

Contents

Preface	xi
Acknowledgments	xiii
<u>Part I Structure and Phase Transitions</u>	1
Phase Transitions in Graphite-SbCl ₅ Intercalates R. Clarke and H. Romms	3
Commensurate-Glass Phase Transitions in Staged SbCl ₅ -GIC L. Salamanca-Riba, G. Timp, L.W. Hobbs and M.S. Dresselhaus	9
Single Crystal X-Ray Diffraction Study of the Phase Transitions in Graphite-Bromine Intercalation Compounds D. Ghosh and D.D.L. Chung	15
Commensurate-Incommensurate and Melting Transitions in Bromine-Intercalated Single Crystal Kish Graphite A. Erbil, A.R. Kortan, R.J. Birgeneau and M.S. Dresselhaus	21
Single Crystal X-ray Scattering Study of Superstructures and Phase Transitions in Graphite-HNO ₃ and Graphite-Br ₂ Intercalation Compounds R. Moret, R. Comes, G. Furdin, H. Fuzellier and F. Rousseaux	27
High Resolution Electron Microscopy of a NiCl ₂ -Intercalated Graphite D. Dorignac, M.J. Lahana, R. Jagut, B. Jouffrey, S. Flandrois and C. Hauw	33
Disorder in Staging of Potassium Graphite: Fractional Stage 3/2 and Stage 7 C.D. Fuerst, T.C. Koch, J.E. Fischer, J.A. Axe, J.B. Hastings and D.B. McWhan	39
<u>Part II Carbon Fibers</u>	43
Electrical Properties of SbCl ₅ , ICl, HNO ₃ , and Br ₂ Intercalated Pitch Based Carbon Fibers V. Natarajan and J. A. Wooliam	45

Intercalation of Acceptors and Donors in Highly Ordered Graphite Fibers T.C. Chieu, G. Timp, M.S. Dresselhaus and M. Endo	51
X-Ray Diffraction Studies of Structural Dimensionality in Carbon Fibers J. Stamatoff, R. Goldberg and I. Kalnin	57
A Study of the Electrical and Mechanical Properties of Alkali Metal Intercalated Graphite Fibers D.D. Dominguez, J.L. Lakshmanan, E.F. Barbano and J.S. Murday	63
<u>Part III Spectroscopy</u>	69
XPS Study of Alkali Graphite Intercalation Compounds G.K. Wertheim and S.B. DiCenzo	71
Optical Reflectance Studies of the Stage 1 and 2 Potassium-Mercurographitides in the Energy Range 0.16-5.8 eV R.E. Heinz and P.C. Eklund	81
Optical Reflectance Studies of Stage 1-4 Graphite-SbCl ₅ Intercalation Compounds in the Range 0.2-10eV R.E. Heinz, G. Doll, P. Charron and P.C. Eklund	87
Electronic and Lattice Modes of Graphite-CoCl ₂ C.W. Lowe, C. Nicolini and G. Dresselhaus	93
Optical Reflectance Studies of Stage 1-6 Graphite-FeCl ₃ Intercalation Compounds D.S. Smith and P.C. Eklund	99
<u>Part IV Electronic Structure</u>	105
Electronic Structure of Graphite Intercalation Compounds N.A.W. Holzwarth, S.G. Louie and S. Rabi	107
Free-Electron Interlayer States in Pure and Li-Intercalated Graphite M. Posternak, A. Baldereschi, A.J. Freeman, E. Wimmer and M. Weinert	117
Density Functional Theory of Interplane Cohesion in Graphite and Graphite Intercalation Compounds D.P. DiVincenzo and E.J. Mele	123
Fermi Surface and Charge Density Waves in Second-Stage Graphite-Bromine Intercalation Compounds F. Batallan, I. Rosenman, Ch. Simon and G. Furdin	129
Fermi Surface of Acceptor Intercalated Compounds: Evidence from AsF ₅ -Graphite R.S. Markiewicz, C. Lopatin and C. Zahopoulos	135

Change of C-C Bond Length in Layers of Graphite Upon Charge Transfer M. Kertesz, F. Vonderviszt and R. Hoffman	141
<u>Part V Transport Properties</u>	145
Thermal Transport in Intercalated Graphite J-P. Issi	147
Thermoelectric Power of Graphite Acceptor Compounds K. Sugihara	157
C-Axis Resistivity of $SbCl_5$ -Graphite in HOPG and Single Crystal Forms C. Uher and D.T. Morelli	163
C-Axis Resistivity of Some Stage 1 Donor Compounds J.E. Fischer, C.D. Puerst and H.J. Kim	169
Electronic Transport Properties of Graphite Acceptor Compounds I.L. Spain and K.J. Volin	173
Low Field Galvanomagnetic Properties of Graphite Acceptor Compounds and Their Relation to Trigonal Warping K. Sugihara	179
<u>Part VI Superconductivity and Magnetism</u>	183
Superconductivity in Graphite Intercalation Compounds Y. Iye	185
Anomalous Pressure Dependences of the Superconducting Transition Temperature of Graphite Intercalation Compounds L.E. DeLong, V. Yeh, V. Tondiglia, P.C. Eklund, S.E. Lambert and M.B. Maple	195
Superconductivity and Intralayer Structure in Potassium Amalgam-GIC G. Timp, B.S. Elman, M.S. Dresselhaus and P. Tedrow	201
Susceptibility of Magnetic Graphite- $CoCl_2$ Intercalation Compounds M. Elahy and G. Dresselhaus	207
Magnetic Heat Capacity of Stage 2 Graphite- $CoCl_2$ M. Shayegan, L. Salamanca-Riba, J. Heremans, G. Dresselhaus and J-P. Issi	213
<u>Part VII Synthesis, Batteries and Intercalation Kinetics</u>	219
Ambient Temperature Alkali Metal Transfer in Hydrocarbons - A New Route to Intercalation Compounds and Alloys J.O. Besenhard, I. Kain, H.-F. Klein, H. Mohwald and H. Witty	221

