

F GENERAL PLASMA THEORY

F1	IV-1
Extraction of energy from intense electron beam in hot plasmas by electron cyclotron waves	
<i>Naroli, C., Petrillo, V., Lampis, G., Basilico, F.</i>	
F2	IV-5
Modelling of inductively coupled discharges excited by internal coils	
<i>Lister, G.G., Cox, M.</i>	
F3	IV-9
Collective Thomson scattering in a relativistic magnetized plasma	
<i>Bjndsløv, H.</i>	
F4	IV-13
Electric field effects on the resistive pressure-gradient-driven turbulence	
<i>García, L., Carreras, B.A., Lynch, V.E.</i>	
F5	IV-17
The mechanism of self-sustainment in collisional drift-wave turbulence	
<i>Scott, B.D.</i>	
F6 (Oral)	IV-21
Thresholds of ion turbulence in tokamaks	
<i>Garbet, X., Laurent, L., Mourgues-Millot, F., Roubin, J.P., Samain, A., et al.</i>	
F7	IV-25
Radiative instability in a diverted plasma	
<i>Capes, H., Ghendrih, Ph., Samain, A.</i>	
F8	IV-29
Effect of paramagnetism on the global stability of screw pinches	
<i>Wahlberg, C.</i>	
F9	IV-33
Possible NBI-driven instability of global high-frequency Alfvén and fast magnetosonic Eigenmodes in ITER	
<i>Yegorenkov, V.D., Polevoy, A.R., Stepanov, K.N., Shaparov, S.E.</i>	
F10	IV-37
Magnetic-drift resistive ballooning mode in tokamaks	
<i>Chudin, N.V., Yurchenko, E.I.</i>	
F11	IV-41
Effect of asymmetric toroidal rotation on ballooning modes in the outer plasma	
<i>Sudip Sen, Janaki, M.S., Dasgupta, B.</i>	
F12	IV-45
Temperature anisotropy effect on the toroidal ion temperature gradient mode	
<i>Kim, J.Y., Horton, W., Choi, Duk-In, Migliuolo, S., Coppi, B.</i>	

F13	IV-49
Effect of LHCD on tearing mode instability <i>Sheng, Z.M., Xiang, N., Yu, G.Y.</i>	
F14	IV-53
Magnetic reconnection in collisionless plasmas <i>Coppi, B., Detragiache, P.</i>	
F15	IV-57
Mathematical models displaying the gross features of sawtooth oscillations in tokamaks <i>Haas, F.A., Thyagaraja, A.</i>	
F16	IV-61
Sawteeth stabilization by energetic trapped ions <i>Samain, A., Ederly, D., Garbet, X., Roubin, J.-P.</i>	
F17	IV-65
The effect of the ion bounce resonance on ideal and resistive MHD instabilities <i>Romanelli, F., Fogaccia, G., Graziadei, S.</i>	
F18	IV-69
Theoretical calculations and experimental comparisons for high-n toroidal instabilities and quasilinear fluxes <i>Rewoldt, W., Tang, W.M.</i>	
F19	IV-73
Effects of current profiles on MHD stability <i>Lao, L.L., Taylor, T.S., Chu, M.S., Turnbull, A.D., Strait, E.J., Ferron, J.R.</i>	
F20	IV-77
Interpretation of resonant magnetic perturbation experiments <i>Hender, T.C., Fitzpatrick, R., Morris, A.W., Haynes, P.S., Jenkins, I. et al.</i>	
F21	IV-81
Marfe stability <i>Hender, T.C., Wesson, J.A.</i>	
F22	IV-85
Free boundary toroidal stability of ideal and resistive internal kinks <i>Vlad, G., Lutjens, H., Bondeson, A.</i>	
F23	IV-89
Computing the damping and destabilisation of global Alfvén waves in tokamaks <i>Kerner, W., Poedts, S., Goedbloed, J.P., Huysmanns, G.T.A., et al.</i>	
F24	IV-93
Dispersion relations for global Alfvén modes with $m \gg 1$ <i>Cheremnykh, O.K., Revenchuk, S.M.</i>	

