

CONTENTS

SECTION I

COLLISIONS ELASTIQUES ET INELASTIQUES ENTRE PARTICULES. ELASTIC AND INELASTIC COLLISIONS BETWEEN PARTICLES.

I A - <u>Chocs électrons-molécules.</u>	<u>Electron-molecule collisions.</u>	Pages
Collisional processes in helium plasmas at cryogenic temperatures . - P.D.Goldan, L.Goldstein.....		1
Measurement of the cross section for elastic scattering of slow electrons by hydrogen atoms . - W.L. Wiese		5
Ionization of excited states of hydrogen by electron impact. - A.D. Stauffer, M.R.C. McDowell.....		9
Diabatic effect in molecular ionization by electron impact. - R. Stephen Berry.....		13
Electron impact ionization of highly excited atomic hydrogen. - K.Omidvar, E.Sullivan.....		15
Electron collisions with atomic and molecular oxygen. - W.L.Fite, R.T.Brackmann		21
Ionization of atoms and diatomic molecules by electron impact . - D.Rapp, P.Englander-Golden		27
Ionization cross-section near the threshold for the rare-gases . - R.K.Asundi		29
Structure beyond the ionization limit in inelastic electron scattering in the rare gases . - C.E.Kuyatt, J.Arol Simpson		33
Formation d'ions multiement chargés par effet Auger dans quelques vapeurs monoatomiques. - F.Fiquet-Fayard, J.P.Ziesel		37
Recent studies of vibrational excitation of N ₂ by electron impact . - G.J.Schulz		41
Electrons and active nitrogen . - B.Brandt.....		43
Etude spectroscopique de collisions inélastiques entre électrons et quelques molécules . - M.Horani, S. Leach, J.Rostas.....		45
Simultaneous measurement of ionization efficiency curves for positive and negative ions . - Håkan Sjögren.....		49
Determining the average cross-section of collisions of electrons with neutral atoms of two-compo- nent slightly ionized gaseous mixture . - E.P.Zimin, V.A.Popov		51
Elastic and inelastic cross-section from electron transport coefficients . - A.V.Phelps.....		53
I B - <u>Echange de charge.</u>	<u>Charge exchange.</u>	
Charge exchange and dissociation of H ⁺ , H ₂ ⁺ and H ₃ ⁺ ions incident on H ₂ gas. - G.W. McClure		55

Formation of neutral atomic hydrogen beams . - C.F. Barnett, Mozelle Rankin, J.A. Ray	63
Absolute measurement of the cross section for production of hydrogen atoms in the 2S state. - F. Cristofori, G. E. Frigerio, N. Molho, P.G. Sona	69
Electron capture into an excited state by H^+ and He^+ incident on H_2 and noble gases (5-35 keV). - F.J. de Heer, J. van Eck, J. Kistemaker	73
Energy transfer in fast molecular ion collisions . - Hirsch I. Mandelberg	77
Massive conversion of 750 keV ions to neutrals of quantum levels > 7 . - J. S. Luce, J. L. Hilton	83
Charge transfer and ionization by positive ions in the energy range 60 -450 keV. - H. B. Gilbody, J.B. Hasted, A.R. Lee, J. V. Ireland, E. W. Thomas, A.S. Whiteman	91
Sur le transfert résonant de charge électrique dans les gaz monoatomiques. - E. Badareu, D. Ciobotaru	97
Cascade processes in energetic neutral hydrogen beams . - John R. Hiskes	99
The ionization of excited hydrogen atoms by strong electric fields . - A. C. Rivière, D. R. Sweetman ...	105
Characteristic energy losses in single collisions of atomic particles . - V. V. Afrosimov, Yu. S. Gordeev, M. N. Panov, N. V. Fedorenko	111
Basic relations for Coulomb interaction and its application to atomic collisions . - M. Gryzinski	117
Positive ion stripping studies in the energy range 100 -450 keV. - A. R. Lee, H. B. Gilbody.	123
Etude des pertes d'énergie discrètes subies par un faisceau de protons rapides traversant une cible gazeuse. - M. Barat, J. Baudon	127
On the degree of polarization of Lyman - α radiation emitted by hydrogen atoms excited by impact . - J. W. R. Fennema	131
Echanges de charges entre ions et atomes des alcalins et des alcalino-terreux. - D. V. Tchkoqaceli, A. I. Gouldamachvili, U. D. Nikoleyevili	475
I C - <u>Chocs photoniques.</u>	<u>Photon collisions.</u>
Photodetachment from C^- . - V. P. Myerscough, M. R. C. McDowell	135
Autoionization in Helium using a synchrotron light source. - R. P. Madden, K. Colding	139
Helium and Argon emission continua and their use in absorption cross-section measurements in the vacuum ultraviolet. - R. E. Huffman, Y. Tanaka, J. C. Larrabee	145
Improved photoionization and absorption spectra of several gases in the 600 to 1000 Å region. - G. R. Cook, P. H. Metzger	149

