

CONTENTS

Preface	v
Message by Vice-Minister, Professor St. Andreev	vii
Opening Speech	1
<i>M. Borissov</i>	
Thermodynamic Properties of Glass-forming Systems	11
<i>I. Gutzow</i>	
Rigidity Percolation	52
<i>M. F. Thorpe, A. R. Day & W. Xia</i>	
Acoustic Investigations in Glasses and Disordered Materials	66
<i>P. Doussineau</i>	
Mechanical Properties of Glassy Materials	81
<i>M. F. Thorpe & Y. Cai</i>	
Optical Properties of Oxygen Vacancies and Hydride Ions in MgO and CaO Crystals	96
<i>Y. Chen, R. Gonzalez, V. M. Orera & G. J. Pogatshnik</i>	
The Acoustic and Dielectric Absorption of Glasses at Low Temperatures	113
<i>S. Hunklinger</i>	
Localized Electron States and Low-Energy Excitations in Glasses	134
<i>M. I. Klinger</i>	
Synthesis of Glasses by Sol-Gel Processes	151
<i>J. Zarzycki</i>	
Halide Glasses—Recent Developments	168
<i>J. Lucas</i>	
High Purity Chalcogenide Glasses for Infrared Fiber Optics	193
<i>E. M. Dianov, V. G. Plotnichenko, G. G. Devyatikh, I. V. Scripachev & M. F. Churbanov</i>	

x

Artificial Dielectric Films of SnO_x <i>K. Antonova, N. Melnik, V. Yakovlev & G. Zhizhin</i>	199
Laser Beam Sputtered Amorphous Chalcogenide Layers and some Possible Applications <i>B. Pashmakov, Z. G. Ivanova, E. Savova & D. Bekiarov</i>	210
Electrically Conducting Polymers—Physical Concepts and Experimental Investigations of Transport Mechanisms <i>S. Roth & H. Bleier</i>	218
Thermal Shrinkage and Physical Ageing Phenomena in Oriented Organic Polymers <i>M. Trznadel & M. Kryszewski</i>	237
Ageing Phenomena in Thin Films of Chalcogenide Glasses <i>S. Kitova, K. Kolev & H. Alexandrova</i>	259
Photo-Induced Effects in Disordered Materials <i>E-Vateva</i>	266
Pressure Studies of Amorphous Semiconductors <i>K. Tanaka</i>	290
Photoinduced Processes in Chalcogenide Semiconductors and Optical Information Recording <i>K. K. Shvarts & A. O. Ozols</i>	310
Theoretical Aspects of Non-Periodic Order in Quasicrystals <i>P. Kramer</i>	323
Multiple Scattering Approach to the Electronic Structure of Topologically Disordered Systems <i>R. Lenk</i>	337
Gauge Theory of Defects in Crystals <i>L. Mistura</i>	352
Quasicrystal Structure and Properties <i>P. Guyot</i>	367

Orientational Order, Disorder and Glasslike States <i>K. Knorr</i>	381
Thermal Relaxation Phenomena in $(\text{KBr})_{1-x}(\text{KCN})_x$ Single Crystals at Low Temperatures <i>W. Knaak & M. Meißner</i>	399
Neutron Scattering in Disordered Systems and New Materials <i>W. S. Howells</i>	416
EXAFS in Amorphous Systems <i>S. Mobilio</i>	441
Picosecond Luminescence Spectroscopy of Amorphous Materials <i>F. Fermi</i>	460
Optical Hole Burning and Dephasing in Organic Glasses at Low and Very Low Temperatures <i>A. A. Gorokhovskii</i>	476
On the Spin Exchange in some Organic Polymers <i>C. I. Ivanov, N. Tyutyulkov & S. Karabunarliev</i>	496
Study of the Polytypism in $\text{A}_{\text{III}}\text{B}_{\text{VI}}$ Layered Semiconductors by Convergent Beam Electron Diffraction <i>C. De Blasi, D. Manno & A. Rizzo</i>	503
Polarization Peculiarities of Optical Transitions in Doped Semiconductors <i>I. Ipatova, J. Uzunova & V. Harchenko</i>	512
Spectroscopy of Cr^{3+} Ions in Glass <i>C. McDonagh, K. Devlin & D. McKernan</i>	521
IR Spectral Study and Structure of Tellurite Glasses <i>Y. Dimitriev, M. Arnaudov, V. Dimitrov & Ch. Petkov</i>	530
New Interpretation of the Boson Peak in Raman Scattering of Amorphous Structures <i>I. Pocsik & M. Koos</i>	539

