

Table of Contents

POWER ELECTRONICS I , Chairman, W. Burns, <i>Digital Equipment Corp.</i> ; Co-Chairman, D. Chen, <i>Virginia Polytechnic Institute & State University</i>	1	POWER ELECTRONICS III , Chairman, F. F. Oettinger, <i>National Bureau of Standards</i> ; Co-Chairman, W. Portnoy, <i>Texas Tech University</i>	145
Computer Aided Analysis of Switching Regulators Using SPICE2 , V. Bello, <i>Norden Systems</i>	3	Effects of Emitter Open Switching on the Turn-off Characteristics of High-Voltage Power Transistors , B. Jackson, <i>General Electric</i> ; D. Chen, <i>Virginia Polytechnic and State University</i>	147
A New Zero-Ripple Switching dc-to-dc Converter and Integrated Magnetics , S. Cuk, <i>California Institute of Technology</i>	12	The effect of Carrier Lifetime Profile on Turn-Off Time and Turn-Off Losses , V. Temple, F. Holroyd, M. Adler, P. Gray, <i>General Electric Corporation</i>	155
Modeling and Analysis of a Multi-Output Cuk Converter , G. Bloom, A. Eris, J. Overduin, R. Ruble, <i>Litton Systems</i>	33	Design of High-Density Power Lateral DMOS Transistors , S. Colak, B. Singer, E. Stupp, <i>Philips Laboratories</i>	164
On the Cross-Noise in Multi-Output dc-to-dc Converters , T. Ninomiya, H. Kakihara, K. Harada, <i>Kyushu University</i>	48	A New Current Mode Sine Wave Inverter , J. Kassakian, <i>Massachusetts Institute of Technology</i>	168
Design Optimization for a Half-Bridge dc-to-dc Converter , C. Wu, F. Lee, S. Balachandran, <i>Virginia Polytechnic Institute and State University</i> ; H. Goin, <i>Naval Avionic Center</i>	57	Toward A Practical Computer-Aid for Thyristor Circuit Design , C. Hu, <i>University of California, Berkeley</i> , W. Ki, <i>Signetics Corp</i>	174
Design and Performance of Power Transformers with Metallic Glass Cores , J. Mas, <i>Allied Chemical Corporation</i>	68	A General Steady-State Analysis Program ANASP for Thyristor Circuits Based on Adjoint-Network Approach , Y. Kuroe, H. Haneda, T. Maruhashi, <i>Kobe University</i>	180
		A Single Transistor Chopper Supply for a Searchlight , M. Petersen, <i>National Gas Turbine Establishment</i>	190
POWER ELECTRONICS II , Chairman, Y. Yu, <i>Xerox, Incorporated</i> ; Co-Chairman, L. Lowry, <i>Westinghouse Corp., R&D Center</i>	81	POWER ELECTRONICS IV , Chairman, P. Wood, <i>Westinghouse Corp., R&D Center</i> , Co-Chairman, R. L. Steigerwald, <i>General Electric Company, Corporate R&D</i>	201
Parameter Determination Technique for the Gummel-Poon CAD Transistor Model , J. Bowers, N. English, H. Nienhaus, <i>University of South Florida</i>	83	A Chopper Converter for Electric Vehicle Propulsion Battery Charging and Propulsion Motor Field Excitation , J. N. Park, <i>General Electric Company, Corporate R&D</i>	203
A Model of Power Transistor Turn-off Dynamics , C. Hu, M. Model, <i>University of California, Berkeley</i>	91	Practical Application of Power Conditioning to Electric Propulsion for Passenger Vehicles , N. Demerdash, F. C. Lee, T. W. Nehl, <i>Virginia Polytechnic Institute and State University</i> , B. P. Overton, <i>Kollmorgen Corporation</i>	211
A High Power MOSFET Computer Model , H. Nienhaus, J. Bowers, <i>University of South Florida</i> ; P. Herren, Jr., <i>Wright Patterson AFB</i>	97	The Design and Performance of an 11kW Solar Array Simulator , R. Smith, <i>Sandia Laboratories</i> , G. A. O'Sullivan, F. K. O'Sullivan, <i>Abacus Controls Incorporated</i>	220
Application of Small-Signal Modeling and Measurement Techniques to the Stability Analysis of an Integrated Switching-Mode Power System , R. Wong, H. Owens, Jr., T. Wilson, <i>Duke University</i> ; G. E. Rodriguez, <i>NASA</i>	104	Portable DC Circuit Breaker Calibrator Using High Frequency Thyristor Converter , D. A. Paice, <i>Westinghouse Research & Development Center</i>	226
State-Space Average Modelling of Converters with Parasitics and Storage Time Modulation , W. Polivka, P. Chetty, R. Middlebrook, <i>California Institute of Technology</i>	119		

