

TABLE OF CONTENTS

Volume 1

Preface	v
International Committee of the Reactivity of Solids	xxi
Organizing Committee	xxi
Executive Committee	xxii
List of Participants	xxiii
 <u>Presidential Lecture</u>	
J. Haber, "Reactivity of Solids - a Rapidly Advancing Field of Research"	3
 <u>Topic I: "Defects and Transport in Solids"</u>	
N. Birks, "Transport Mechanisms during High Temperature Oxidation of Metals" (Plenary lecture)	31
K.D. Becker, K. Budde and H. Richterling, "Fast Dif- fusion of Cuprous Ions in the Alkali Halides"	54
N. Birks, M.C. Pope and P. Singh, "The Defect Structure of NiO and Transport of Sulphur Through NiO Scales"	61
	VII

J.-P. Bonnet, J.-C. Grenier, M. Onillon, M. Pouchard and P. Hagemuller, "Influence of Oxygen Partial Pressure on the Nature of the Point Defects in $\text{Ca}_2\text{LaFe}_3\text{O}_{8+x}$ "	67
W.W. Brandt and D.F. Allgeyer, "Penetration of Thin CdS Layers by PbS; Interdependence of Mass Transport and Sintering"	73
M. Danielewski, J. Molenda, S. Mrowec and A. Stokłosa, "Transport and Semiconducting Properties of Ferrous Sulphide"	79
J. Desmaison, P. Lefort and M. Billy, "Oxidation Behaviour of Transition Nitrides of Groups IVA and Va in Oxygen"	86
R. Dieckmann, "Point Defects in Magnetite ($\text{Fe}_{3-\delta}\text{O}_4$) and Their Mobilities"	92
M.J. Duclot, "Cationic Conductivity of Alkaline Earth Oxides - Influence of Additives"	100
P. Dumas, A. Steinbrunn and J.C. Colson, "Study of Sulphur Diffusivity in Metal Oxides"	107
K. El Adham and A. Hammou, " SiO_2 Additives Effect on Electrical Behaviour of Calcia Doped Ceria"	115
R. Farhi, J. Maluenda, C. Petot and G. Petot-Ervas, "Defect Structure Near Stoichiometry in Transition Metal Oxides"	121
R. Farhi, G. Petot-Ervas and F.A. Kroger, "Electrical Conductivity Measurements on Nickel Oxide at Intermediate Temperatures"	128
G. Flor, V. Berbenni, A. Marini, V. Massarotti and R. Riccardi, "Solid State Reaction Study on the System MgO/MoO_3 "	133
J. Fouletier, Y. Meas, M. Fouletier and M. Kleitz, "Oxidation Studies at Constant Oxygen Pressure or Constant Oxidation Rate"	138

R. Freer, "An Experimental Study of $\text{Al}_2\text{O}_3\text{-Cr}_2\text{O}_3$ Interdiffusion"	145
F. Gesmundo, P. Nanni and F. Viani, "High Temperature Oxidation of Monophase and Two-Phase Cobalt-Copper Alloys"	151
J.-C. Grenier, M. Pouchard and P. Hagenmuller, "Non-Stoichiometry Aspects of Some AMO_{3-y} Perovskites"	157
D. Hallwig, R. Schachtner and H.G. Sockel, "Diffusion of Magnesium, Silicon and Oxygen in Mg_2SiO_4 and Formation of the Compound in the Solid State"	166
R. Horyń, "Defects in Al5-Type Superconducting Phases"	170
H. Jessen, R. Quast and H.G. Sockel, "Point Defects in $(\text{Mg, Fe})\text{O}$ "	176
D.G. Klissurski and M.M. Kancheva, "The Reactivity of Oxygen in Partially Reduced Aluminium, Chromium and Iron Isostructural Molybdates"	181
M.A.J.Th. Laheij, F.J.J. van Loo and R. Metselaar, "Phase Relations and Diffusion Paths in the Systems Cu-Ni-O and Cu-Co-O at 1000°C "	187
W. Laqua and H. Schmalzried, "Instability of Ternary Compounds in an Oxygen Potential Gradient"	194
H.D. Lutz, W. Schmidt and H. Haeuseler, "New Compounds with Superionic Conductivity"	200
D. Mehandjiev, E. Zhecheva and S. Angelov, "On the Mechanism of Spinel Structure Formation"	205
S. Mrowec, K. Przybylski and D. Szwagierczak, "Kinetics and Oxidation Mechanism of Cobalt-Chromium Alloys"	211
K. Nishida and K. Godlewski, "High-Temperature Sulphidation of Some Fe-Mn Alloys under Low Sulphur Pressures"	219

