

181. Theory of Magnetosonic Wave-Plateau Shocks Driven by Upper-Hybrid Waves.  
*Rao, N.N.* ... 721
182. Drift Vortices With Electron Trapping Effects.  
*Rath, S., Kaw, P.K.* ... 725
183. On the Role of Viscosity in Formation of Ion-Acoustic Hole Like Excitation in Plasma.  
*Roychowdhury, A., Pakira, G.* ... 729
184. Soliton in Presence of Electron Beam in an Electron Plasma Filled in a Cylindrical Waveguide.  
*Sayal, V.K., Sharma, S.R.* ... 733
185. Propagating Ion Langmuir Plasma Oscillations in a Cylindrical Waveguide : Linear and Nonlinear Analysis.  
*Sayal, V.K., Sharma, S.R.* ... 737
186. Benjamin-Bona-Mahoney Solitons in a Piezoelectric Semiconductor Plasma.  
*Shah, H.A., Ikram, N., Abdullah, T.* ... 741
187. Higher-Order Nonlinear Drift-Wave Structures.  
*Shivamoggi, B. K.* ... 745
188. The Effect of Plasma Density on the Reflection of an Ion-Acoustic Soliton in an Inhomogeneous Plasma Having Warm Ions.  
*Singh, S., Dahiya, R.P.* ... 749
189. Numerical Simulations of Relativistic Double Layers.  
*Sulkanen, M.E., Borovsky, J.E.* ... 753
190. Spatial Evolution of an Electron Hole into a Strong Double Layer and Related Phenomena in a High Voltage Straight Plasma Discharge.  
*Takeda, Y., Yamagiwa, K.* ... 757
191. Nonlinear Evolution and Formation of Localized Structures in an Electron-Beam Plasma.  
*Tanaka, M., Yajima, N.* ... 761
192. Higher Order Corrections to Ion-Acoustic Soliton in an Ion Beam Plasma System with Non-Isothermal Electrons.  
*Tiwari, R.S., Dwivedi, C.B., Sharma, S.R.* ... 765

193. Self Modulation of Ion Acoustic Waves in Multicomponent Plasma.  
*Tsukabayashi, I., Nakamura, Y.* ... 769
194. Ion-Acoustic Solitons in Magnetized Multispecies Plasmas with Equilibrium Drifts and Negative Ions.  
*Verheest, F., Das, K.P.* ... 773
195. Nonlocal Conservation Laws of the DNLS-Equation.  
*Wyller, J.* ... 777
196. Ion-Acoustic Soliton and Double Layer in a Weakly Relativistic Plasma with Two Maxwellian Electron Components.  
*Yadav L.L., Sharma, S.R.* ... 781

---

### Volume III

#### M. CHAOS.

197. Model Equations from a Chaotic Time Series.  
*Agarwal, A., Ahalpara, D., Kaw, P.K., Prabhakara, H., Sen, A.* ... 785
198. Chaotic Behaviour due to Wave-Wave Interactions in a Modulated Ion Beam Plasma System.  
*Araki, K., Ohno, N., Saigoh, M., Fujiyama, H., Nambu, M., Honjo, H.* ... 789
199. Experiments on Nonlinear Dynamics and Chaos in Plasmas.  
*Cheung, P.Y., Donovan, S.D., Wong, A.Y.* ... 793
200. Chaotic Phenomena of Electron Oscillations in a Beam and Plasma System.  
*Chutia, J., Shigueoka, Y., Nakamura, Y.* ... 797
201. Instabilities Associated with Chaotic Behaviour in a Current-Carrying Plasma.  
*Komori, A., Ohno, N., Tanaka, M., Kawai, Y.* ... 801
202. Stochasticity of Nonlinear Waves in Plasmas.  
*Romeiras, F.J.* ... 805
203. Chaotic Behaviour in Time of Langmuir Solitons.  
*Spatschek, K.H., Pietsch, H., Eickermann, Th.* ... 809

