| CONFERENCE OVERVIEW, OBJECTIVES AND THEMES | 1 |
| CONFERENCE CONCLUSIONS | 7 |
| SUMMARY OF WORKING GROUP DISCUSSIONS | |
| Working Group A: Communicating the Value of Fossil Fuels | 15 |
| Working Group B: Fossil Fuel Industry Responsiveness to Public Requirements | |
| Working Group C: Fossil Fuel Utilization and Global Climate Change Initiatives | 17 |
| Working Group D: Energy Trade: The Role of Governments and the Markets | 19 |
| Working Group E: Infrastructure Development for Fossil Fuels Deployment | 21 |
| Working Group F: The Strategic Utilization of Fossil Fuels and Environmental Regulation | 23 |
| Working Group G: International Technology Development, Transfer and Deployment | 29 |

PLENARY SESSIONS

| | |
|---|-----|
| Keynote Address: Patricia Fry Godley, Assistant Secretary for Fossil Energy, Department of Energy, United States; Chair, IEA Working Party on Fossil Fuels | 33 |
| Conference Co-Chairs' Opening Remarks: <i>Hans Jørgen Koch, Director, Energy Technology and R&D, International Energy Agency, Paris</i> | 51 |
| <i>W. J. "Jack" Bowen, Chairman Emeritus, Transco Energy Company, United States</i> | 55 |
| Energy for Tomorrow's World: Gerhard Ott, Chairman of Executive Assembly, World Energy Council, Germany | 61 |
| World Energy Update: John P. Ferriter, Deputy Executive Director, International Energy Agency, Paris | 91 |
| The Impact of Government Regulation on Fossil Fuels: Don D. Jordan, Chairman & CEO, Houston Industries, Inc., United States | 113 |
| Challenges and Responses: R. V. Shahi, Chairman and Managing Director, BSES Limited, India | 125 |
| The Future Role of Oil: Alirio A. Parra, Senior Advisor, Centre for Global Energy Studies, United Kingdom; Former Venezuelan Minister of Energy and Mines | 149 |
| Enhanced Utilization of Coal - A Strategic Resource for the Future: Richard L. Lawson, President, National Mining Association, United States | 163 |
| The Restructured and Internationalized Electric Utility Industry: Walker F. Nolan, Executive Vice President, Governmental Affairs, Edison Electric Institute, United States | 185 |
| Globalization of the Natural Gas Industry: Ronald J. Burns, Managing Director, ENRON Capital and Trade Resources, United States | 191 |
| International Co-operation: Industrialized and Industrializing Countries: Hisham Khatib, Former Minister of Energy, Jordan; Chairman, Committee for Developing Countries, World Energy Council | 209 |

PANEL DISCUSSIONS - GROUP A

TECHNOLOGY DEPLOYMENT

Discussion Papers:

Technology Deployment Activities in Japan and CIAB Studies: *Masaki Takahashi, Program Manager, Energy and Environmental, Corporate Planning and Research Dept, Electric Power Development Co., Ltd., Japan* 225

Fuel Cell Development and Commercialization in Japan: *Tsutomu Tokumoto, Manager, Engineering, New York Representative Office, Tokyo Gas Co., Ltd. Japan* 235

Rapporteur's Report: *Masahiro Okuda, Principal Administrator, Energy Technology and R&D, International Energy Agency, Paris* 249

REGIONAL TRADE ISSUES

Discussion Papers:

Regional Trade Issues: *Juan Eibenschutz, Former Chief Advisor to Secretary of Energy, Mexico; Mexican Member Committee, World Energy Council* 253

Energy Trade in Southern Africa: *Wendell F. Holland, Attorney, Reed Smith Shaw & McClay, United States* 261

Regional Trade of Electricity: *J. Hebo Nielson and Max Pilegaard, SK Power Company, Denmark* 269

Canada - United States Natural Gas Trade - A Model for Expanding Regional Energy Trade?: *T. D'Arcy McGee, President, INTENCO Energy Consultants Ltd., Canada* 277

Rapporteur's Report: *Lori Cameron, Executive Director, The Energy Council, United States* 285

EASTERN-WESTERN EUROPEAN NATURAL GAS DEVELOPMENT

Discussion Papers:

- Structuring Legal Relationships in Oil and Gas Exploration and Development in Russia and Other Frontier Countries:** *Sheila S. Hollis, Attorney, Metzger, Hollis, Gordon & Mortimer, United States* 291
- The Future of European Gas Markets:** *Jimmy Roze, Service Approvisionnement et Projets Gazier, Delegation Internationale, Gaz de France, France* 321
- Eastern-Western European Natural Gas Development:** *Mihály Bacskó, Manager of Operations, Hungarian Power Companies Ltd., Hungary* 331
- Rapporteur's Report:** *Will Polen, Program Manager, United States Energy Association, United States* 337

