<b>Foreword</b>	ix
<b>Preface</b>	xi
<b>1 Physical principles of ultrasonic testing</b>	1
<i>J. Szilard</i>	
<b>2 Review of conventional testing techniques</b>	25
<i>J. Szilard</i>	
<b>3 New imaging techniques</b>	53
<i>J. Szilard and P. D. Hanstead</i>	
<b>4 Ultrasonic holography</b>	103
<i>E. E. Aldridge and M. J.-M. Clément</i>	
<b>5 Ultrasonic spectroscopy</b>	167
<i>A. F. Brown</i>	
<b>6 Examining the grain structure of metals</b>	217
<i>J. Szilard</i>	
<b>7 Resonance methods</b>	263
<i>P. J. Highmore and J. Szilard</i>	
<b>8 The use of surface elastic waves in examining surface mechanical properties</b>	297
<i>G. Curtis</i>	
<b>9 Techniques using dry coupling or non-contact coupling</b>	381
<i>J. Szilard</i>	

<b>10</b>	<b>Testing at high temperatures . . . . .</b>	<b>411</b>
	<i>K. W. Andrews</i>	
<b>11</b>	<b>Ultrasonic measurement of stress . . . . .</b>	<b>437</b>
	<i>D. Crecraft</i>	
<b>12</b>	<b>Acoustic emission—a diagnostic tool in non-destructive testing . . . . .</b>	<b>459</b>
	<i>R. W. B. Stephens and H. C. Kim</i>	
<b>13</b>	<b>Non-destructive testing of adhesively bonded structures with acoustic methods . . . . .</b>	<b>495</b>
	<i>G. J. Curtis</i>	
<b>14</b>	<b>Wave propagation techniques in determining the dynamic elastic properties of wires and fibres . . . . .</b>	<b>555</b>
	<i>G. J. Curtis</i>	
<b>15</b>	<b>Miscellaneous testing problems and methods . . . . .</b>	<b>599</b>
	<i>J. Szilard</i>	
	<b>Author Index . . . . .</b>	<b>627</b>
	<b>Subject Index . . . . .</b>	<b>637</b>