204. Intrinsic Chaos in a Plasma Wave.  
*Subbarao, D., Uma, R.* ... 813
205. Collective Effects in a Plasma and Breakdown of the Ponderomotive Well.  
*Uma, R.* ... 817
206. Stochastic Attractors of Motion in a Magnetic Field.  
*Vasiliev, A.A., Petrovichev, B.A., Zaslavsky, G.M., Natenzon, M. Ya., Neishtadt, A.I., Sagdeev, R.Z., Chernikov, A.A.* ... 821

#### N. PLASMA SIMULATION AND COMPUTATIONAL PHYSICS.

207. Ion Phase Vortices and Their Relation with the Ion Acoustic Instability : Numerical and Experimental Results.  
*Bonhomme, G., Pierre, T., Trulsen, J.* ... 825
208. Two-Dimensional Equilibria of Field-reversed Configuration with Multiple Coil System.  
*Fuentes, N.O., Sakanaka, P.H.* ... 829
209. A Study of the Evolution of Low-Beta  $E \times B$ -Drifting Plasma Clouds Using the Dielectric-in-Cell Technique.  
*Hansen, P.J., Borovsky, J.E.* ... 833
210. Injection of Electrons from a Floating Electrode into a Plasma and Potential Formation.  
*Ishiguro, S., Sato, N.* ... 837
211. Simulation of Plasma and Current Dynamics in Electromagnetic Implosion of Composite Linear System.  
*Ivanov, O.P., Tinashev, A.N.* ... 841
212. 3D Simulation Study of Self-Sustainment Mechanism in Reversed-Field Pinch Configuration.  
*Kusano, K., Sato, T.* ... 845
213. The Fast-Timescale Coupling of Plasmas to Electrically Perturbed Objects: Simulations and Experiments.  
*Susczynsky, D.M., Borovsky, J.E.* ... 849

#### O. TURBULENCE AND FLUCTUATIONS.

214. Particle Diffusion in Ion Cyclotron Turbulence.  
*Basu, A.* ... 853

215. A Multiple Timescale Approach Applied to Plasma Relaxation and Turbulent Transport.  
*Edenstrasser, J. W.* ... 857
216. The Rate of Energy Dissipation by a Weak Plasma Turbulence.  
*Fal'kovich, G. E., Shafarenko, A. V.* ... 861
217. Anisotropic Spectra of Strong Two-Dimensional Turbulence.  
*Mikhailovskii, A. B., Novakovskii, S. V., Onishchenko, O. G.* ... 865
218. Electromagnetic Short-Wavelength Strong Scale-Invariant Turbulence in a Magnetized Plasma.  
*Mikhailovskii, A. B., Novakovskii, S. V., Onishchenko, O. G.* ... 869
219. Anomalous Radiation from Langmuir Turbulence.  
*Nambu, M., Sarma, S. N., Bujarbarua, S.* ... 873
220. Low Frequency Turbulence in an Inhomogeneous Magnetized Plasma.  
*Sitenko, A.G.* ... 877

#### P. PLASMA TRANSPORT.

221. Transport Studies in the RFP.  
*Cappello, S., Dal Corso, A., Paccagnella, R.* ... 881
222. Transport in a Tokamak Edge-Layer with Perturbed Magnetic Surfaces.  
*Hellberg, M.A., Frank, N. A., Handley, M. J., Feneberg, W.* ... 885
223. Coherent Structures in Turbulent Cross-Field Plasma Turbulence.  
*Huld, T., Nielsen, A. H., Pecseli, H. L., Rasmussen, J. J.* ... 889
224. Three-Dimensional EMH Resistance in Bounded Plasma.  
*Isichenko, M. B., Kalda, J. L.* ... 893
225. The Wave Heat Conductivity of Magnetized Plasmas.  
*Kukushkin, A. B., Lisitsa, V. S., Saveliev, Yu. A.* ... 897
226. ETG drift Wave Turbulence and Anomalous Electron Energy Transport.  
*Murtaza, G., Shukla, P. K., Weiland, J.* ... 901