Order-Disorder Phase Transition in Intercrystalline Boundaries <i>L. K. Fionova</i>	549
Lattice Relaxation under Electronic Excitation in SiO ₂ of Crystalline and Amorphous Structures: Comparison with Chalcogenides <i>N. Itoh, K. Tanimura & C. Itoh</i>	564
The Electronic Characterisation of a-Si: H and other Amorphous Semiconductors <i>J. M. Marshall</i>	585
Physical Characteristics, Deposition, Device and Sensor Application of a-Si: H and a-Si: H Based Thin-film Alloys <i>A. M. Jeleva, V. K. Gueorguiev & L. I. Popova</i>	605
Diffusion of Pt, Pd, Fe and Sn Impurities in Amorphous Hydrogenated Silicon Films <i>V. Kh. Kudoyarova, G. S. Kulikov & K. Kh. Khodzhayev</i>	640
Electrical Properties of Amorphous Hydrogenated Silicon Films Deposited at High Temperatures <i>A. G. Kazansky, O. I. Konkov, V. Kh. Kudoyarova & E. I. Terukov</i>	660
Order-Disorder-Order Transition in Ion Implanted Si (Electron Microscopic Studies) <i>S. Simov, N. Pashov, G. Balossier & P. Bonhomme</i>	668
Raman Spectra of Amorphous Si _x Ge _{1-x} :H Thin Films <i>D. Dimova, A. Krapchev, V. Hadjlev & M. Iliev</i>	675
Raman Study of Hydrogen R. F. Plasma Effects on a-Si: H Films <i>I. Savatinova, P. Danesh, E. Anachkova, E. Liarakapis & E. Anastassakis</i>	681
Weak Localization and Interaction Effects in Metallic Glasses Studied by Electrical Resistance Measurements <i>Ö. Rapp</i>	687
Photoemission Valence Band Study of Liquid Polyvalent Metals <i>G. Indlekofer & P. Oelhafen</i>	707

Raman Light Scattering by Electrons in Superconductors with a Small Correlation Length <i>A. A. Abrikosov & L. A. Falkovsky</i>	729
Vibronic Models for Hole Pairing in High-Temperature Superconductors <i>M. Borissov & M. Georgiev</i>	735
New High Temperature Superconductors and Disorder <i>I. Z. Kostadinov, M. Mateev, J. Tihov & G. Thuliev</i>	759
Disorder in Complicated Magnetic Systems <i>G. Bustiello, E. R. Korutcheva & D. I. Uzunov</i>	771
Multifractal Measures, Scaling and Localization for Disordered and Incommensurate Systems <i>S. N. Evangelou</i>	783
Light Scattering in Superionic Glasses: Evidences of Fractal Clusters <i>A. Fontana</i>	809
Raman Spectroscopy of High T_c Superconducting Materials (Light Scattering from Phonons—Current Status) <i>V. G. Hadjiev & M. N. Iliev</i>	817
Superconducting and Magnetic Properties of Y-Ba-Cu-Ag-O System <i>V. T. Kovachev, E. S. Vlakhov, K. A. Nenkov, V. A. Lovchinov, Y. Dimitriev, E. Gattev, D. Lepkova & S. Jambazov</i>	841
On the Phase Formation and Superconducting Transition in Bi-Sr-Ca-Cu-O System <i>I. Nedkov, Z. Ivanov, M. Taslakov, V. Kovachev, V. Lovchinov, D. Kovacheva & K. Petrov</i>	851
Effect of Pressure at Yttrium-Barium Ceramics Synthesis on Phase Composition and Superconductive Characteristics <i>V. Kovachev, V. Lovchinov, G. Melnikliev, E. Nazarova, P. Dochev, D. Kovacheva & C. Petrov</i>	860

Specific Heat of Y-Ba-Cu-Pt-O Multi-Phase Compound Between 2.5 and 27K	868
<i>V. T. Kovachev, B. M. Terziska, H. Madge, D. A. Dimitrov & E. S. Vlakhov</i>	
Thin Film Platinum Resistance Thermometers for Low Temperature Thermometry	877
<i>D. Dimitrov, B. Terziiska, V. Guevezov & V. Kovachev</i>	
Manifestation of the Disorder of Chlorophyll-Protein Complexes in Low-Temperature Optical Spectra	882
<i>R. Vladkova, K. Mauring & I. Renge</i>	
Composite Spectra of Helical Polymers	889
<i>I. J. Lalov</i>	
Contribution of the XANES to the Study of Non-Crystalline Materials	912
<i>I. Davoli & M. Benfatto</i>
