

	page
CONTENTS	
List of participants.....	XI
C. B. WHARTON - Opening remarks.....	XV
LECTURES	
=====	
J. JACQUINOT and the JET Team - Heating, current drive and confinement regimes with the JET ICRH and LHCD systems.....	3
D. K. AKULINA - Application of the electron-cyclotron heating (ECR) in the stellarator-type systems.....	39
K. A. RAZUMOVA and T-10 Group - EC heating and current drive on T-10.....	59
E. V. SUVOROV - Microwave scattering diagnostics.....	79
G. VAN OOST - Plasma heating of fusion experiments.....	99
T. CONSOLI - Applications of the last decade RF sources development in frequency and power to plasma physics research.....	121
B. G. DANLY - Cyclotron autoresonance masers for high power electron cyclotron resonance plasma heating.....	143
V. Yu. BYCHENKOV, A. Yu. ROMANOV, V. P. SILIN, V. T. TIKHONCHUK, Yu A. ROMANOV, V. A. TEREKHIN and V. N. NOVIKOV - Microwave radiation from plasmas with anisotropic electron energy distribution.....	155
G. AGOSTI and G. BONIZZONI - High power microwaves: industrial applications and perspectives.....	175
G. A. ASCARYAN, G. M. BATANOV, N. K. BEREZHETSKAYA, A. A. DOROFEUK, V. A. IVANOV and I. A. KOSSYI - New methods for measuring intensity of super high power microwave radiation.....	201
G. A. ASKARYAN, G. M. BATANOV, I. A. KOSSYI and A. Y. KOSTINSKII - Possibility of destruction and restoration of the ozone layer by microwave discharges.....	207
C. B. WHARTON - HPM applications to radar and communications.....	227

G. A. MESYATS - Pulsed power electron accelerators for relativistic microwave electronics.....	245	T. J. H. PÄTTIKANGAS, S. J. KARTTUNEN and R. R. E. SALOMAA - Current drive with free electron lasers in high and in low temperature tokamaks.....	503
H. RIEGE - High-gradient acceleration of high-energy charged particles.....	265	V. ERCKMANN, U. GASPARINO, L. GIANNONE, H. J. HARTFUß, H. MAAßBERG, M. TUTTER, W7-AS Team, W. KASPAREK, G. A. MÜLLER, P. G. SCHÜLLER, G. DAMMERTZ, G. GANTENBEIN, T. GEIST, M. KUNTZE, H.-U. NICKEL, B. PIOSZYK and M. THUMM - ECRH experiments with 140 and 70GHz at the W7-AS stellarator.....	511
J. BENFORD - Trends and developments in the virtual cathode oscillator.....	287	W. KASPAREK, H. KUMRIĆ, G. A. MÜLLER, P. G. SCHÜLLER and V. ERCKMANN - Beam waveguide transmission line for the 140 GHz ECRH system at the stellarator W7-AS.....	519
J. BENFORD - Magnetrons and other crossed-field devices	299	K. FELCH, J. FEINSTEIN, H. HUEY, H. JORY, J. NEILSON, R. SCHUMACHER, and M. TSIRULNIKOV - Advances in the development of mm-wave gyrotrons for ECR heating applications.....	525
C. B. WHARTON - High power O-type microwave sources....	309	E. BORIE and B. JÖDICKE - Self consistent theory of mode competition for gyrotrons.....	531
C. B. WHARTON - High power O-type microwave sources - Part 2.....	329	J. W. EASTWOOD - Computer modelling of high power microwave sources.....	539
G. A. MESYATS - The problem of pulse shortening in relativistic microwave generators.....	345	N. J. BREALEY - Computer simulation of helix travelling wave tubes.....	549
P. S. STRELKOV - The relativistic plasma Cherenkov maser.....	365	A. G. A. VERHOEVEN, P. W. VAN AMERSFOORT, R. W. B. BEST, A. M. VAN INGEN, A. B. STERK, W. H. URBANUS, A. VERHEUL, M. J. VAN DER WIEL, W. KASPAREK, J. PRETTEREBNER, D. WAGNER and M. THUMM.....	557
L. E. THODE and C. M. SNELL - Virtual cathode microwave devices - Basics.....	389	Yu. N. LAZAREV and P. V. PETROV - Electromagnetic field parameters for some subset of faster-than-light sources.....	565
L. E. THODE and C. M. SNELL - High-voltage virtual-cathode microwave simulations.....	409	G. CICONI and E. PIANO - A magnetron driven coupled resonator surfatron at 2450 MHz.....	575
L. E. THODE, B. E. CARLSTEN, K. C. D. CHAN, J. C. GOLDSTEIN, M. E. JONES, B. D. McVEY, R. L. TOKAR and L. M. YOUNG - Integrated numerical experiments compared with free-electron laser experiments.....	431	I. BOSCOLO, F. GIULIANI, M. VALENTINI, V. STAGNO and V. VARIANTE - A powerful FELTRON driven by a Cockroft-Walton for toroidal plasma-heating.....	585
M. KRISTIANSEN and S. CALICO - Pulsed power sources and circuits for high power microwave devices.....	445	K. SAKAMOTO, Y. KISHIMOTO, A. WATANABE, T. KOBAYASHI, S. MUSYOKI, H. ODA, S. TOKUDA, Y. NAKAMURA, S. KAWASAKI, H. ISHIZUKA, M. SATO, T. NAGASHIMA and M. SHIHO - mm wave FEL experiment with focusing wiggler.....	597
M. KRISTIANSEN and S. CALICO - High current electron emitters.....	469		
CONTRIBUTIONS			
=====			
K. HANADA, T. MAEKAWA, M. IIDA, Y. KISHIGAMI, T. KISHINO, T. MAEHARA, K. MAKINO, T. MINAMI, M. NAKAMURA, Y. TERUMICHI and S. TANAKA - Sawtooth suppression by localized electron cyclotron heating on the WT-3 tokamak	487		
J. STAKENBORG, W. A. BONGERS, O. G. KRUIJT, A. G. A. VERHOEVEN and the RTP Team - Measurements on elliptical waves for ECR heating on RTP.....	495		

K. SAKAMOTO, K. OASA, W. KASPAREK, J. PRETTEREBNER, H. KUMRIC, D. WAGNER, K. ODAJIMA, T. NAGASHIMA and H. MAEDA - Quasi-optical antenna for a whispering gallery mode using a double reflector.....	605
E. BORIE, G. DAMMERTZ, O. DUMBRAJS, G. GANTENBEIN, T. GEIST, M. KUNTZE, A. MÖBIUS, H.-U. NICKEL, B. PIOSZYK and M. THUMM.....	613
C. B. WHARTON - Closing remarks.....	621