227. Stationary Spectra of Short-Wave Convective and Magnetic Fluctuations in a Plasma.  
*Vakulenko, M. O., Sosenko, P. P.* ... 905
228. Electric Field Effects on the Toroidal Edge Plasma Transport.  
*Venkatramani, N., Mattoo, S. K.* ... 909

#### Q. MHD STABILITY.

229. MHD Stability of Plasma in Join Axisymmetric Mirror Cells.  
*Kuz'min, S. V.* ... 913
230. Long Term Nonlinear Evolution of Resistive Instabilities.  
*Malara, F., Carbone, V., Veltri, P.* ... 917
231. Effects of Suspended Particles on the Rayleigh-Taylor Instability of Two Superposed Fluids.  
*Sanghavi, R. K., Chhajlani, R. K., Purohit, P.* ... 921
232. MHD Stability Analysis of Tokamak Plasmas with Non Ohmic Currents.  
*Tokuda, S., Yamagiwa, M., Tsunematsu, T., Takeda, T.* ... 925
233. Pressure Profile Effects on Ideal MHD Stability.  
*Tsunematsu, T., Tokuda, S., Azumi, M., Nakamura, Y., Ozeki, T.* ... 929
234. Kelvin Helmholtz Instability of Magnetised Rotating Composite Plasma with Resistivity.  
*Vyas, M. K., Chhajlani, R. K.* ... 933

#### R. PLASMA INSTABILITIES.

235. Drift-Dissipative Instabilities in a Two-Electron Temperature Plasma.  
*Bose, M., Sharma, S. K.* ... 937
236. Nonlinear Behaviour of Drift Wave in a Plasma with Energetic Electron Component.  
*Chaosong, H.* ... 941
237. Electron Acoustic Waves in a Two Electron Temperature Plasma.  
*Mace, R. L., Hellberg, M. A.* ... 945
238. Low Frequency Instability Caused by a Negatively Biased Grid in a Plasma.  
*Nakamura Y., Joyonti, C., Sato, S.* ... 949

239. Propagation of Nonlinear Drift Wave Pulses.  
*Saeki, K., Amagishi, Y.* ... 953
240. Radiation-Induced Drift Wave Instabilities at Plasma Edge.  
*Shukla, P. K., Yu, M. Y.* ... 957

#### S. BEAM-PLASMA STUDIES.

241. Experiments on Equilibrium and Stability of a Ribbon REB in a Vacuum Channel.  
*Arzhannikov, A. V., Lyamzin, M. P., Sinitsky, S. L., Yushkov, M. V.* ... 961
242. Numerical Study of the Ion Beam Driven E.I.C.I.  
*Bonhomme, G., Leclert, G.* ... 965
243. Plasma Heating in a Solenoid by a 100 KJ Microsecond Electron Beam.  
*Burdakov, A. V., Kapitonov, V. A., Koidan, V. S., Konyukhov, V. V., Lebedev, S. V., Mekler, K. I., Nikolaev, V. S., Piff, V., Postupaev, V. V., Raus, J., Semenov, E. P.* ... 969
244. Injection of 100 KJ Microsecond Electron Beam into Plasma.  
*Burdakov, A. V., Kapitonov, V. A., Koidan, V. S., Konyukhov, V. V., Lebedev, S. V., Mekler, K. I., Nikolaev, V. S., Postupaev, V. V., Senenov, E. P., Shcheglov, M. A., Voropaev, S. G.* ... 973
245. Formation of an REB Ring in a Toroidal Device.  
*Chenna Reddy, D., John, P. I.* ... 977
246. Study of Nonlinear Whistler-Electron Beam Interaction in Presence of Parallel Electric Field.  
*Gwal. A. K., Chandra Sekhar, B.* ... 981
247. Plasma Current Distribution in REB Produced Plasma in Low Pressure Hydrogen Gas.  
*Iyengar, S.K., Venugopala Rao, G., Paithankar, A. S., Mittal, K. C., Vijayan, T., Roychowdhary, P., Acharya, S. N., Chindarkar, A. R., Gokhale, J. A., Rohatgi, V. K.* ... 985
248. Effects of Cascading Delay in Nose Physics During Relativistic Electron Beam Propagation in Dense Gas.  
*Khodja, M., Maggi-Videlaine, P., Roubaud, R., Dolique, J. -M.* ... 989