Helium metastable - admixed gas reactions in a flow-system . - C.B. Collins, W.W. Robertson	153
Zur Ionenbildung in Krypton, Argon und Argon-Stickstoffgemischen . - F.J. Comes	159
Motion of fission fragments from high altitude nuclear explosions. - S. Ormonde, G.E. Crane	163
Die Lebensdauer angeregter Reaktanten in Neutralreaktionen $X^* + Y \rightarrow XY^+ + e$. - Von W.Kaul.....	169

SECTION II

THEORIE CINETIQUE DES GAZ IONISES.
KINETIC THEORY OF IONIZED GASES.

Quantum and exchange corrections to plasma kinetic theory. - P.H. Levine	173
On the superkinetic equation for spatially-homogeneous plasmas. - J.E. McCune	177
Kinetic equations and multi-time-scale formalism in weak-coupling theory. - D. Frank, D. Pfirsch, S. Priesz	183
Quantum mechanical treatment of correlations in a plasma. - M.R. Feix	185
Correlation function in a plasma outside equilibrium. - M. Feix, P. Schram	189
Kinetic equation for a plasma in a magnetic field. - P. Schram	193
Plasma oscillations with collective correlations. - C.M. Tchen	195
Theory of plasma oscillations with pair correlations . - Ching-Sheng Wu, E.H. Klevans	201
Constante diélectrique longitudinale d'un plasma complètement ionisé, contenant l'effet des corrélations. J. Coste	209
Instabilités dues au rayonnement. - P. Nelson	213
Continuum description of a high temperature plasma. - L.S. Klein, J.L. Jackson	215
The microfield of a plasma and its influence on the ionization. - A. Schlüter	217
Zum Divergenzproblem der Zustandssumme und zur Ionisierungsspannungserniedrigung im Plasma. - R. W. Larenz	219
The partition function of a fully ionized gas. - K.U. von Hagenow, H. Koppe	221
A note on the maximum bound principal quantum number. - C.A. Rouse	225

Lowering of the ionization energy for a plasma with different temperatures of the particle components. G. Ecker, W. Kröll	227
Calcul de l'équation d'état de l'hydrogène et méthodes de vérification. - J.P. Plantevin, P. Veyrié, A. Gervat.....	229
Departures from local thermodynamic equilibrium in a fully ionized gas. - L. Oster.....	235
Echanges macroscopiques de quantité de mouvement et d'énergie entre électrons et ions, par collisions coulombiennes, dans les écoulements de plasmas. - J.M. Dolique	237
Etude analytique du ralentissement de particules chargées dans un plasma . - D. Richard	241
Calculation of the properties of a non fully ionised plasma. - C.B. Wheeler	247
Formulation of the Fokker-Planck equation including excitation effects. - W.A. Janos	253
The flame plasma. - A. von Engel, J.R. Cozens	257
On the heating of electrons in crossed electric and magnetic fields. - W.B. Kunkel, G.A. Pearson....	259
The influence of metastable atoms on the population of excited states in a thermal plasma. - L.E. Brewer, W.K. McGregor	263
Re-examination of the criteria for thermal equilibrium in electrical discharges. - W.K. McGregor, L.E. Brewer.....	267
Relaxation of electron and ion temperatures in a strong magnetic field. - D. Voslamber	273
Absorption coefficient and microwave conductivity of isotropic plasmas. - P. Mallozzi, H. Margenau..	277
The nonlinear Vlasov equation, its moment description, and their corresponding linear forms. - N.J. Zabusky.....	281
An interaction model for electromagnetic fields and low energy, low density plasma. - O.P. Breaux ..	287

SECTION III

PROPRIETES DES GAZ IONISES. PROPERTIES OF IONIZED GASES.

III A - Mobilité des particules.

Particle mobility.

