

CONTENTS

SESSION I

The Nature of Residual Stress and Its Measurement	1
I.C. Noyan and J.B. Cohen	

SESSION II

Thermal and Transformation Stresses	19
Torsten Ericsson and Bengt Hildenwall	
Load Induced Residual Stress Changes in Carburized Steel Computations and Experiments.	39
Lennart Magnusson and Torsten Ericsson	
Residual Stresses and Distortion in Weldments--A Review of the Present State-of-the-Art--.	49
Koichi Masubuchi	
Thermal Modifications of Welding Residual Stresses.	61
R.M. Chrenko	
Shot Peening and Residual Stresses.	71
Helmut Wohlfahrt	

SESSION III

Measurement of Throughwall Residual Stresses in Large- Diameter Piping Butt Weldments Using Strain-Gauge Techniques.	93
William J. Shack	
X-Ray Methods for Measuring Residual Stress	117
Viktor M. Hauk	
Measurements of Stress in the Interior of Solids with Neutrons	139
A.D. Krawitz, J.E. Brune, and M.J. Schmank	

SESSION IV

- Mechanical Relaxation Response of $2\frac{1}{2}$ Cr-1 Mo Steel 157
R.W. Swindeman
- Effect of Temperature on Stress Relaxation of
Several Metallic Materials 181
A. Fox
- Thermal Relaxation in Autofrettaged Cylinders. 205
Joseph F. Throop, John H. Underwood, and
Gregory S. Leger

SESSION V

- The Numerical Simulation of Crack Growth in Weld-Induced . . . 227
Residual Stress Fields
M.F. Kanninen, F.W. Brust, J. Ahmad, and I.S. Abou-
Sayed
- Linear Elastic Fracture Mechanics and Fatigue Crack Growth-
Residual Stress Effects. 249
Anthony P. Parker
- Stress Corrosion Crack Growth in the Presence of Residual
Stresses 273
D.O. Harris
- The Relaxation of Residual Stresses During Fatigue 297
M.R. James

SESSION VI

- The Generation of Residual Stresses in Metal-Forming
Processes. 315
R.M. McMeeking and E.H. Lee
- Stress Relaxation in Spring Materials. 331
E. Shapiro and J. Winter
- Problems with Residual Stress in the Railroad Industry 341
D.H. Stone
- Measurement of Residual Stresses in Ammunition 355
F. Witt, F. Lee, and W. Rider

SESSION VII

X-Ray Residual Stress Measurement Systems for Army Material Problems	369
C.P. Gazzara	
Residual Stresses and Stress Relieving in Uranium Alloys.	389
K.H. Eckelmeyer	
Residual Stresses in Resin Matrix Composites.	409
P. Predecki and C.S. Barrett	
Residual Stress Measurement in Metal Matrix Composites. . . .	425
S. Tsai, M. Schmerling, and H.L. Marcus	
Residual Stress Development in Ceramics	439
A.R. Cooper	

SESSION VIII

Determination of Residual Stress Distributions in the Interior of Technical Parts by Means of Neutron Diffraction	467
L. Pintschovius, V. Jung, L. Maucherauch, R. Schäfer, and O. Vöhringer	
Calculation of Quenching Stresses with and Without Trans- formation Effects	483
H.-J. Yu and E. Macherauch	
X-Ray Measurements of Long-Range Strains: A Bridge Between Micromechanics and Macromechanics	501
S. Weissmann, Z.H. Kalman, J. Chaudhuri, R. Yazici, and W. Mayo	
Stress Relaxation Characteristics and Data Utilization. . . .	519
M.J. Manjoine	
Index	531
