Opening Speech	3

END OF SCHOOL SUMMARY

P. Rutherford	Summary of the Course and Workshop held at Varenna in September 1985 on « Basic Physical Processes of Toroidal Fusion Plasmas »	7
---------------	--	---

TOKAMAK EXPERIMENTS: CONFINEMENT AND TRANSPORT

R. J. Bickerton and B. E. Keen <i>Presented by R. J. Bickerton</i>	Tokamak experiments	19
F. Wagner, ASDEX team and NI team	The H-regime of ASDEX	65
Yu. V. Esipchuk, and K. A. Razumova	Plasma confinement in Tokamak	87
S. M. Wolfe, M. Greenwald, R. Gandy, R. Granetz, C. Gomez, D. Gwinn, B. Lipschultz, S. McCool, E. Marmar, J. Parker, R. R. Parker and J. Rice <i>Presented by S. M. Wolfe</i>	Effect of pellet fueling on ion thermal transport in ohmically heated Alcator C plasmas	107
JT-60 team <i>Presented by M. Yoshikawa</i>	Experimental program of JT-60	119

G. Gorini, M. Hone, O. N. Jarvis,
J. Källne, V. Merlo, G. Sadler,
and P. Van Belle
Presented by V. Merlo

Ion temperature measurement in JET
using neutron spectra 133

AUXILIARY HEATING IN TOKAMAKS

H. P. Furth	Three novel tokamak plasma regimes in TFTR	143
R. J. Goldston	Topics in confinement analysis of Tokamaks with auxiliary heating	165
V. E. Golant	High frequency plasma heating in Tokamaks	187
J. G. Cordey	Unification of ohmic and additionally heated energy confinement scaling laws	209
G. Becker	Critical parameters for the L and H confinement in neutral beam heated Tokamaks	217
J. Lohr, and C. J. Armentrout <i>Presented by J. Lohr</i>	Charge exchange measurements on the Doublet III Tokamak	225
A. Taroni, F. Tibone, and M. L. Watkins <i>Presented by F. Tibone</i>	Transport models versus JET experimental results	235

MHD STABILITY AND TRANSPORT IN TOROIDAL CONFINEMENT

A. Schlüter	Remarks on MHD stability of general toroidal confinement systems	251
F. Troyon	MHD stability of toroidal confinement	259
H. Wobig	A dissipative model of plasma equilibrium in toroidal systems	277
A. H. Boozer	Transport in toroidal plasmas	283
D. J. Sigmar	The viscosity tensor for a Tokamak plasma with strong toroidal rotation	293
W. M. Stacey and D. J. Sigmar <i>Presented by D. J. Sigmar</i>	Toroidal momentum confinement of strongly rotating Tokamak plasma	315

MHD STABILITY IN TOKAMAKS

M. Okabayashi, K. Bol, D. Buchenauer, M. Change, P. Couture, H. Fishman, R. Fonck, G. Gammel W. Heidbrink, K. Ida, K. Itami, G. Jahns, R. Kaita, S. Kaye, H. Kugel, B. LeBlanc, J. Manickam, K. McGuire, N. Ohyabu, E. Powell, M. Reusch, G. Schmidt, S. Sesnic H. Takahashi and A. Tood <i>Presented by M. Okabayashi</i>	The PBX Tokamak experiment: MHD aspect of bean-shaped Tokamak .. 323
D. O. Overskei and E. J. Strait <i>Presented by D. O. Overskei</i>	MHD stability of Tokamak experiments with high beta 349
T. Sato, Y. Nakayama and K. Matsuoka <i>Presented by T. Sato</i>	A Full magnetohydrodynamic simulation of bifurcation and positional instability in non-circular Tokamaks 367
K. Elsässer	Stochastic stability of a Tokamak with arbitrary cross-section..... 383