A Line Interfaced Inverter with Active Control of the Output Current Waveform , M. F. Schlecht, <i>Massachusetts Institute of Technology</i>	234
The Generalized Transformer: A New Bidirectional, Sinusoidal Waveform Frequency Converter with Continuously Adjustable Input Power Factor , M. Venturini, <i>Texas Instruments Limited</i> , A. Alesina, <i>University Degli Studidi, Milano</i>	242
A Solid State Transformer , H. A. Nienhaus, J. C. Bowers, S. J. Garrett, <i>University of South Florida</i> , J. L. Brooks, <i>U.S. Navy CEL</i>	253
High Voltage Electronics—An Overview , J. W. Williams, Consultant— <i>Power Electronics, West Germany</i>	265
POWER ELECTRONICS V , Chairman, S. Garrett, <i>University of South Florida</i> , Co-Chairman, W. Collins, <i>Martin-Marietta Corporation</i>	273
Precise Regulation of Multiple-Output Voltages in a dc-dc Converter , J. Matsuo, F. Kurokawa, <i>Nagasaki University, Japan</i>	275
A Unified Analysis and Design Procedure for a Standardized Control Module for dc-dc Switching Regulators , F. C. Lee, <i>Virginia Polytechnic Institute and State University</i> , Y. Yu, <i>Xerox, Incorporated</i> , M. F. Mahmoud, <i>Northrope/Page</i>	284
Pulse Synchronizing dc-to-dc Converters , H. Harada, H. Sakamoto, <i>Kyushu University, Japan</i>	302
NSLS Dipole Power Source , G. P. Bagley, <i>Brookhaven National Laboratory</i>	308
An Efficient 600 Watt High Voltage Capacitor Multiplier , F. C. Schwarz, J. B. Klaassens, W. Petiet, <i>State University of Technology, The Netherlands</i>	316

SLIC 3: The Synchronised/Limit Cycle Controlled Conductance , D. O'Sullivan, A. Weinberg, D. Levins, J. Scheeuders, <i>European Space Research and Technology Center, The Netherlands</i>	397
New dc/ac High Power Cell Structure Improves Performances for Sine Generator , J. Jalade, J. C. Marpinard, M. Valentin, <i>Laboratoire d'Automatique et d'Analyse des Systemes du C.N.R.S., France</i>	326
POWER ELECTRONIC VI , Chairman, P. Thollot, <i>NASA Lewis Research Center</i> , Co-Chairman, M. S. Adler, <i>General Electric Company, Corporate R&D</i>	333
Parameter and State Estimation for Dead-Beat dc Drive Speed Control , Y. Dote, T. V. Sriram, R. G. Hoft, <i>University of Missouri-Columbia</i>	335
Push-Pull Current-Fed Multiple-Output dc/dc Power Converter with Only One Inductor and with 0 to 100% Switch Duty Ratio , R. Redl, N. O. Sokal, <i>Design Automation, Incorporated</i>	341
Thyristor Current Source with an Improved Power Factor , G. Olivier, <i>Concordia University, Montreal</i> , V. R. Stefanovic, <i>University of Missouri-Columbia</i>	346
Improved Power Factor Operation of a Single Phase Controlled Rectifier Bridge Through Modified Gating , S. B. Dewan, W. G. Dunford, <i>University of Toronto</i>	357
Auxiliary Power Convertors for Locomotives , K. Frank, K. Rehnman, <i>ASEA AB, Sweden</i>	366
The Performance of an Inverter Having ac Switched Commutation , W. McMurray, <i>General Electric, Corporate R&D</i>	374
A Novel DC-Side Commutated Inverter , V. R. Stefanovic, <i>University of Missouri</i> , P. Bhagwat, <i>Concordia University, Montreal</i>	385
