

CONTENTS

<i>Preface</i>	v
Plenary Paper: High temperature fibre composites	2.1
D. C. PHILLIPS (<i>MDD, Harwell Laboratory, Oxfordshire, UK</i>)	
Ceramic Matrix Composites	
Silicon carbide fibre reinforced nitrided silicon nitride composites	2.33
R. LUNDBERG, R. POMPE, R. CARLSSON (<i>Swedish Institute for Silicate Research, Göteborg, Sweden</i>)	
Impact behavior of ceramic matrix composite materials	2.40
D. F. HASSON (<i>US Naval Academy, Annapolis, MD, USA</i>), S. G. FISHMAN (<i>US Office of Naval Research, Arlington, VA, USA</i>)	
Mechanical behavior study of ceramic matrix composites with a view to toughness characterization	2.48
M. BOUQUET, J. M. BIRBIS, J. M. QUENISSET, R. NASLAIN (<i>Université de Bordeaux, Talence, France</i>)	
Modeling and analysis of fracture toughness of short-fiber reinforced ceramic-matrix composites	2.60
K. KAGEYAMA, TSU-WEI CHOU (<i>University of Delaware, Newark, DE, USA</i>)	
Behaviour of fibre reinforced concrete beams under impact loading	2.70
N. BANTHIA, S. MINDESS (<i>University of British Columbia, Vancouver, Canada</i>), A. BENTUR (<i>Israel Institute of Technology, Haifa, Israel</i>)	
Influence of fibre geometry on the performance of steel fibre refractory concrete	2.80
S. A. AUSTIN, P. J. ROBINS, M. BEDDAR (<i>Loughborough University of Technology, UK</i>)	

Structure of <i>Ipomoea carnea</i> and development of polyester and soil cement matrix composite materials with <i>Ipomoea</i>	2.90
N. CHAND, A. C. KHAZANCHI, P. K. ROHATGI (<i>Regional Research Laboratory, Bhopal, India</i>)	

Structure of sisal fibre and its use in development of sisal cement corrugated roofing sheet	2.97
A. C. KHAZANCHI, N. CHAND, P. K. ROHATGI (<i>Regional Research Laboratory, Bhopal, India</i>)	

Metal Matrix Composites

Modeling of thermal cycling damage in metal matrix composites	2.104
M. TAYA (<i>University of Washington, Seattle, WA, USA</i>), T. MORI (<i>Tokyo Institute of Technology, Yokohama, Japan</i>)	

Fatigue crack growth in discontinuous fibre reinforced aluminium alloys	2.113
S. J. HARRIS, T. E. WILKS (<i>University of Nottingham, UK</i>)	

The effects of hygrothermal environment on the aluminum/carbon (graphite) fiber composites	2.128
RENJIE WU, WEIDONG CAI (<i>Jiao Tong University, Shanghai, PR China</i>)	

Flexural fatigue behavior of aramid reinforced aluminum 7075 laminate (ARALL-I) and Al 7075 alloy sheet in air and in salt laden humid air	2.138
D. F. HASSON (<i>US Naval Academy, Annapolis, MD, USA</i>), C. R. CROWE (<i>US Naval Research Laboratory, Washington, DC, USA</i>)	

Chemical interaction between silicon carbide Nicalon fibres and liquid aluminum or aluminum-silicon alloys	2.146
J. C. VIALA, F. BOSSELET, P. FORTIER, J. BOUX (<i>Université de Lyon I, Villeurbanne, France</i>)	

Tailoring interphase properties for damage containment in graphite/aluminum metal matrix composites	2.156
T. ERTURK, V. GUPTA, A. S. ARGON, J. A. CORNIE (<i>Massachusetts Institute of Technology, Cambridge, MA, USA</i>)	

Characterization of interface structure in Gr/Al and Gr/Mg composites S. P. RAWAL, M. S. MISRA (<i>Martin Marietta Denver Aerospace, Denver, CO, USA</i>), L. F. ALLARD (<i>American Cyanamid Co., Stamford, CT, USA</i>)	2.169
The fracture mechanisms of carbon fibre reinforced Pb–Sn composite material WANG CHENFU, YING MEIFANG, YUE DUOFENG (<i>Hefei Polytech- nical University, Anhui, PR China</i>)	2.183
Fracture of SiC/Al composites Y. FLOM, R. J. ARSENAULT (<i>University of Maryland, College Park, MD, USA</i>)	2.189
Failure behaviors of two-dimensionally random-oriented short carbon fiber reinforced aluminum under a stress concentration Y. KAGAWA, S. UTSUNOMIYA, Y. KOGO, M. IMAIZUMI (<i>Mitsubishi Electric Corporation, Kanagawa, Japan</i>)	2.199
Fracture initiation in particle hardened materials with high volume fraction W. H. HUNT JR, O. RICHMOND, R. D. YOUNG (<i>Alcoa Labora- tories, Alcoa Center, PA, USA</i>)	2.209
An investigation of the high strain rate deformation of SiCw/2124 Al composite J. HARDING, B. DERBY, S. PICKARD (<i>University of Oxford, UK</i>), M. TAYA (<i>University of Washington, Seattle, WA, USA</i>)	2.224
Creep behaviour of the metal matrix composite Al 2124 with SiC fibres H. LILHOLT (<i>Risø National Laboratory, Roskilde, Denmark</i>), M. TAYA (<i>University of Washington, Seattle, WA, USA</i>)	2.234
Radiation effects on SiC/Al composite material A. KOHYAMA, H. TEZUKA, N. IGATA (<i>University of Tokyo, Japan</i>)	2.245
The evaluation of internal stresses in a short fibre metal matrix composite by neutron diffraction P. J. WITHERS, W. M. STOBBS (<i>University of Cambridge, UK</i>), D. J. JENSEN, H. LILHOLT (<i>Risø National Laboratory, Roskilde, Denmark</i>)	2.255