F25	IV-97
Stabilization effects on toroidicity-induced shear Alfvén waves in tokamaks <i>Berk, H.L., Guo, Z., Lindberg, D.M., Van Dam, J.W., Rosenbluth, M.N.</i>	
F26	IV-101
Stochastic nature of ICRF wave-particle interaction <i>Helander, P., Lisak, M., Anderson, D.</i>	
F27	IV-105
The influence of electrons heating on the magnetoplasma surface waves propagation at the plasma-metal structure <i>Azarenkov, N.A., Ostrikov, K.N.</i>	
F28	IV-109
On existence of solitary drift waves in the presence of inhomogeneous electric field <i>Smirnov, A.P., Sheina, E.A.</i>	
F29	IV-113
Wave propagation in an inhomogeneous relativistic magnetoplasma <i>Kerkhof, M.J., Kamp, L.P.J., Sluijter, F.W., Weenink, M.P.H.</i>	
F30	IV-117
Influence of plasma density inhomogeneities on the Eigenfrequency of global three-dimensional MHD modes in toroidal plasmas <i>Cap, F.</i>	
F31	IV-121
Anomalous dispersion of electron-cyclotron-waves on non-Maxwellian, relativistic plasmas <i>Moser, F., Rüchle, E.</i>	
F32	IV-125
A multiple timescale expansion and anomalous plasma transport <i>Edenstrasser, J.W.</i>	
F33	IV-129
Electron heat conduction and suprathermal particles <i>Bakunin, O.G., Krasheninnikov, S.I.</i>	
F34	IV-133
Fast poloidal rotation and improved confinement <i>Rozhansky, V., Samain, A., Tendler, M.</i>	
F35	IV-137
Net transport equations for a tokamak plasma <i>Callen, J.D., Hollenberg, J.B.</i>	
F36	IV-141
Fluid-kinetic model of tokamak transport <i>Feneberg, W., Kerner, W.</i>	

F37	IV-145
3D modelling of radial diffusion of high energy ions in tokamaks <i>Zaitsev, F.S., Smirnov, A.P., O'Brien, M.R., Cox, M.</i>	
F38	IV-149
Neoclassical current and plasma rotation in a helical systems <i>Nakajima, N., Okamoto, M.</i>	
F39	IV-153
Numerical solution of the drift-kinetic Vlasov equation <i>Ghizzo, A., Shoucri, M., Bertrand, P., Feix, M., Fijalkow, E.</i>	
F40	IV-157
The integrals of drift particles motion with finite Larmor radius <i>Ilgisonis, V.I.</i>	
F41	IV-161
Drift effects in the theory of magnetic islands <i>Smolyakov, A.I.</i>	
F42	IV-165
Influence of magnetic islands on magnetic field line diffusion <i>Martins, A.M., Mendonca, J.T.</i>	
F43	IV-169
Computation of plasma equilibria with semifree and free boundary <i>Nicolai, A.</i>	
F44	IV-173
Study of density and temperature profile across the magnetic island <i>Qingquan Yu, Yuping Huo</i>	
F45	IV-177
Two-fluid theory of presheath and sheath including magnetic fields <i>Valentini, H.-B.</i>	
F46	IV-181
The Grad-Shafranov shift calculated on the basis of magnetic compressive and tensile stresses <i>Jensen, V.O.</i>	
F47	IV-185
Profile consistency as a result of coupling between the radial profile functions of pressure and current density <i>Schüller, F.C., Schram, D.C., Konings, J., van Lammeren, A.C.A.P. et al.</i>	
F48	IV-189
Impurity control by the radial electric field in a stochastic layer <i>Nguyen, F., Samain, A., Ghendrih, Ph.</i>	