Reaction rates for the formation of He_2^+ and Ne_2^+ . - E.C. Beaty, P. Patterson	289
Mobilities of mass-identified ions in nitrogen. - D.W. Martin, W.S. Barnes, G.E. Keller, D.S. Harmer, E.W. McDaniel	295
Drift velocities of atomic and molecular ions in nitrogen. - K.B. McAfee, D. Edelson	299

Identifizierung von Ionen in verdünnten Gasen mit Hilfe eines neuartigen Hochfrequenz-Massensiebes. - H. Eiber	305
Drift velocity of ions in nitrogen. - R.N. Varney, J.A. Dahlquist.....	309
The drift velocity of ions in mercury vapor. - F.R. Kovar, R.N. Varney	311
The mobility of positive ions in Geiger discharges. - W. Dansercoer, R. Bouciqué, P. Mortier	313
A new method of measuring electron drift velocities. - J.M. Breare, A. von Engel.....	317
Une nouvelle théorie de la mobilité des ions et des électrons. - J. Salmon	321
Drift velocity of electrons in Helium at high E/P . - R.A. Stern	331
On the movement of positive ions in inhomogeneous electric field. - G. Ciobanu, Iovitzu Popescu	335

III B - Coefficients de transport.

Transport coefficients.

The ratio of drift speed to diffusion coefficient for quasi-thermal electrons in nitrogen and hydrogen. - R. W. Crompton, M.T. Elford	337
On resonant charge transfer in ionized dense gases. - L. Brandus, Iovitzu Popescu.....	343
The conduction of electricity between electrodes in shock-heated Argon. - D.G. Fearn, J. Cooper, H.J. Pain.....	347
Transport properties of a fully-ionized, low-temperature plasma. - N. Rynn	353
Transport properties of a partially ionized plasma in a magnetic field. - W. Feneberg	357
Résistivité anormale d'un plasma. - J.C. Boulassier, M. Clément, J. Cuvellier, M. Dagai, C. Manus	359
Thermal conductivity tensors for weakly ionized air. - Arne A. Wyller.....	361
Some properties of slightly ionized gaseous mixtures. - E.P. Zimin, V.A. Popov.....	369

III C - Diffusion.

Diffusion.

Slow expansion of a plasma column without the application of a magnetic field. - P. Avivi, N. Ben-Yosef, F. Deutsch, A.S. Kaufman	373
Non-linear ambipolar diffusion across a magnetic field. - K.B. Persson, E.R. Mosburg, Jr.....	375
Brownian motion and "resonance diffusion" in a magnetic field. - B. Kursunoglu	379
Diffusion in a highly ionized plasma. - J.C. Terlouw, L.H. Th. Rietjens.....	383
Diffusion from a line source in a magnetic field. - K.H. Berkner, R.V. Pyle, H.F. Rugge, J.W. Stearns, J. Winocur	389

Experimental investigation of charged particle diffusion in a magnetic field. - A.I. Anissimov, V.N. Boodnikov, V.E. Golant, V.N. Sheelin, N.I. Vinogradov, A.P. Zhylinsky	395
Particle losses of a Cesium plasma in a Stellarator. - N. D'Angelo, D. Dimock, J. Fujita, G. Grieger, M. Hashmi, W. Stodiek	399
Thermal instability of the plasma column. - G. Ecker, W. Kröll, O. Zöller	405
Resistive instability in a low-pressure plasma. - F.C. Hoh	409
Measurements of the internal magnetic field associated with the supercritical operation of the positive column. - R.R. Johnson	413
An investigation of plasma decay in a toroidal magnetic field. - V.E. Golant, A.P. Zhylinsky	419
III D - <u>Recombinaison en volume.</u>	<u>Volume recombination.</u>
Afterglow studies of transient discharges. - J.D. Craggs	423
Electron energy decay in the Helium afterglow. - J.C. Ingraham, S.C. Brown	429
Relaxation rate of electrons to equilibrium. - H. Fields, G. Bekefi	433
Analysis of an afterglow plasma in Argon. - T.L. Dutt, M.C. Cavenor, R.G.A. Knott	439
Upper limit to three body electron-ion recombination rate. - R.C. Stabler	449
Afterglow-tails of high density nanosecond arc channels. - H. Fischer, W.B. Rueppel	451
Décharges luminescentes sous pression et coefficient de recombinaison. - Y. Leycuras	457
III E - <u>Gaines.</u>	<u>Sheaths.</u>
The double sheath at a discharge constriction. - F.W. Crawford, I.L. Freeston	461
Space charge aspects of R.F. plasmoids. - A. Boschi, F. Magistrelli	465
Motion of ions in the cathode sheath of an arc. - T.H. Lee - A.N. Greenwood	469
