

CONTENTS

Session A Lower hybrid Heating - Theory

- A1 Transport Code Models for Lower Hybrid Heating
and Current Generation in Tokamaks
M.Porkolab , M.I.T. (1)
- A2 Computer Simulation of the Lower Hybrid Wave Heating
H.Abe, R.Itatani and A.Fukuyama,
Eng., Kyoto Univ. (3)
- A3 Estimation of LHRF-Heating in JFT-2 Tokamak by
Numerical Simulation
M.Okamoto and T.Imai* IPP, Nagoya Univ.,
*JAERI (9)
- A4 The Effect of Density Rippling on the Lower Hybrid
Wave Launching
A.Fukuyama and T.Morishita, Dept. of Elect.
Okayama Univ. (14)

Session B Lower Hybrid Heating - Experiment

- B1 LHRF Heating Experiments on the JFT-2 Tokamak
T.Imai, T.Nagashima, T.Fujii, N.Fujisawa, A.Funahashi
S.Iizuka, S.Kasai, K.Kumagai, M.Maeno, T.Shoji,
T.Sugie, N.Suzuki, H.Takeuchi, K.Uehara, T.Yamamoto
T.Yamauchi and H.Yoshida, JAERI (19)
- B2 Lower-Hybrid coupling, Heating and Current Drive
Experiments in the MIT Versator II and Alcator A and
C Tokamaks
M.Porkolab, M.I.T. (25)
- B3 Lower Hybrid Heating Experiment in JIPP T- II
K.Ohkubo, K.Matsuura and JIPP T-II group, IPP,
Nagoya Univ. (29)

- B4 Lower Hybrid Heating Experiment in WT-1 Tokamak
Y.Hamada, M.Nakamura, T.Saito, M.Ikeda, S.Kubo,
 Y.Terumichi and S.Tanaka, Dept. of Phys.,
 Kyoto Univ. (40)
- B5 Lower Hybrid Waves in Octopole Tokamak
S.Takamura, H.Matsushita, U.Suzuki, S.Ohshima,
 Y.Uesugi, K.Ushikusa and T.Okuda, Dept. of Elect.
 Eng., Nagoya Univ. (47)
- B6 Thermal Effects on Lower Hybrid Waves
 T.Ohnuma, Dept. of Elect. Eng., Tohoku Univ. ... (52)

Session C Electron Cyclotron Heating - Theory

- C1 Linear Theory of Wave Propagation Based on the Integral
 Equation in Wave Number-space
 T.Watanabe, H.Hojo, M.Watanabe*, H.Sanuki**, T.Ohnuma***,
 and K.Nishikawa, Institute for Fusion Theory, Hiroshima
 Univ., *Faculty of Eng., Kinki Univ., **IPP, Nagoya
 Univ., ***Dept. of Elec. Eng., Tohoku Univ. (59)
- C2 Wave Trajectories and ECH in a High Density Tokamak
T.Maekawa, Y.Terumichi, Y.Hamada and S.Tanaka,
 Dept. of Phys., Kyoto Univ. (64)
- C3 Finite Temperature Effect on Ray Tracing Near the
 Electron Cyclotron Resonance
 M.Fujiwara, M.Tanaka and H.Ikegami, IPP, Nagoya Univ.
 (70)
- C4 Electron Cyclotron Heating in Heliotron
 M.Sato, M.Wada, S.Kinoshita, A.Iiyoshi and K.Uo,
 Plasma Physics Lab, Kyoto Univ. (82)

C5 Some Fundamental Aspects of Electron Cyclotron Heating
G.Guest, GA (87)

C6 Heating Tokamaks by Intense Extraordinary Mode Radiation
F.Perkins, PPPL

Session D Electron Cyclotron Heating - Experiments

D1 Electron Cyclotron Heating and Preionization
Experiments in Tokamaks
A.England, ORNL (98)

D2 ECH Experiments in JIPP T- II
K.Matsuura, K.Ohkubo, K.Kawahata, K.Matsuoka,
K.Miyamoto, H.Ikegami, M.Fujiwara, M.Hosokawa,
M.Tanaka and JIPP T-II group, IPP, Nagoya Univ. . (105)

D3 Electron Cyclotron Heating Experiments on JFT-2 Tokamak
T.Yamamoto, A.Funahashi, N.Fujisawa, S.Iizuka,
Y.Kawakami, K.Kumagai, M.Maeno, C.Moeller, R.Lahaye,
M.Ro, T.Shoji, N.Suzuki, H.Takeuchi, Y.Tanaka,
H.Toyama, T.Yamauchi, JAERI (110)

D4 Electron Cyclotron Heating and Preionization in
WT-1 Tokamak
S.Tanaka, T.Cho, S.Kubo, M.Ikeda, Y.Terumichi and
Y.Hamada, Dept. of Phys., Kyoto Univ. (114)

D5 Electron Cyclotron Heating in Nagoya Bumpy Torus
H.Ikegami, M.Hosokawa and M.Fujiwara, IPP, Nagoya Univ.
..... (120)

D6 Gyrotron for Electron Cyclotron Heating in WT-1 Tokamak
Y.Terumichi, S.Suzuki, Y.Hamada, and S.Tanaka,
Dept. of Phys., Kyoto Univ. (135)

Session E ICRF in Tokamaks

- E1 Physics of ICRF Heating
 F.Perkins, PPPL
- E2 ICRF Heating in DIVA
 H.Kimura, DIVA Group, JAERI (141)
- E3 Experiments in ICRF Heating
 J.Hosea, PPPL

Session F ICRF - Others

- F1 RF Driven Convection in Ion Cyclotron Range of Frequencies
 R.Itatani, Y.Yasaka and H.Imaizumi, Dept. of Elect.
 Eng., Kyoto Univ. (147)
- F2 Ion Heating due to Ion Cyclotron Instability
 N.Sato, Dept. of Elect. Eng., Tohoku Univ. (153)
- F3 Ion Heating by Ion Cyclotron Parametric Instability in
 a Two-Ion-Species Plasma
 K.Yatsui, M.Shimada and M.Yokoyama*, Technological
 Univ. of Nagaoka, *Inst. of Laser Fusion, Osaka Univ.
 (156)
- F4 Ion Cyclotron Resonance Heating in RFC-XX
 T.Watari and T.Sato, IPP, Nagoya Univ. (160)
- F5 Axisymmetric Alfvén Resonance Heating
 G.Guest and F.Perkins*, GA, *PPPL
- F6 Nonlinear Damping of Lower Hybrid Wave
 R.Sugihara, IPP, Nagoya Univ. (164)
