

CONTENTS

Preface	v
Contents	ix
1. M. M. Faktor, T. Ambridge, C. R. Elliott and J. C. Regnault <i>The characterisation of semiconductor materials and structures using electrochemical techniques</i>	1
2. W. Hirschwald <i>Properties and behaviour of the zinc oxide / electrolyte phase boundary</i>	109
3. G. Honjo and K. Yagi. <i>Studies of epitaxial growth of thin films by in situ electron microscopy</i>	195
4. H. J. Leamy, G. H. Gilmer and A. G. Dirks. <i>The microstructure of vapor deposited thin films</i>	309
5. K. A. Gingerich <i>Molecular species in high temperature vaporization</i>	345
Subject index	463
Materials index	470
