Part I	Adsorption-Desorption Kinetics: Dynamics versus Thermodynamics	
---------------	---	--

Equilibrium and Non-equilibrium Effects in Adsorption-Desorption Kinetics: Influences of Interaction Dynamics, Reaction Kinetics, and Statistical Mechanics of the Adlayer By D. Menzel (With 9 Figures)	2
Kinetics and Dynamics of Gas-Surface Interaction: The Principles of Detailed Balance and Unitarity By W. Brenig (With 17 Figures)	19
Energy Distributions of Thermally Desorbed Molecules: NO on AG(111) and Pt(111). By J.C. Tully (With 2 Figures)	37
Nonequilibrium Desorption of Physisorbed Atoms By Z.W. Gortel and H.J. Kreuzer (With 4 Figures)	44
Studies of Surface Kinetics Using Second-Harmonic Generation By H.W.K. Tom (With 4 Figures)	54
Direct Measurements of Surface Kinetics by Time-Resolved Electron Energy Loss Spectroscopy. By T.H. Ellis, M. Morin, L.H. Dubois, M.J. Cardillo, and S.D. Kevan (With 5 Figures) . . .	63
Isotopic Effects in the Adsorption and Desorption of Hydrogen by Ni(111). By J.T. Yates, Jr., J.N. Russell, Jr., I. Chorkendorff, and S.M. Gates (With 14 Figures)	71
Adsorption-Desorption Kinetics: Some Comments By H.J. Kreuzer	89

Part II	Precursors: Myth or Reality?	
----------------	-------------------------------------	--

Precursor Intermediates and Precursor-Mediated Surface Reactions: General Concepts, Direct Observations and Indirect Manifestations. By W.H. Weinberg (With 4 Figures)	94
--	----

Precursor States, Myth or Reality: A Perspective from Molecular Beam Studies By D.J. Auerbach and C.T. Rettner (With 13 Figures)	125
Molecular Beam Studies of Dissociative Chemisorption on W(110) By C.T. Rettner and D.J. Auerbach (With 2 Figures)	145
The Role of Precursors in Molecular Chemisorption and Thermal Desorption. By E.S. Hood, B.H. Toby, W. Tsai, and W.H. Weinberg (With 5 Figures)	153
Adsorption and Reaction of CO ₂ on Metal Surfaces. Detection of an Intrinsic Precursor to Dissociation By B. Bartos, H.-J. Freund, H. Kuhlbeck, and M. Neumann (With 7 Figures)	164
Influence of Electronic and Geometric Structure on Desorption Kinetics of Isoelectronic Polar Molecules: NH ₃ and H ₂ O By T.E. Madey, C. Benndorf, and S. Semancik (With 4 Figures)	175
A Molecular Orbital Analysis of Chemisorption Precursor States By E.L. Garfunkel and Xing-hong Feng (With 5 Figures)	182
Thermal and Non-thermal Activation of Si(100) Surface Nitridation. By F. Bozso and Ph. Avouris (With 5 Figures)	188
Precursor Mediated and Direct Adsorption: Two Channels Leading to Chemisorption. By T. Engel	195

Part III	Kinetics of Phase Transitions at Surfaces
-----------------	--

Experiments on Kinetic Effects at Phase Transitions By K. Heinz (With 25 Figures)	202
Kinetics of Adatom Ordering on Surfaces By J.D. Gunton (With 5 Figures)	238
Kinetics of Domain Growth in a Model of O/Pd(110) By T. Ala-Nissila and J.D. Gunton (With 5 Figures)	253
The Influence of Hydrogen on the Infrared Spectrum of N ₂ Chemisorbed on the Ni(110) Surface By M.E. Brubaker, I.J. Malik, and M. Trenary (With 4 Figures)	264
The Reaction of Carbon Monoxide with Chemisorbed Oxygen on Pd(110): An Example of a Structure-Sensitive Reaction By J. Goschnick, J. Loboda-Cackovic, J.H. Block, and M. Grunze (With 5 Figures)	269

Conformal Invariance, Multiple Scattering and the Au(110) (1x2) to (1x1) Phase Transition. By P. Kleban, R. Hentschke, and J.C. Campuzano (With 2 Figures)	280
Self-sustained Kinetic Oscillations in the Catalytic CO Oxidation on Platinum. By Y.J. Chabal, S.B. Christman, V.A. Burrows, N.A. Collins, and S. Sundaresan (With 6 Figures)	285
Kinetics of Surface Phase Transitions: Some Comments By P. Kleban	296