The Chemistry and Characteristics of Nitric Acid-Graphite Intercalation S.R. Su and D.W. Oblas	231
Metal Chloride-Graphite Compounds as Cathode and Anode Materials for Batteries S. Flandrois and F. Baron	237
Electrochemical Characteristics of Graphite Intercalation Compounds with Fluorine-Lithium Cells N. Watanabe, H. Touhara and T. Nakajima	247
Temperature Gradient Enhancement of Solid State Battery Performance B.K. Borey and F.H. Horne	253
In Situ Raman Scattering Studies of the Electrochemical Intercalation of Graphite in Sulfuric Acid C.H. Olk, V. Yeh, F.J. Holler and P.C. Eklund	259
Staging Transitions in Li-Graphite: Phonon Spectra of Dilute Stage 1 K.C. Woo, H. Mertwoy, J.E. Fischer, W.A. Kamitakahara and D.S. Robinson	265
Thermodynamics of Intercalation of Bromine in Graphite S.H. Anderson and D.D.L. Chung	271
Intercalation-Desorption Studies of Graphite Nitrate T. Dziemianowicz, K. Leong and W.C. Forsman	277
Binary and Ternary Alkali Graphite Intercalation Compounds: In-situ X-ray Study of Elastic and Electrostatic Effects on Staging M.E. Misenheimer, P. Chow and H. Zabel	283
Diffusive Motion of Alkali Atoms in Graphite: A Quasielastic Neutron Scattering Study H. Zabel, A. Magerl, J.J. Kush and A.J. Dianoux	289
<u>Part VIII Phonons</u>	293
Ultrasonic Velocity Studies of Graphite and its Intercalation Compounds D.M. Hwang	295
Lattice Dynamical Model for Graphite-Bromine Intercalation Compounds R. Al-Jishi and G. Dresselhaus	301
Mixed Phonon Mode in $C_{24}Rb$ S. Funahashi, T. Kondow and M. Iizumi	307
Phonon Dispersion of Transverse Basal Plane Modes in Alkali-Graphite Compounds W.A. Kamitakahara, H. Zabel and R.M. Nicklow	311

Intercalate Phonon Densities of States for Alkali-Graphite Compounds W.A. Kamitakahara and H. Zabel	317
A Study of the Temperature Dependence of the Low Frequency, Raman-Active Phonons in Stage-2 Graphite-K and Graphite-Rb Intercalation Compounds J. Giergiel, P.C. Eklund, R. Al-Jishi and G. Dresselhaus	323
Second-Order Raman Scattering in Graphite Intercalation Compounds J. Giergiel and P.C. Eklund	329
Phonon Spectrum of Second Stage Graphite-Bromine Intercalation Compounds Ch. Simon, F. Estallan, I. Rosenman and H. Lauter	335
Ion-Implantation Studies of Graphite B.S. Elman, M. Hon, E.W. Maby and M.S. Dresselhaus	341
Specific Heat Anomaly of C ₂₄ K Arising From Hydrogen Physisorption T. Kondow and U. Mizutani	347
<u>Part IX NMR</u>	353
NMR Spectroscopy of Synthetic Metals: Intercalated Graphite H.A. Resing, M.J. Moran, G.R. Miller, L.G. Banks, C.F. Poranski, Jr. and D.C. Weber	355
¹³ C NMR Chemical Shifts of Oriented Cesium-Graphite Intercalation Compounds D.D. Dominguez, H.A. Resing, C.F. Poranski, Jr. and J.S. Murday	363
Cesium State, Thermal Evolution in CsC ₂₄ H. Estrade-Szwarczkopf, J. Conard, P. Lauginie, J. Van der Klink, P. Lagrange, D. Guerard, F. Rousseaux, A. Maaroufi and G. Hermann	369
<u>Part X Mössbauer Spectroscopy</u>	375
¹²¹ Sb Mössbauer Studies of Graphite-SbF ₅ Intercalation Compounds D.H. McDaniel, P. Boolchand, W.J. Bresser and P.C. Eklund	377
Populations of Fluorine and Arsenic in AsF ₅ -Graphite Intercalation Compounds H. Sfihi, L. Facchini, J. Bouat, D. Bonnin, A.P. Legrand, G. Furdin and D. Billaud	383
¹²¹ Sb Mössbauer Studies on NO ₂ SbF ₆ Intercalated Graphite P. Boolchand, W. Bresser, D. McDaniel, P.C. Eklund, D. Billaud and J.E. Fischer	389

x

¹⁵¹Eu Mössbauer Studies on Graphite-EuCl₃	393
F. Boolchand, G. Lemon, W. Bresser, D. McDaniel, R.E. Heinz, P.C. Eklund, E. Stumpp and G. Nietfeld	
⁵⁷Fe Mössbauer Spectroscopic Study of the Geometrical Effects in the Catalytic Reactions with Intercalation Compounds	397
P.P. Vaishnava and P.A. Montano	
Study of the Orientation of Molecules Intercalated in Graphite Using Nuclear Photon Scattering	403
R. Moreh and O. Shahal	
Author Index	409
Subject Index	411