249. Curvature Effects on the Relativistic Beam-Plasma Instability in a very Strong Magnetic Field.  
*Larroche, O., Pellat, R.* ... 993
250. Reflection at a Metal Surface in a Magnetically Controlled Beam Plasma Discharge.  
*Ono, M., Armstrong, R. J., Greene, G., Darrow, D.* ... 997
251. Experimental Observation of Resistive-Hose Instability During REB-Propagation in Sub-Torr Hydrogen Gas.  
*Paithankar, A.S., Gupta, G. P., Rohatgi, V. K.* ... 1001
252. Ion Heating in An Unstable Ion Beam-Plasma System.  
*Saha, S. K.* ... 1005
253. Low Frequency Instabilities Driven by an Anisotropic Ion Beam.  
*Singh, P., Bharuthram, R.* ... 1009
254. Propagation of REB Generated from a Foilless Diode in a Preformed Mirror Confined Plasma.  
*Venugopala Rao, G., Mittal, K. C., Paithankar, A. S., Iyyengar, S. K., Rohatgi, V. K.* ... 1013
255. Excitation of Short Capillary Waves on the Liquid Metal Surface Bombarded by an Ion Beam.  
*Vladimirov, V. V., Golovinskii, P. M.* ... 1017
256. Localized Structure of Unstable Waves in an Electron Beam Plasma.  
*Yamagiwa, K., Tokuda, K., Mieno, T.* ... 1021
257. Helical Equilibrium Configuration of a Relativistic Electron Beam in Magnetoactive Plasma.  
*Zakharov, S. V.* ... 1025
- T. WAVE-WAVE INTERACTIONS AND PARAMETRIC PROCESSES.**
258. Parametric Instabilities in Magnetoactive Doped Semiconductor-Plasmas.  
*Aghamkar, P., Sen, P. K.* ... 1029
259. Regular Absolute Parametric Instability of an Inhomogeneous Plasma.  
*Arhipenko, V. I., Savel'ev, A. N., Budnikov, V. N., Gusakov, E. Z., Simonchik, L. V.* ... 1033
260. Observation of Rosenbluth's Absolute Parametric Instability of an Inhomogeneous Plasma.  
*Arhipenko, V. I., Savel'ev, A. N., Budnikov, V. N., Gusakov, E. Z., Simonchik, L. V.* ... 1037
261. Nonlinear Stage of the Three-Wave Interaction in an Inhomogeneous Plasma.  
*Arhipenko, V. I., Savel'ev, A. N., Budnikov, V. N., Gusakov, E. Z., Mazurenko, S. L., Simonchik, L. V.* ... 1041
262. Study of Lower Hybrid Wave Instability by Enhanced Microwave Scattering Method.  
*Budnikov, V.N., Novik, K. M., Selenin, V. L., Kaganskaja, N. M.* ... 1045
263. Nonlinear Excitation of Electron-Acoustic Wave in a Two-Electron Temperature Plasma.  
*Guha, S., Asthana, M.* ... 1049
264. Parametric Drift Electron Acoustic Instability.  
*Guha, S., Asthana, M.* ... 1053
265. Stimulated Brillouin Scattering of Electromagnetic Wave by Acoustic Like Mode in Multi-Ion Species Plasma.  
*Guha, S., Sarkar, R.* ... 1057
266. Nonlinear Behaviour of Ion Plasma Oscillations.  
*Honzawa, T.* ... 1061
267. Decay Processes in Magnetized Plasma Waveguide.  
*Ignatov, A. M., Kelekhsaeva, I. A.* ... 1065
268. Generation of Electron and Ion Bernstein Waves by Optical Mixing: Detected by Phase Conjugation.  
*Lehner, T.* ... 1069
269. Ponderomotive Forces of HF Wave Packets in Nonuniform and Nonstationary Magnetized Plasmas.  
*Milantiev, V.P., Ibrahim, J. G.* ... 1073
270. Turbulent Diffusion and Parametric Excitation of Convective Cells in a Plasma.  
*Pavlenko, V.N., Panchenko, V. G.* ... 1077
271. Parametric Decay Instabilities of Fast Magnetosonic and Ion-Bernstein Waves in the Ion Cyclotron Range of Frequencies.  
*Sharma, R. P., Kumar, A.* ... 1081

