

### Paper Identification

Each paper is identified with a 6 character code printed on the top right corner of the first page. The code  $u\ v\ wx\ yz$  has the following structure:

- $u$  -- type of contribution;  $u = I, O, P$  for invited paper, oral and poster contributed paper
- $v$  -- the day of event;  $v = 0, 1, 2, \dots, 9$  for Monday morning, Monday afternoon, Tuesday morning,..., to Friday afternoon
- $wx$  -- the topic and subtopic of the contribution
- $yz$  -- the poster board number:  $yz = 01, 02, \dots, 99$

Note that the authors of oral contributed papers are given the possibility to post their contributions. Therefore, the data in the code refer to the corresponding poster presentation.