REGIONAL ELECTRIC POWER INTERCONNECTIONS

Discussion Papers:

- Energy Trade and Power Interconnections in South America:** *José Luiz Alquéres, Executive Director Bozano, Simonsen Group, Brazil; Vice Chair, World Energy Council* 341
- North American Electric Interconnections:** *Tom Sweatman, Executive Director, Electric Reliability Council of Texas, United States* 347
- Rapporteur's Report:** *Robert Donovan, Deputy Program Manager, Utility Partnership Program, United State Energy Association, United States* 353

**FINANCING IMPLICATIONS FOR ADVANCED FOSSIL TECHNOLOGY
DEPLOYMENT**

Discussion Papers:

| | |
|--|-----|
| Added Risks in Emerging Countries and Financing Sources: <i>John C. Ale, Attorney, Vinson & Elkins L.L.P., United States</i> | 359 |
| Financing Considerations for Meeting the Energy Demands of China and Other Emerging Nations: <i>Leland R. Hardy, Chairman, Xuan Ya Group, United States</i> | 371 |
| Rapporteur's Report: <i>J.L. Piland, Manager, Government Programs, McDermott/Babcock & Wilcox, United States</i> | 375 |

PANEL DISCUSSIONS - GROUP B

RURAL ENERGY DEVELOPMENT

Discussion Papers:

| | |
|---|-----|
| Energy for Sustainable Rural Development: <i>Abdelhamid Maghrebi, Secretary General, National Member Committee of Tunisia, World Energy Council, Tunisia</i> | 381 |
| El Valor Estrategico de los Combustibles Fosiles: Retos y Oportunidades: <i>Francisco J. Gutierrez, Executive Secretary, Organizacion Latinoamericana de Energia, Quito</i> | 393 |
| Solar Photovoltaic/Coal Community Development Project: <i>Robert Eggleston, President, EFH Coal Company, United States; and Walter J. Hesse, President & CEO, ENTECH, Inc., United States</i> | 407 |
| Rural Energy Activities of the United Nations: <i>Kui-Nang Mak and Walter Shearer, Energy Planning and Management Branch, Dept for Development Support and Management Services, United Nations, New York</i> | 413 |
| Rapporteur's Report: <i>Robert R. Copaken, Political Economist, Office of International Markets, Department of Energy, United States</i> | 425 |

THE REFINERY OF THE FUTURE

Discussion Papers:

| | |
|--|-----|
| World Refining: Past, Present, Future: <i>Urvan R. Sternfels, President, National Petroleum Refiners Association, United States</i> | 429 |
| The Refining Life Cycle - Evaluating Investment Factors: <i>Doris J. Dewton, Manager, Petroleum Experts Group, NATO, Brussels</i> | 439 |
| The Future of the Refining Industry: <i>Gerardo Bazán, Institute of Mexican Chemical Engineering, Azcapotzalco Section, Mexico</i> | 451 |
| The Refinery of The Future - Process Technology Requirements: <i>Peter Killen and Robert T. Snell, Wright Killen & Co., United States</i> | 469 |
| The Refinery of the Future: <i>Norman E. Duncan, Principal, NED & Associates, Inc., United States</i> | 475 |

COAL FOR A SUSTAINABLE FUTURE

Discussion Papers:

| | |
|--|-----|
| Coal for a Sustainable Future: <i>Akira Kinoshita, Electric Power Development Company Engineering Research, Japan</i> | 483 |
| Power for Generations -The Reality of Coal: <i>A. C. Toohey, Chief Executive, World Coal Institute, London</i> | 495 |
| Fossil Fuels and Sustainable Electric Development: <i>George T. Preston, Vice President, Generation, Electric Power Research Institute, United States</i> | 507 |
| Remarks on 1995 Coal Market: <i>Giovanni Perego, Director, Coal Branch, ENEL S.p.A., Italy</i> | 517 |
| Rapporteur's Report: <i>Mary C. Lang, Senior Program Manager, Gas Technology Information, Inc., United States</i> | 535 |

COLLABORATIVE RESEARCH AND DEVELOPMENT IN FOSSIL FUELS

Discussion Papers:

| | |
|--|-----|
| Industry/Department of Energy/National Laboratory Cooperative Research through the Natural Gas and Oil Technology Partnership: <i>Sandra L. Waisley, Office of Fossil Energy, Department of Energy, United States</i> | 541 |
| Collaborative Research in Fossil Fuels - Collaboration in Tar Sands Technology Development: <i>David Brown, Director, Western Research Laboratories, Centre for Mineral and Energy Technology, Canada</i> | 565 |
| R&D International Cooperation on Oil & Gas - Strategic Value and Possible Focus: <i>Giuseppe Iorio, Head of Energy R&D Planning and Control, ENI SpA, Italy</i> | 571 |
| R&D Institution Building in Developing Countries through International Co-operation: <i>Hilal A. Raza, Director General & CEO, Hydrocarbon Development Institute, Pakistan</i> | 589 |
| Rapporteur's Report: <i>Dolores M. Kern, Assistant Vice President, Research, Development and Technology Co-operation, National Mining Association, United States</i> | 601 |