J. Nowotny, I. Sikora and J.B. Wagner, Jr., "Near-Surface and Bulk Chemical Diffusion for Undoped CoO"	225
F. Perinet, S. Barbezat and J. Philibert, "Mechanism of Oxygen Self-Diffusion in Cu ₂ O"	234
B. Pieraggi and F. Dabosi, "Deformation of Hafnium and Hafnium-Copper Alloys during High Temperature Oxidation"	240
P. Porta, A. Anichini, P. Leoni and M. Lo Jacono, "Formation and Cation Distribution of Cobalt(II) and Copper(I) in Sulphospinels"	245
A. Rousset, B. Gillot, F. Chassagneux, J. Paris and P. Barret, "Reactivity of Mixed, Finely-Divided (Fe ₃ ²⁺ Al _{2-x} Cr _x ³⁺)O ₄ ²⁻ . Study of Defect Spinel Formation"	250
V.S. Stubican, J.R. Hellmann and S.P. Ray, "Defects and Ordering in Zirconia Crystalline Solutions"	257
N. Tabet and C. Monty, "Impurity Diffusion in NiO Single Crystals"	262
M. Valigi and D. Gazzoli, "Incorporation and Reducibility of Ru(IV) and Ir(IV) in TiO ₂ "	269
S. Wach, "Kinetics and Thermodynamics of Solid State Reactions"	276
T. Walec, "Oxidation Kinetics of Ni-Cr Alloys"	284
J.H.W. de Wit, "The Impact of Preparative Conditions on the Electrical Properties of α-Fe ₂ O ₃ "	291

Topic II: Chemical Vapour Deposition

J. Bloem, "Mechanisms in the Chemical Vapour Deposition of Silicon" (Plenary lecture)	301
---	-----

X

G. Beensh-Marchwicka, L. Król-Stepniewska and A. Misiuk, "Some Problems of the Formation of thin Oxide Films by Reactive Ion Sputtering"	307
M. Caillet and A. Galerie, "Protection of Metals against High Temperature Oxidation by Superficial Siliconization"	312
J.G. Edwards, "Vaporization Chemistry of Binary and Ternary Sulphides Studies by Computer-Automated Effusion Methods"	316
M. Nakahira, T. Ohtani and H. Nakamura, "Chemical Transport of V_xSe_2 by Iodine"	321

Topic III: "The Role of Surface Phenomena
in Reactivity of Solids"

B. Delmon, "The Control of the Reactivity of Solids and the Occurrence of Coupling Effects: Current Problems, Prospects" (Plenary lecture)	327
L. Bartha, L. Gombos, T. Nemeth, T. Szalay and A.B. Kiss, "Surface Chemical Reactions on Molybdenum Oxides in Aqueous Media"	370
B. Canosa, J.L. García Fierro, J.A. Pajares, "Hall Effect Studies on Chemisorption. O_2^- Identi- fication and the Kinetics of Electron Removal in the Chemisorption of Oxygen on Ga-Doped ZnO"	376
K. Dyrek, J. Nowotny and Z. Sojka, "Defect Structure in the Surface Layer of the CoO-MgO Solid Solutions"	383
J. Finster, P. Lorenz, F. Fievet and M. Figlarz, "Surface Analysis of Nickel Oxides by X-ray Photoelectron Spectroscopy"	391

A.K. Galwey, G.G.T. Guarini and R. Spinicci, "The Reaction between Ammonia Gas and Chrome Alum ($KCr(SO_4)_2 \cdot 12H_2O$) Cleaved Crystal Surfaces"	397
W. Göpel, "Surface Point Defects and Charge Transfer Reactions: Studies on ZnO (10 $\bar{1}$ 0), a Prototype System"	402
H.J. Grabke and H. Viefhaus, "Surface Composition of Wustite and Kinetics of Oxygen Transfer from CO ₂ and H ₂ O to Wustite"	410
J. Haber and J. Stoch, "Dynamics of Surface Composition in Oxide System"	418
D. Hofmann, S. Krebs and W. Hirschwald, "The Electron Stimulated Adsorption of CO on ZnO (000 $\bar{1}$) Oxygen Polar Surfaces"	423
W. Komatsu, Y. Chida and T. Maruyama, "Direct Observation and Effect of Grinding on the Surface Layer Thickness of CoO"	430
P. Marcusson, "Model Calculation of the Dynamics of Elementary Processes in the Initial Oxidation of Nickel (001)"	436
J.S. Moya and J.A. Pask, "Influence of Surface Silica Impurities on the Sintering Behaviour of Alumina Powders"	440
J. Janowski, S. Jasińska, J. Nowotny, I. Sikora and J.B. Wagner, Jr., "Reactivity of Oxygen with Iron Oxide Surfaces"	449
P. Odier, J.C. Rifflet and J.P. Loup, "Defect and Surface Phenomena at High Temperature for Oxides by Thermal Emission of Electrons"	458
I.M. Ritchie, Experimental Evidence for Surface Control in Metal Oxidation Reactions"	467
