

## CONTENTS

ORGANIZERS, V

PREFACE, VII

### CEREMONIAL SESSION

W.TRZEBIATOWSKI Introductory remarks, 3

M.M.RISTIĆ, Ten years existence of the International  
Institute for the Science of Sintering, 6

S.Ya.PLOTKIN, Historical development of ideas in the science  
of synthetic materials, 12

### THEORETICAL BASES OF SINTERING PROCESSES

D.USKOKOVIĆ, B.JAKOWLEW and M.M.RISTIĆ, The role of science  
of sintering in the development of new materials, 21

G.C.KUCZYNSKI, Sintering and grain structure, 44

R.A.ANDRIEVSKIJ, Sintering and peculiarities of self-dif-  
fusion, thermodynamics, and creep of high-melting  
compounds, 53

G.C.KUCZYNSKI, Minimum entropy production rate and Ostwald  
ripening, 76

### SINTERING OF HIGH-MELTING MATERIALS

M.M.RISTIĆ and D.STEFANOVIĆ, Electronic theory of the  
consolidation process, 93

P.S.KISLYJ, Some problems of synthesis and application of  
nitrides, 106

V.V.SKOROKHOD, Special problems in sintering tungsten and  
molybdenum dispersion powders, 131

VIII

G.S.UPADHYAYA, Electronic models and sintering of refractory carbides - an overview, 133

#### CERAMIC MATERIALS USED IN ELECTRONICS

R.L.COBLE, General rules for sintering of ceramics, 153

D.KOLAR, Some recent trends in preparation of electronic ceramics, 161

W.WŁOSIŃSKI, Ceramo-metallic composites for electronic use, 181

J.LUNDGREN and A.TRÄFF, Hot isostatic pressing techniques for  $Al_2O_3$  samples, 205

R.PAMPUCH, Mechanisms of hot-pressing of oxide-powder compacts, 216

M.V.SUSIĆ, Synthetic zeolites as solid ionic conductors, 249

#### SOME INVESTIGATIONS OF SINTERING MATERIALS

M.PAVIĆEVIĆ, Application of electron microanalysis in materials science, 299

A.S.VISHNEVSKIJ and A.A.SHUL'ZHENKO, Structure of the semi-conducting diamond crystals synthesized under high pressures and high temperatures, 301

M.ŠLESÁR, M.BESTERCI and E.DUDROVÁ, The growth of inter-particle-necks in the sintering of copper powder, 311

#### ROUND-TABLE DISCUSSION ON THE ROLE OF THE INSTITUTE FOR THE TECHNOLOGY OF ELECTRONIC MATERIALS IN THE DEVELOPMENT OF NEW SYNTHETIC MATERIALS

B.JAKOWLEW, Introduction to discussion, 335

LIST OF PARTICIPANTS, 345