Mechanical properties and the fibre/matrix interface in squeeze-cast graphite–magnesium metal matrix composites	2.265
A. P. DIWANJI, I. W. HALL (<i>University of Delaware, Newark, DE, USA</i>)	
Fabrication and microstructure of metal matrix composites	2.275
T. W. CLYNE (<i>University of Cambridge, UK</i>)	
Matrix texture and particle distribution in extruded SiC/aluminum composites	2.287
J. SUN, I. G. GREENFIELD (<i>University of Delaware, Newark, DE, USA</i>)	
Wetting, fluidity and solidification in metal matrix composite castings: a research summary	2.297
J. A. CORNIE, A. MORTENSEN, M. C. FLEMINGS (<i>Massachusetts Institute of Technology, Cambridge, MA, USA</i>)	
Pressure casting of fiber-reinforced metals	2.320
L. J. MASUR, A. MORTENSEN, J. A. CORNIE, M. C. FLEMINGS (<i>Massachusetts Institute of Technology, Cambridge, MA, USA</i>)	
Mechanical behavior of aluminum matrix composites reinforced by short fibers and processed by compocasting	2.330
F. GIROT, J. M. QUENISSET, R. NASLAIN, B. COUTAND, T. MACKÉ (<i>Université de Bordeaux, Talence, France</i>)	
Effects of processing parameters on mechanical properties of SiC whisker reinforced aluminum alloys	2.340
Y. FUJITA, H. FUKUMOTO (<i>Nippon Kokan KK, Kawasaki, Japan</i>), Y. KURITA (<i>Nippon Kokan KK, Tokyo, Japan</i>)	
Rheological behavior of SiC/Al composites	2.350
PH. JARRY, W. LOUÉ, J. BOUVAIST (<i>Cégédur Pechiney Research Centre, Voreppe, France</i>)	
Strength and reliability of silicon carbide whisker reinforced aluminum composites by squeeze casting including a vacuum system	2.362
H. FUKUNAGA, K. GODA (<i>Hiroshima University, Japan</i>), Y. KURITA (<i>Nippon Kokan KK, Tokyo, Japan</i>), Y. FUJITA (<i>Nippon Kokan KK, Kawasaki, Japan</i>)	

<i>Contents</i>	xi
Superplasticity in SiC reinforced Al alloys	2.372
M. W. MAHONEY, A. K. GHOSH, C. C. BAMPTON (<i>Rockwell International, Thousand Oaks, CA, USA</i>)	
Age hardening behavior of SiC whisker reinforced 6061 aluminum	2.382
H. J. RACK (<i>Clemson University, Clemson, SC, USA</i>)	
New developments with short staple alumina fibres in metal matrix composites	2.390
J. DINWOODIE, I. HORSFALL (<i>ICI plc, Mond Division, Runcorn, UK</i>)	
The effect of matrix properties on reinforcement in short alumina-fibre/aluminium metal matrix composites	2.402
C. M. FRIEND (<i>Royal Military College of Science, Shrivenham, UK</i>)	
Carbon fiber and whisker reinforced aluminum alloys by a squeeze casting process	2.412
S. TOWATA, H. IKUNO, S. YAMADA (<i>Toyota Central Research & Development Laboratories Inc., Aichi, Japan</i>)	
Structure-reliability studies of three-dimensionally braided metal matrix composites	2.422
A. P. MAJIDI, TSU-WEI CHOU (<i>University of Delaware, Newark, DE, USA</i>)	
LPPD iron base metal matrix composites	2.431
M. R. JACKSON, R. L. MEHAN (<i>General Electric Co. Research & Development, Schenectady, NY, USA</i>)	
High temperature compatibility of carbon fiber with its copper and nickel coatings	2.441
WANG CHENGFU, YING MEIFANG, WANG ZHANGBAO (<i>Hefei Polytechnical University, Anhui, PR China</i>)	
Short aluminosilicate fiber reinforced aluminum alloy	2.449
F. K. CHI, R. D. MAIER, T. W. KRUCEK, P. M. BOYMEL (<i>Standard Oil Engineered Materials Co., Niagara Falls, NY, USA</i>)	
Interfaces in aluminum metal matrix composites	2.459
H. L. MARCUS, L. RABENBERG, L. D. BROWN, G. ELKABIR, Y. M. CHEONG (<i>University of Texas, Austin, TX, USA</i>)	

Investigation on the fracture and interface of HIP C/Al composite	2.469
QUANWU SUI, WENXU GUO, FENJUN TANG (<i>Institute of Metal Research, Shenyang, PR China</i>)	
Analysis of fracture features of carbon fibre reinforced zinc base alloy composite	2.476
WANG CHENGFU, YING MEIFANG, TAO JIE (<i>Hefei Polytechnical University, Anhui, PR China</i>)	
Structure and mechanical properties of SiC-particle reinforced aluminium-alloy composites	2.481
M. A. BAYOUMI, M. SUÉRY (<i>Institut National Polytechnique de Grenoble, Saint Martin d'Hères, France</i>)
