

CONTENTS of WORKSHOP

| | Page |
|----------------------------|------|
| List of Participants | XI |

WORKSHOP ABSTRACTS

| | |
|----------------------------|----|
| Mirrors | 3 |
| Reversed-Field Pinch | 15 |

CONTRIBUTED PAPERS

MIRRORS

| | | |
|-----------|---|----|
| D. Arnush | Symmetric Tandem Mirror Program at TRW | 29 |
|-----------|---|----|

A. Tsushima, H. Iguchi, K. Takasugi,
M. Hosokawa, T. Shoji, F. Tsuboi,
H. Tsuchidate, M. Tanaka,
M. Fujiwara and H. Ikegami
Presented by A. Tsushima

| | | |
|--|---|----|
| | Spectroscopic Studies on Plasma Modeling in Nagoya Bumpy Torus | 31 |
|--|---|----|

REVERSED-FIELD PINCH

| | | |
|------------|--|----|
| E. Minardi | The Thermodynamic Hierarchy of the Magnetic Equilibria: Force-Free Configurations <i>vs.</i> the Tokamak | 41 |
|------------|--|----|

| | | |
|---|--|-----|
| K. K. Jain and P. I. John <i>Presented by K. K. Jain</i> | Generation of a Reversed Magnetic Field Configuration by a Rotating Relativistic Electron Beam | 71 |
| M. Malacarne, I. H. Hutchinson and D. Brotherton-Ratcliffe <i>Presented by M. Malacarne</i> | Studies of Fluctuations in the Reversed-Field Pinch HBTX-1A | 77 |
| V. Antoni and S. Ortolani <i>Presented by V. Antoni</i> | Magnetic Field Fluctuation Studies on ETA BETA II | 97 |
| V. Antoni, S. Martini, S. Ortolani and R. Paccagnella <i>Presented by V. Antoni</i> | Properties of the Fluctuating and Mean Magnetic Fields as a Function of Theta in RFP | 107 |
| V. Antoni, A. Buffa, L. Giudicotti, S. Martini, S. Ortolani, M. E. Puiatti and P. Scarin <i>Presented by L. Giudicotti and M. E. Puiatti</i> | Temperature Measurements on Reversed-Field Pinch in the ETA BETA II Experiment | 135 |
| S. Ortolani and M. E. Puiatti <i>Presented by M. E. Puiatti</i> | One-Dimensional Transport Simulations on Reversed-Field Pinch Configurations | 161 |
| G. F. Nalesso | Studies of Tearing and G Modes in High Beta Plasmas Confined by a Resistive Rigid Wall | 191 |
| RF Phenomena in MIRRORS | | |
| D. Farina, M. Lontano and R. Pozzoli <i>Presented by M. Lontano</i> | Electron Cyclotron Absorption in a Mirror Confined Plasma | 207 |
| M. Bornatici and U. Ruffina <i>Presented by M. Bornatici</i> | Electron Cyclotron Absorption and Emission in a Finite-Density Anisotropic Plasma with a Loss-Cone Distribution | 215 |
| G. Lisitano | Antennamare. A Method of Radio-Frequency Conditioning of Fusion Plasma for Both Linear and Toroidal Magnetic Traps | 229 |

REACTOR STUDIES - Fuel Technology

J. T. Woo

Reactor Studies in Alternate Tandem
Mirror Configurations 243

D. Dudziak, G. Friedrich, W. Green,
P. Groner, M. Huggenberger,
J. F. Jaeger, P. Köhler, P. Marmy,
S. Pelloni, J. Stepanek, U. Stiefel,
P. Stiller and M. Victoria

Presented by J. F. Jaeger

A Hybrid Blanket for a Reversed-Field
Pinch Reactor. Phase One. Summary... 257

P. J. Dinner, S. B. Nickerson,
W. T. Shmayda and D. P. Dautovich
Presented by P. J. Dinner

Assessment of Compact Alternate Reactor
Concepts for Magnetic Confinement
Fusion 291

APPENDIX

Index of Authors 319

Subject Index..... 321