INTERNATIONAL ENERGY COLLABORATION - INDUSTRY PARTNERSHIP

Discussion Paper:

| | |
|---|-----|
| UPP Program for Polish Generation Subsector: <i>Andrzej Kruzel, Manager, General Technical Department, Power Plant Polaniec, PPGS, Poland</i> | 607 |
| Rapporteur's Report: <i>Ruth Cherenson, Deputy Program Manager, Utility Partnership Program, United States Energy Association, United States</i> | 611 |

PANEL DISCUSSIONS - GROUP C

BUILDING INSTITUTIONS IN DEVELOPING COUNTRIES

Discussion Papers:

- State Reform - Electric Power Sector - Brazil - An Overview and Investment Opportunities:** *José Malhães da Silva, Executive Director, Brazilian Committee, World Energy Council, Brazil* 617
- Some Aspects of the Energy Institutions in Developing Countries - Egypt Case:** *Emad El-Sharkawi, Chairman, Egyptian National Committee, World Energy Council, Egypt* 629
- Some Specific Features of Power Generation Development within the System of NEK:** *Anguel Metchkarski, Chief Specialist, Power Generation Department, Natsionalna Elektricheska Kompania, Bulgaria* 637
- Rapporteur's Report:** *Steve Zukor, Executive Director, Technology Management Services, United States* 649

GLOBAL TRADE BARRIERS

Discussion Papers:

- The Global Energy Trade:** *Jean-Romain Frisch, Secretary General, French Committee, World Energy Council, France* 655
- For Smooth Expansion of Coal Trade in the Asia-Pacific Region and the World:** *Hiroshi Honda, Manager, Project Department, Environment and Energy Division, Mitsui Engineering & Shipbuilding Co., Ltd., Japan* 665
- Global Trade Barriers - The Competition Dilemma:** *Rosendo Zambrano, Commercial Director of Products, P.M.I. Comercio Internacional, S.A. de C.V., Mexico* 677
- A World Oil Stability Policy:** *Dale W. Steffes, Senior Teleologist, Planning & Forecasting Consultants, United States* 681
- Rapporteur's Report:** *Laura Green, Program Manager, Technology & Management Services, United States* 689

DEPLOYING CLEAN COAL TECHNOLOGY

Discussion Papers:

Deploying Clean Coal Technology: *J. Rakowski, Institute of Power Engineering, Poland* 693

A U.S. Perspective on Clean Coal Technologies - National Coal Council Studies 1994-1995: *Jerry J. Oliver, Vice President and Manager of Technology, Bechtel Corporation, United States; and Dwain Spencer, Principal, SIMTECHE, United States* 699

Current Status of Clean, Coal-fired, Steam Cycle Generation Technology and Industry Views of Its Future Prospects: *John Billingsley, Manager, Structural Integrity, Power Technology, U.K.; IEA Coal Industry Advisory Board* 709

Rapporteur's Report: *Fred M. Glaser, Deputy Director, Fossil Energy Advanced Research, Department of Energy, United States* 713

GLOBAL CLIMATE CHANGE

Discussion Papers:

Classification of Mitigation Measures to Global Climate Change: *Yukio Yanagisawa, Chief Researcher, Research Institute of Innovative Technology for the Earth, Japan* 717

How Coal is Facing the Challenge of Global Climate Change: *Daniel B. Scherder, Vice President, Peabody Holding Company, Inc., United States; IEA Coal Industry Advisory Board* 721

Rapporteur's Report: *Sharon Daniels, Executive Director, Eastern Mineral Law Foundation, United States* 739

OTHER CONTRIBUTED PAPERS

| | |
|---|-----|
| Energy Production Situation in Estonia: <i>Mati Uus, Manager of Department, State Enterprise Estonian Energy, Estonia</i> | 743 |
| Communicating the Value of Fossil Fuels: <i>Barbara McKee, Director, International Program Coordination, Office of Fossil Energy, Department of Energy, United States</i> | 747 |
| Industry Actions Responding to Global Climate Change Concerns: <i>Gayle Jackson, President, Gayle P. W. Jackson, Inc., United States; IEA Coal Industry Advisory Board</i> | 751 |

CLOSING REMARKS 785

Hans Jørgen Koch, Director, Energy Technology and R&D, International Energy Agency, Paris

CONFERENCE PROGRAMME 789

CONFERENCE STEERING COMMITTEE 813

CONFERENCE PARTICIPANTS 817
