

A - TOKAMAKS

DeBoo, J C; Groebner, R J; Doublet III Group		
Energy confinement experiment on DOUBLET III with high power neutral beam heating	A P Mo 11 2	2
Abe, M; Hirayama, T; Kitsunezaki, A; Kameari, A; Konoshima, S;...		
Ion energy confinement properties in high power beam heated plasmas in DOUBLET III	A P Mo 21 6	6
Zurro, B; Pardo, C; Cabrera, J A; Cepero, J R; TJ-1 Group		
Radiated power loss behaviour in the TJ-1 tokamak	A P Mo 31 10	10
Joye, B; Lister, J B; Marmillod, Ph; Moret, J-M; Nowak, S		
The radiated power profile under wide-ranging Ohmic conditions in the TCA tokamak	A P Mo 41 14	14
Gruber, O; Jilge, W; Bernhardt, K; Eberhagen, A; Fussmann, G;...		
Radial energy balance analysis of ASDEX H-mode discharges	A P Mo 51 18	18
Taroni, A; Abels van-Maanen, A E P M; Core, W; Duechs, D F;...		
Transport calculations for JET discharges with ICRH	A P Mo 61 22	22
Cordey, J G; Bartlett, D V; Bickerton, R J; Brusati, M;...		
Global energy confinement studies in Ohmically heated JET plasmas	A O Mo 1430 1 26 M	26
Gottardi, N; Krause, H; Mast, F		
Limits in evaluating energy loss profiles from bolometric measurements at JET	A P Mo 71 30	30
Brusati, M; Cordey, J G		
Transport analysis of JET discharges	A P Mo 81 34	34
T-10 Group		
Study of electron heat conductivity on T-10 by propagation of a heat pulse from ECRH	A P Mo 91 38	38
T-10 Group		
Energy confinement dependence on plasma current in T-10 under ECRH	A P Mo 101 42	42
Kalmykov, S G; Lashkul, S I; Petrov, Yu V; Shprits, I D		
Temperature dependence of electron heat conductivity in TUMAN-2A-the tokamak with magnetic compression	A P Mo 111 46	46
Hofmann, F; Marcus, F B; Turnbull, A D		
Positional stability of highly elongated tokamak plasma in a conducting shell	A P Mo 121 50	50
Goedbloed, J P; Hogeweij, G M D; Kleiberger, R; Rem, J;...		
High-beta tokamak stability of toroidal plasmas with elliptical and D-shaped cross-sections	A P Mo 131 54	54
Takahashi, H; Bol, K; Buchenauer, D; Couture, P; Fonck, R;...		
High beta-t studies in the PBX tokamak	A O Mo 1450 1 58 M	58
Shoji, T; Hoshino, K; Kasai, S; Kawakami, T; Kawashima, H;...		
High beta and confinement studies in the JFT-2M tokamak	A P Mo 141 62	62

		VOLUME I

Briguglio, S; Romanelli, F; Vlad, G Current driven drift waves in reversed field pinches	D P No 66 1 630	630
Bunting, C C A; Carolan, P G; Field, A R Ion behaviour in the HBTX1A reversed field pinch	D P No 67 1 634	634
Martini, S; Ortolani, S Soft X-ray measurements on ETA-BETA II	D P No 68 1 638	638
Sinman, S; Sinman, A A compact toroid formed by multi magnetized T-tubes	D P Tu 26 1 642	642
Hoida, H W; Barnes, C W; Henins, I; Jarboe, T R; Buchenauer, C J; ... Local drift parameter, J/ne and resistivity anomaly measurements in CTX spheromaks	D P Tu 27 1 643	643
Jones, I R; Knight, A A field reversed configuration generated by means of a rotating magnetic field	D P Tu 28 1 647	647

VOLUME I

Jones, I R; Kirolous, H Long duration rotamak experiments	D P Tu 29 1 651	651
Bruhns, H; Allgeier, C; Raupp, G; Steiger, J; Weichert, A Generation of double toroids of the spheromak-type in the Heidelberg spheromak experiment	D P Tu 30 1 655	655
Bruhns, H; Allgeier, C; Boeckle, G; Raupp, G; Steiger, J; ... Studies of single toroids in the Heidelberg spheromak experiment	D P Tu 31 1 659	659
Ag, A; Nemeth, G Turbulent transfer rate of the magnetic field in a spheromak	D P Tu 32 1 663	663

VOLUME II

E - INERTIAL CONFINEMENT

Denus, S; Arendzikowski, R; Fiedorowicz, H; Jeziak, K; ... Experimental study of laser-driven implosion of spherical microtargets	E O Th 1450 2 25	2
Denus, S; Fiedorowicz, H; Kostecki, J; Nagraba, S; Pawlowicz, W; ... Spectral analysis of 2-omega-null and 3/2-omega-null harmonic emission from laser irradiated spherical microshells	E P Th 52 6	6
Fabbro, R; Faral, B; Vermont, J; Cottet, F; Romain, J P; ... Generation of very high pressures in planar geometry in 0.26 mikrom wavelength laser experiments	E P Th 62 10	10
Meyer, J; McIntosh, G; Houtman, H Experimental investigation of the two plasmon decay and stimulated Raman scattering instabilities in a CO2 laser produced plasma	E P Th 72 14	14
Golota, V I; Karas, V I On the high-current ion beam instability in the Z-pinch plasma channel	E P Th 82 18	18
Kawata, S; Niu, K Target implosion in LIB ICF	E P Th 92 22	22
Bakht, R B; Datsko, I M; Kovsharov, N F; Loskutov, V V; ... Study of the implosion of wire arrays at 1 MA current pulses	E P Th 102 26	26
Kamelander, G Effects of fusion product transport on burn characteristics of ICF-pellets	E P Th 112 30	30

F - PLASMA HEATING AND CURRENT DRIVE

Hansen, F R; Lynov, J P; Maroli, C; Petrillo, V Full-wave calculation of the D-X mode conversion process	F P Fr 492 36	36
Ejima, S; Jahns, G L; Lin, S H; Moeller, C P; Prater, R; ... Heating and confinement in the DOUBLET III tokamak with electron cyclotron heating	F O Fr 900 2 40 N	40
Zhang, Z X; Jiang, H Y An ECRH ray-tracing study with multi-reflection and mode conversion	F P Fr 502 44	44
