

JOINT GERMAN-INDONESIAN SEMINAR ON R & D ACTIVITIES USING THE MPR-30

Jakarta, August 19 - 21, 1985

<u>T a b l e o f C o n t e n t s</u>	<u>Page</u>
<u>Programme of the Workshop</u>	15
<u>Lectures</u>	
<u>Opening Session:</u>	
Welcome Address	23
D. Ahimsa, Director General, BATAN	
Purpose and Scope of the Seminar	29
I. Subki, Deputy Director General, BATAN	
Indonesian-German Cooperation	35
K. Schroeter, Federal Ministry for Research and Technology	
<u>Plenary Session</u>	
Overview on BATAN's Longterm R & D Programme in the Nuclear Field	49
I. Subki, Deputy Director General, BATAN	
Present and Planned BATAN R & D Facilities	63
D. Mursid, A.B. Haryono, Abdu Razal, BATAN	
BATAN's Experience in the Operation and Maintenance of Research Reactors	89
Sutaryo Supadi, et.al., BATAN	
Determining the Cost of Experiments on Research Reactors Using the Example of FRJ-1 and FRJ-2	111
G. Thamm, KFA Jülich (Not presented orally, written version distributed during the Seminar.)	
Maintenance Aspects of Reactor Operation	133
C. Kemmerling, KFA Jülich	

Overview on Future BATAN's Activities in Material Testing Sumantono Kasan, et.al., BATAN	161
Overview on German Activities in Material Testing S. Krawczynski, KFA Jülich	173
Irradiation Embrittlement of Reactor Pressure Vessel Steels D. Pachur, KFA Jülich	211
Irradiation Facilities for Testing Structural Materials G. Pott, KFA Jülich	231
Methods and Facilities for Structure Materials Examination Specially Irradiated Material G. Pott, KFA Jülich	265
BATAN's Activities in Fuel Development S. Soentono, et.al., BATAN	293
Overview on German Activities in Nuclear Fuel Development K. Kummerer, KfK Karlsruhe	321
Basic Characteristic and Requirements of MTR Fuel M. Hrovat, Fa. NUKEM Hanau	351
Basis Requirements and Characteristics for Power Reactor Fuel K. Kummerer, KfK Karlsruhe	367

BATAN's Activities in Radionuclide Production and Application Soeroto Ronodirdjo, et.al., BATAN	407
Overview on BATAN's Activities in Analytical Chemistry F. Lahagu, et.al., BATAN	433
Production of Reactor and Cyclotron Nuclides H.J. Ache, KfK Karlsruhe	449
Application of Radionuclides in Life Sciences K.H. Bremer, Fa. Hoechst Frankfurt	489
Application of Radionuclides in Industry and Technology W. Herzog, Staatl. Materialprüfamt NRW Dortmund	551
Modern Analytical Techniques in Nuclear Technology H.J. Ache, KfK Karlsruhe	601

<u>Technical Session III "Neutron Scattering Group"</u>	Page
BATAN's Activities in Neutron Scattering Applied to Materials Research Marsongkohadi, et.al., BATAN	653
Overview on German Activities in Neutron Scattering, especially with regard to the General Concept of Installation of New Medium Flux Reactors with Neutron Scattering Devices towards Materials Science W. Schmatz, KfK Karlsruhe	675
Lay-Out of Cold Neutron Spectrometers for the Study of Imperfect Solids and Materials K. Werner, KFA Jülich	691
Overview on Supporting Activities and Institutions for Modern Material Research with Neutron K. Werner, W. Schmatz	719
<u>Technical Session I "Materials and Fuel Group" (Continued)</u>	
Specification, Fabrication and Characterization of Fuel G. Mühling, KfK Karlsruhe	729
Fuel Testing in Irradiation Experiments E. Bojarsky, KfK Karlsruhe	765
Post Irradiation Examination of Reactor Fuel D. Geithoff, KfK Karlsruhe	791
Future Trends for MTR Fuel M. Hrovat, Fa. NUKEM Hanau	809
Future Trends for Power Reactor Fuel G. Mühling, KfK Karlsruhe	827
