

## CONTENTS

Introduction .....	5
Grouping of countries and areas .....	9
Table 1. Nuclear power reactors in the world (end of 1992) .....	12
Figure 1. Nuclear share of total electricity generation during 1992 .....	14
Table 2. Number of countries with nuclear power reactors in operation or under construction (end of 1992) .....	15
Table 3. Estimates of total and nuclear electrical generating capacity .....	16
Figure 2. Total and nuclear electrical generating capacity .....	18
Table 4. Estimates of total electricity generation and contribution by nuclear power .....	21
Figure 3. Percentage of electricity supplied by nuclear power .....	22
Table 5. Estimates of total world energy consumption, percentage used for electricity generation, and percentage supplied by nuclear energy .....	25
Figure 4. Energy consumption estimates .....	26
Table 6. Total energy consumption by type of fuel during 1992 .....	29
Figure 5. Total energy consumption by fuel type during 1992 .....	30
Figure 6. Breakdown of total world energy consumption during the period 1970–1992 .....	32
Table 7. Fuel shares of energy consumption during 1992 .....	35
Table 8. Energy consumption for electricity generation by type of fuel during 1992 ...	36
Table 9. Contribution of each fuel type to electricity generation during 1992 .....	37

Table 10.	Estimates of world population growth .....	39
Figure 7.	Population estimates .....	40
Table 11.	Estimates of total energy and electricity consumption per capita .....	43
Figure 8.	Per capita energy consumption .....	44
Figure 9.	Per capita electricity consumption .....	46
Table 12.	Average annual growth rates during the period 1974–1992 .....	49
Figure 10.	Average annual growth rates during the period 1974–1992 .....	50
Table 13.	Estimates of average annual growth rates during the period 1992–2015 .....	53
