<u>Non-linear interaction and turbulence</u>		
1025	Investigation of modulation instability according to the non-thermal radiation spectrum of a collisionless plasma M.P. Brizhinev, B.G. Eremin, A.V. Kostrov, Ya.Z. Slutsker, A.D. Stepanushkin	815
1026	Parametric decay of TG modes in a fluctuating plasma P. Haymann, H. Prinzler	817
1027	Estimation of the azimuthal angle of TD mode induced scattering from ion sound wave parametrically excited in TD resonance S. Ikezawa, S. Sunamori	819
1028	Absolute wave potential determination E. Märk	821
1029	Low-hybrid solitons A.A. Veryaev, V.N. Tsytovich	823
1030	About the mechanism of electron heating in a magnetized plasma under the conditions of plasma wave modulation instability S.N. Gromov, L.L. Pasechnik, V.F. Semenyuk	825

1031	Influence of the modulation instability on a beam relaxation in a plasma B.A. Alterkop, A.S. Volokitin, V.P. Tarakanov	827
1032	On the solitons in a parametrically unstable plasma E.A. Kuznetsov	829
1033	The instability of high amplitude Langmuir waves N.S. Buchelnikova, E.P. Matochkin	831
1034	Non-linear analysis of ponderomotive force induced self-modulation of plasma waves S. Wolschke	833
1035	Self-modulation of a strong standing wave in a plasma due to the ponderomotive force K. Baumgärtel	835
1036	Ion-acoustic densiton emission during Langmuir soliton formation H. Gajewski, G. Wallis, K. Zacharias	837
1037	Non-linear penetration of strong electromagnetic waves in inhomogeneous overdense plasmas K. Sauer	839
1038	Pulsed plasma created by a surface wave E. Bloyet, P. Leprince, J. Marec, M. Moisan	841
1039	Measurements of two-dimensional spectra of ion acoustic plasma turbulence D.B. Ilić, K.J. Harker, F.W. Crawford	843
1040	Parametric instability of plasma and Langmuir quasi-collapse in two-dimensional geometry A.N. Polyudov, Yu.S. Sigov	845
1041	Modulational disturbances spectra of a developed strong Langmuir turbulence K. Komilov, F.Kh. Khakimov, V.N. Tsytovich	847
1042	Non-linear motion of a strongly turbulent plasma F.Kh. Khakimov, V.N. Tsytovich	849
1043	Langmuir turbulence driven by a constant pump B.A. Alterkop, A.S. Volokitin, V.P. Tarakanov	851
1044	Parametric phonon turbulence in underdense plasmas N.E. Andreev, D. Nickles, D. Sünder	853
1045	Turbulent heating of a dense plasma L.E. Aranchuk, Yu.G. Kalinin, A.S. Kingsep, Yu.I. Shestakov, V.A. Skoryupin	855
1046	Drift waves in a turbulent plasma with magnetic shear I. Mendonça, J.T. Mendonça	857
1047	Anomalous damping of oscillations of magnetic filament M.P. Ryutova	859

1048	Time dependence of plasma parameters of a hydrogenic Z-pinch discharge A.I. Zakharov, V.D. Pismenny,	861
1049	A non-linear stage of three wave interaction in a finite plasma V.V. Kurin, G.V. Permitin, V.I. Petrukhina	863
1050	Thermal parametric instability in an inhomogeneous plasma S.M. Grach, A.N. Karashtin, N.A. Mityakov, V.O. Rapoport, V.Yu. Trakhtengerts	865
1051	Thermal modulational instability and stratification of plasma A.G. Litvak, V.A. Mironov	867
1052	Electromagnetic wave beam self-focusing in a magneto-active plasma A.G. Litvak, N.A. Shakhova	869
1053	The particle trapping influence on stimulated scattering of electromagnetic waves in a plasma A.M. Feigin	871
1054	On plasma ionization by high speed electrons formed as a result of parametric instabilities A.G. Litvak, A.M. Feigin	873
1055	Suppression of the plasma oscillation in a beam-plasma interaction of feedback type H. Amemiya, Y. Nakamura	875
1056	On the equilibrium of electron bunches exciting non-linear plasma waves A.M. Gladkii, V.P. Kovalenko	877
1057	The role of HF modulation for the formation of a beam plasma discharge without magnetic field A.I. Rogashkova, S.A. Rogashkov	879
11	INTERACTION OF INTENSE LASER AND CHARGED PARTICLE BEAMS WITH PLASMAS	
1101	Flora. Possibilities of creation of a pulsed neutron source on the basis of the combined laser-REB plasma heating V.A. Veretennikov, V.A. Gribkov, A.V. Dubrovsky, A.I. Isakov, N.V. Kalachev, T.A. Kozlova, O.N. Krokhin, V.Ya. Nikulin, O.G. Semenov, G.V. Sklizkov	881
1102	Fast ions in a laser plasma O.N. Krokhin, A.S. Shikanov, G.V. Sklizkov, Yu.A. Zakharenkov	883
1103	Experiment on development of high pressure laser plasma and absorption of laser J. Yamada, T. Okuda, T. Sakakibara	885

1104	Absorption of powerful laser-light and harmonic generation A.M. Rubenchik	887
1105	On the use of Langmuir probes in a laser produced plasma C.T. Chang	889
1106	Multi-component plasma expansion in vacuum V.I. Derzjiev, A.A. Filyukov, V.Ju. Zakharov	891
1107	Numerical simulation of the laser solenoid experiment A.H. Makomaski, Z.A. Pietrzyk	893
1108	Interferometric investigation of shock waves induced by a laser produced plasma D. Apostol, I. Apostol, E. Cojocaru, V. Draganescu, I.N. Mihailescu, I. Morjan, V.I. Konov	895
1109	The outflow of a laser-produced plasma from thin capillaries L.I. Kiselevskii, G.S. Antonov	897
1110	Magnetic field effect upon the maintenance of the continuous optical discharge in gases A.A. Kurbatov, T.Ya. Popova, N.G. Preobrazhensky	899
1111	Thermogasodynamical instability of a continuous optical discharge A. Baranowski, Z. Mucha, Z. Peradzyński	901
1112	Investigation of laser radiation absorption in the stage of light spark deionization I.A. Goodilin, V.P. Evseyenko, V.E. Mitsuk, V.A. Chernikov	903
1113	The gas breakdown by laser radiation at high pressures V.P. Evseyenko, V.E. Mitsuk, V.A. Chernikov	905
1114	The transport of a relativistic electron beam in a gas and the ionization front propagation B.N. Brejzman, V.S. Burmasov, V.A. Kornilov, E.P. Kruglyakov, V.N. Lukyanov	907
1115	Interaction of a relativistic e-beam with the plasma in a strong magnetic field V.S. Burmasov, L.N. Vyacheslavov, V.A. Kornilov, E.P. Kruglyakov, A.A. Podyminogin, G.I. Shulzhenko	909
1116	Transport experiments of relativistic electron beams in low pressure gases A. Luches, V. Nassisi	911
1117	Acceleration of ions by intense relativistic electron beams - further studies in the one dimensional electrostatic model W. Hintze, K.F. Alexander	913

1118	Interaction of the relativistic electron beam with the electrostatic wave in the bounded plasma B.A. Alterkop, A.S. Volokitin, S.E. Rosinskij, A.A. Rukhadze, V.P. Tarakanov	915
1119	Bremsstrahlung of relativistic electrons in plasmas A.V. Akopian, V.N. Tsytovich	917
1120	Dynamics of the ion beam in a plasma system with the current M.D. Gabovich, A.A. Goncharov, I.M. Protsenko, S.V. Kharitonov	919