F49	IV-193
Nonlocal dielectric response of a toroidal plasma <i>Lamalle, P.U.</i>	
F50	IV-197
State diagrams of tokamaks and scaling laws <i>Minardi, E.</i>	
F51	IV-201
Neoclassical poloidal flow bifurcation in the H mode transition <i>Lazzaro, E., Lucca, F., Nardone, C., Tanga, A.</i>	
F52	IV-205
On the existence and uniqueness of dissipative plasma equilibria in a toroidal domain <i>Spada, M., Wobig, H.</i>	
F53	IV-209
L-H transitions via the Matsuda anomaly <i>Şuri, S.</i>	
F54 (Oral)	IV-213
The role of Pfirsch-Schlüter currents in plasma equilibrium, stability and transport <i>Wobig, H.</i>	
F55	IV-373
Fusion alpha particle transport studies using energy dependent diffusion coefficients <i>Kamelander, G.</i>	

G DIAGNOSTICS

G1	IV-217
First results of ECRH transmitted power measurements on RTP <i>Smits, F.M.A., Bank, S.L., Bongers, W.A., Oomens, A.A.M., Polman, R.W., RTP-Team</i>	
G2	IV-221
Measurements of plasma potential in T-10 <i>Melnikov, A.V., Tarasyan, K.N., Vershkov, V.A., ... Krupnik, L.I., et al.</i>	
G3	IV-225
Twin E-mode reflectometry for magnetic field measurements in Tokamaks <i>Lazzaro, E., Ramponi, G.</i>	
G4	IV-229
Magnetic field measurements at JET based on the Faraday and motional Stark effects <i>Challis, C., von Hellermann, M., Keegan, B., König, R., ... Wolf, R., et al.</i>	
G5	IV-233
The correlation of magnetic flux surfaces with soft X-ray iso-emissivity surfaces in COMPASS-C <i>R.D.Durst, Haynes, P.</i>	
G6	IV-237
Impurity atoms diagnostic by observation of near-resonant Rayleigh scattering <i>Berlizov, A.B., Moskalenko, I.V., Shcheglov, D.A.</i>	
G7	IV-241
Investigations of light impurities transport in tokamak using small-view optical tomography <i>Ruteev, B.V., Ovsishcher, M.V.</i>	
G8	IV-245
Measurement of gas injection efficiency for helium, neon and argon impurities in TEXTOR <i>McCracken, G.M., Samm, U., Bertschinger, G., Philipps, V., Pitts, R.A., et al.</i>	
G9	IV-249
Neutral density in FT ohmic plasma <i>Bracco, G., Moleti, A., Zanza, V.</i>	
G10	IV-253
First results from the JET time of flight neutral particle analyser <i>Corti, S., Bracco, G., Moleti, A., Zanza, V.</i>	
G11	IV-257
Comparison between Rutherford scattering and neutral particle analysis in ohmic discharges in TEXTOR <i>van Blokland, A.A.E., Bertschinger, G., Barbian, E.P., Donn, A.J.H., et al.</i>	

G12	IV-261
A new diagnostic for the tritium phase of JET covering the visible and UV wavelength range <i>Morsi, H.W., Hatzky, R., von Hellermann, M., Mandl, W., et al.</i>	
G13	IV-265
Alpha-particle diagnostics for the D-T phase <i>Conroy, S.W., Bergsaker, H., Coad, J.P., Jarvis, O.N., Marcus, F.B., et al.</i>	
G14	IV-269
Neutron production during deuterium injection into ASDEX <i>Bomba, B., ASDEX-Team, NI-Team, Feng, Y., Hübner, K., Wolle, B.</i>	
G15	IV-273
Observation of velocity dependence and line-of-sight effects in ion temperature and toroidal rotation velocity measurements at JET <i>Danielsson, M., Källne, E., Zastrow, K.-D., von Hellermann, M., Mandl, W., et al.</i>	
G16	IV-277
Ti(τ) profiles from the JET neutron profile monitor for ohmic discharges <i>Esposito, B., Marcus, F.B., Adams, J.M., Conroy, S., Jarvis, O.N., et al.</i>	
G17	IV-281
Ion temperature and fuel dilution measurements using neutron spectroscopy <i>Loughlin, M.J., Adams, J.M., Conroy, S., Elevant, T., Hawkes, N., et al.</i>	
G18	IV-285
On the opportunity to measure the plasma ion temperature by a photoelectron method <i>Gott, Yu.V., Shurygin, V.A.</i>	
G19	IV-289
Measurement of ion temperature profiles in the TCA tokamak by collective Thomson scattering <i>Nieswand, C., Behn, R., Siegrist, M.R., Dutch, M., et al.</i>	
G20	IV-293
Potential of millimeter-wavelength collective scattering in high field tokamaks <i>Tartari, U., Lontano, M.</i>	
G21	IV-297
Ion temperature profiles deduced from Doppler broadening of X-ray lines in ASDEX <i>Chu, C.C., Nolte, R., Fußmann, G., Fahrbach, H.U., et al., ASDEX-Teams</i>	
G22	IV-301
Study of plasma turbulence in the TJ-I Tokamak by a spectroscopic technique <i>Zurro, B., and TJ-I Team</i>	
G23	IV-305
Simultaneous measurement of 3 fluctuating plasma parameters <i>Carlson, A., Giannone, L., ASDEX Team</i>	