272. Parametric Excitation of Electrostatic Whistler Waves by Electron Bernstein Waves.  
*Sharma, R.P., Tripathi, V. K., Boswell, R. W.* ... 1085

#### U. BASIC PLASMA EXPERIMENTS.

273. Mode Conversion of Fast Waves on Alfvén Resonance Layer.  
*Amagishi, Y.* ... 1089
274. Analysis of Glow Discharge Cleaning Technique for SS304.  
*Anjali, S., Pawar, P.S., Gogawale, S.V.* ... 1093
275. Intermittency on a Plane Langmuir Probe with a Strong Incident Ion Beam.  
*Armstrong, R., Schrittwieser, R., Skoelv, A.* ... 1097
276. Toroidal Equilibrium of Electron Clouds.  
*Avinash, K.* ... 1101
277. A New Generation Mechanism of Intense Langmuir Oscillations in Plasma.  
*Brodsky, Yu. Ya., Nechuev, S.I., Slutsker, Ya. Z., Feigin, A.M., Fraiman, G.M.* ... 1105
278. Stationary Striations in Argon Plasma Column Generated by a High Frequency Surface Wave.  
*Cicconi, G., Rosatelli, O., Tarditi, A.* ... 1109
279. Control Radiation Efficiency of Dipole Antenna in Plasma.  
*Golubyatnikov, G. Yu., Egorov, S. V., Kostrov, A. V., Chugunov, Yu. V.* ... 1113
280. The Influence of a Radial Electric Field on the Potential Relaxation Instability.  
*Iizuka, S., Schrittwieser, R.* ... 1117
281. CO<sub>2</sub> - Laser Scattering on Langmuir Electron Plasma Waves Excited by REB.  
*Kandaurov, I. V., Sanin, A. L., Kruglyakov, Ed. P., Losev, M. V., Meshkov, O.I., Vyacheslavov, L. N.* ... 1121
282. Experimental Study of Low-Frequency Turbulence and Fluctuation-Induced Transport in a Low-Pressure RF Discharge.  
*Kramer, M., Kleeberg, S. T., Fisher, B.* ... 1125

283. RF Discharge : A Measure of Plasma Parameters by Sonic Probe.  
*Krishnan, V.S., Guha, S., Suryanarayan, N. S.* ... 1129
284. Acoustic Wave Interaction with Accelerating Plasma Pulse.  
*Marihal, B.N., Danaraddi, S. C., Jyoti, B. G.* ... 1133
285. The Influence of the Separation Grid Bias on Excitation of the Ion Acoustic Wave in a Double Plasma Machine.  
*Popa, G., Schrittwieser, R.* ... 1137
286. Electrostatic Ion Cyclotron and Potential Relaxation Instabilities Excited In a Short Single Ended Q-Machine.  
*Popa, G., Schrittwieser, R.* ... 1141
287. Non-Adiabatic Motion of Electrons in Periodic Magnetic Fields.  
*Punithavelu, A.M, Rawat, S. P. S., Varma, R. K.* ... 1145
288. Effect of Erosion on Conductivity Measurements of a Seeded Combustion Plasma.  
*Sawhney, B.K., Verma, S. S.* ... 1149
289. Single Probe A.C. Studies in Discharge Plasma.  
*Singh, A., Sood, B.R., Gupta, S.C.* ... 1153
290. Particle Dynamics in a String-Plasma.  
*Tanikawa, T., Noguchi, T., Harakawa, S., Watanabe, H., Yamauchi, K., Sunako, K., Nanri, K., Takayama, K.* ... 1157
291. Formation and Equilibrium of a Fat Toroidal Electron Cloud.  
*Zaveri, P., John, P. I., Kaw, P. K.* ... 1161

