Developments of Importance in Radiation Protection <i>Warren K. Sinclair</i> | 1041 |
| ICRP and the Radon Problem <i>Bo Lindell</i> | 1045 |

| | |
|--|------|
| ICRP Activities in Medicine - The Development of Comprehensive Guides to Good Practice <i>Roger J. Berry</i> | 1049 |
| Evolution of the ICRP Radiation Protection Philosophy <i>D.J. Beninson</i> | 1053 |
| Session No. 2C BIOLOGY - RADIOTOXICITY IN BEAGLES | |
| Beagle Dog Studies in Radiation Protection <i>Robert G. Thomas</i> | 1054 |
| Lifespan Dose-Effect Relationships for Inhaled ²³⁹ PuO ₂ in Beagles <i>J.F. Park, G.E. Dagle, R.E. Weller and R.L. Buschbom</i> | 1058 |
| The Relative Effectiveness of Inhaled Alpha- and Beta-Emitting Radionuclides in Producing Lung Cancer <i>B.B. Boecker, F.F. Hahn, B.A. Muggenburg, R.A. Guilmette, W.C. Griffith and R.O. McClellan</i> | 1059 |
| Age Effects on the Induction of Radiation-Induced Lung Disease in Beagles That Inhaled ²³⁹ PUO ₂ Aerosols: Status Report <i>R.A. Guilmette, B.A. Muggenburg, F.F. Hahn, B.B. Boecker and R.O. McClellan</i> | 1063 |
| Session No. 10A RADIATION ACCIDENTS - CHERNOBYL (i) | |
| Health Hazards from Radiocaesium Following the Chernobyl Accident <i>Michael J. Suess</i> | 1067 |
| Implications from the Chernobyl-Accident for Off-Site Response to Transboundary Contamination <i>F. Steinhäusler and L. Rockwood</i> | 1071 |
| Effective Dose Equivalent to Breast Fed Infants Due to Artificial and Natural Radioactivity <i>G. Campos Venuti, F. Felici, A. Grisanti, G. Grisanti, S. Risica and S. Simula</i> | 1075 |
| Preliminary Dose Assessment in Turkey After the Chernobyl Accident <i>M. Guven Yalcintas and David E. Fields</i> | 1079 |
| Weathering and Migration of Chernobyl Fallout in Sweden <i>Olof Karlberg</i> | 1080 |

| | |
|--|------|
| Swedish Radiation Protection Research Following Chernobyl: Dispersion, Deposition, Migration, Uptake, Intake, Dose <i>Ulf Bäverstam and Leif Moberg</i> | 1081 |
| Radionuclide Concentration from Peat Burning After the Chernobyl Accident <i>Robert Hedvall, Bengt Erlandsson and Håkan Pettersson</i> | 1082 |
| Collective Dose Commitment in Sweden After the Chernobyl Accident : Calculation for Inhalation an External Irradiation <i>Robert Finck, Kay Edvarson, Lars-Erik De Geer, Björn Bjurman, Ingemar Vintersved, Rune Arntsing and Siv Jacobsson</i> | 1085 |
| Results of a Honey Monitoring Program in Italy After the Chernobyl Accident <i>C. Omet, S. Piermattei, P. Ossola, S. Tofani, M. Fabretto and R. Padovani</i> | 1086 |
| Radiation Monitoring of Imported Food to Saudi Arabia After Chernobyl Accident <i>Samir Abdul-Majid, Waleed Abulfaraj, Mohammed S.Al-Johani, Abdel Megid Mamoon, Abdulrahman F.Abdulfattah and Kollathodi M. Abubakar</i> | 1090 |
| Monitoring of Radioactivity in Imported Foodstuffs: Experience Gained and Recommendations <i>Abdel Megid Mamoon, Abdulrahman F.Abdulfattah, Waleed H. Abulfaraj, Samir Abdul-Majid, Mohammed Al-Johani and Kollathodi M. Abubakar</i> | 1094 |
| Post-Chernobyl Whole-Body Counting Measurements in the Federal Republic of Germany <i>H. Schmier, P. Koeppe, H. Erlenback, D. Berg, K.-H. Brod, H. Doerfel, Ch. Hansen, R. Kunkel, E. Rose, H. Schieferdecker and E. Werner</i> | 1098 |
| Handling of Radioactive Fallout Problems at Chernobyl Accident (1986) as Compared with that of Bikini Accident (1954) <i>Y. Nishiwaki, H. Kawai, H. Morishima, T. Koga, T. Niwa and Y. Sugimura</i> | 1102 |
| Follow-up Measurements of ¹³¹ I Thyroid Activity in 54 German Children After the Chernobyl Accident <i>Ch. Hansen, P. Roth, E. Werner, F. Kollmann, L. Hähnle and B. Stöver</i> | 1106 |
| Environmental Activity Levels Measured at the Nijmegen University After the Chernobyl Accident <i>Lucas B. Beentjes and John H. Duijsings</i> | 1110 |

Session No. 8E
INSTRUMENTATION - INTERNAL DOSIMETRY
MEASUREMENTS

- Comparative Evaluation of Incorporated Activity
by Four Different Whole Body Counters 1112
*E. Werner, Ch. Hansen, P. Roth, A. Andradi,
E. Beleznay, F. Steger, E. Lovranovich
and R. Hochmann*
- Selection of Suitable Liquids and Solids for a
Phantom for Internal Dosimetry Measurements 1116
Bente Lauridsen and Per Hedemann Jensen
- Monitoring for Internal Contamination in the
WAK-Reprocessing Plant 1120
W. Kraut, H.-P. Wichmann and H.O. Willax
- Construction of a Heterogeneous Phantom for
Internal Dosimetry Measurements 1126
Per Hedemann Jensen and Bente Lauridsen
- Inferences from Direct Thorax Counting on
Occupational Workers of Fuel Fabrication Plants 1130
*R.C. Sharma, T.K. Haridasan, T. Surendran,
S. Viswanathan, B. Surya Rao and C.M. Sunta*
- Estimation of Plutonium at Low Levels by Solid
State Nuclear Track Detection (SSNTD) Technique 1134
*A.M. Bhagwat, M. Parameswaran, V.K. Panday,
H.S. Dang, C.M. Sunta and S.D. Soman*
- A Comparison Between a Physical and a Mathematical
Model Used for the Determination of the Counting
Efficiency in the Evaluation of ²³⁹-Pu and
²⁴¹-Am Burden in Lungs and Liver 1138
M.A. Righetti, D. Hernandez and J. Diodati
- Evaluation of Body Content ⁹⁰Sr in Workers Using
Excretion Analysis 1142
*Živanka Ubović, Miodrag Trajković and
Marija Stojanović*
- The Background of In-Vivo Measurement and the
Self-Compensation Method 1143
Zheng Renqi and Ma Ruwei
- Radiological Assessment of Thorium Workers 1147
*C.A.N. Oliveira, J.L. Lipsztein, P.G. Cunha
and L. Bertelli*
- Saliva as a Practical Parameter for Estimating
Radiation Dose from Internal Contaminations 1148
P. De Lange, A.J. Coops and A. Hoekstra