-
- G24 IV-309
Pulsed radar; a promise for future density profile measurements on thermonuclear plasmas
Heijnen, S.H., Hugenholtz, C.A.J., Pavlo, P.
-
- G25 IV-313
Correlation reflectometry techniques for TJ-I and ATF
S nchez, J., Branias, B., Estrada, T., De La Luna, E., Navarro, A.P., et al.
-
- G26 IV-317
Measurement of fast changes of the edge density profile in TEXTOR
GunkeL, H., Kuszynski, J.O., Pospieszczyk, A., Schweer, B.
-
- G27 IV-321
Reflectometric diagnostics of plasma density fluctuations in TUMAN-3 tokamak
Bulanin, V.V., Grinshtain, Y.M., Korneev, D.O., Its, E.R., et al.
-
- G28 IV-325
Plasma turbulence studying on the T-10 by microwave reflectometry
Zhuravlev, V.A., Dreval, V.V.
-
- G29 IV-329
A fife-camera X-ray tomography system for the RTP Tokamak
da Cruz, D.F., Donn,A.J.H.,
-
- G30 IV-333
Study of q-profile in LHCD regimes with microwave reflectometry
Silva, A., Manso, M.E., Söldner, F.X., Zohm, H., Serra, F.
-
- G31 IV-337
Density fluctuation profiles on TORE SUPRA
Laviron, C., Garbet, X., Saha, S.K., Devynck, P., Truc, A., et al.
-
- G32 IV-341
Electron temperature fluctuations in RTP
Verreck, M., van de Pol, M.J., Donne, A.J.H., Hugenholtz, C.A.J., et al.
-
- G33 IV-345
TORE-SUPRA X-ray pulse-height analyzer diagnostic
Peysson, Y., Bizarro, J.P., Hoang, G.T., Hubbard, A., et al.
-
- G34 IV-349
Acceleration of electrons during current increase in the "TUMAN-3" device
Afanesev, V.I., Its, E.R., Kiptiliy, V.G., ... Rozhdestvensky, V.V., et al.
-
- G35 IV-353
ECE measurements using Doppler-shifted observations
Rodriguez, L., Aug, N., Giruzzi, G., Javon, C., Laurent, L., Talvard, M.
-
- G36 IV-357
First results with the upgraded ECE heterodyne radiometer on JET
Porte, L., Bartlett, D.V., Campbell, D.J., Costley, A.E.
-

-
- G37 IV-361
Measurement of T_e -profiles in the boundary layer of TEXTOR by means of spectroscopical observation of a thermal helium beam
Schweer, B., Pospieszczyk, A., Mank, G., Samm, U., Brosda, B., Pohlmeier, B.
-
- G38 IV-365
Model calculations for a 20 keV neutral lithium diagnostic beam
Unterreiter, E., Aumayr, F., Schorn, R.P., Winter, H.
-