#### V. ELECTRICAL DISCHARGES AND PLASMA PRODUCTION.

292. Characterisation of a Marshall Gun-Produced Plasma for REB-Plasma Interaction.  
*Acharya, S., Roychoudhury, P., Saxena, A. C., Chakravarty, D. P., Iyengar, S. K., Rohatgi, V. K.* ... 1165
293. Gas Discharge Excited by Microwave Radiation and CO<sub>2</sub>-Laser Radiation.  
*Bykov, D. F., Golubev, S. K., Gumberidze, G. G.* ... 1169
294. Development of a High-Current RF-Plasma Source Rig-Hex for Neutral Particle Injectors.  
*Freisinger, J., Hellmann, H., Kaufmann, M., Loeb, H. W. Scharmann, A., Kraus, W.* ... 1173

295. Feed Optimization and Design of Large Diameter Helices for High Density Plasma Production.  
*Ganguli, A., Naidu, A. P., Tewari, D. P.* ... 1177
296. Stable Ion Beam Produced by R.F. Plasma.  
*Ghoranneviss, M., Moradshahi, M., Sarafan, S.* ... 1181
297. On Formation of Fast Electron Beam in UHF Discharge Plasma.  
*Gogiashvili, G. E., Nanobashvili, S. I., Zachek, F.* ... 1185
298. An Independent UHF Plasma Source for Open Magnetic Trap Filling in Plasma Wave Interaction Experiments.  
*Gogiashvili, G. E., Nanobashvili, S. I., Rostomashvili, G. I.* ... 1189
299. Control of Electron Energy Distribution in a Discharge Plasma.  
*Iizuka, S., Koizumi, T., Sato, N.* ... 1193
300. ECR Plasma Production with a Lisitano Coil.  
*Komori, A., Yomesu, A., Takada, Y., Kawai, Y.* ... 1197
301. Gas Ionisation Effects in 2.5 GW Pulsed REB Diode at Low Pressure.  
*Mittal, K. C., Rohatgi, V. K.* ... 1201
302. Theory and Experiments for Radio Frequency Discharges Between Parallel Plate Electrodes Covered by Dielectrics.  
*Nonaka, S.* ... 1205
303. Investigation of a Glow Discharge Plasma Subjected to the Discharge of a Bank of Condensers.  
*Sen, S. N., Acharyya, C., Gantait, M., Ghosh, B.* ... 1209
304. Design and Fabrication of R.F. Plasma Source.  
*Singh, A., Rajkamal, Sood, B. R., Gupta, S. C.* ... 1213
305. Design and Fabrication of an ARC Chamber.  
*Singh, N. P., Singh, A., Raj Kamal* ... 1217
306. Characteristics of Sheet Plasma.  
*Sunako, K., Nanri, K., Yamauchi, K., Noguchi, T., Watanabe, H., Tanikawa, T., Takayama, K.* ... 1221
307. Over-Dense Plasma Production Using Electron Cyclotron Waves.  
*Tanaka, M., Nishimoto, R., Komori, A., Kawai, Y.* ... 1225
308. Measurements of Electron Energy Distribution Function of  $\text{LiB}_6$  Hollow Cathode in Glow-Arc Transition.  
*Tonegawa, A., Taguchi, H., Takayama, K.* ... 1229

309. Study of Fluctuations in a Plasma Jet.  
*Venkatramani, N., Chakravarty, D.P., Barve, D.N. Rohatgi, V.K.* ... 1233
310. On a Low Boundary for the Discharge Burn in the Steady State Closed Drift Extended-Acceleration (CDEA) Plasma Source.  
*Veselovzorov, A.N., Swirskij, E.B.* ... 1237
