

CONTENTS

1.	INTRODUCTION	1
	Purpose	1
	Roles and responsibilities for radiation protection	1
	Scope	2
2.	DOSE LIMITATION SYSTEM	2
	Justification	2
	Optimization	3
	Individual dose limitation	3
3.	OPTIMIZATION AND ITS PRACTICAL APPLICATION TO OPERATIONAL RADIATION PROTECTION	3
	Analytical tree technique	5
	Seven stage scheme for the optimization of a complete operational programme	6
	Discussion of seven stage scheme	9
4.	MAJOR ELEMENTS OF AN EFFECTIVE OPERATIONAL RADIATION PROTECTION PROGRAMME	11
	Organization and management	11
	Personnel selection and training	14
	Occupational radiation control	16
	Public radiation control	18
	Quality assurance	20
	Emergency operations	21
ANNEX I:	REVIEW OF SELECTED PARTS OF THE BASIC SAFETY STANDARDS WITH SPECIAL REFERENCE TO OPERATIONAL RADIATION PROTECTION	22
ANNEX II:	OPTIMIZATION OF RADIATION PROTECTION	28
ANNEX III:	TECHNIQUES FOR THE SYSTEMATIC APPRAISAL OF OPERATIONAL RADIATION PROTECTION PROGRAMMES	35
