

## TABLE OF CONTENTS

<b>PREFACE</b>	ix
<b>I. Singularities in Fluids</b>	
<i>Well-posed Numerical Calculations for Free-Surface Flows</i> G. Baker and S. Tanveer	1
<i>On the Well-Posedness of Two Fluid Interfacial Flows with Surface Tension</i> J.T. Beale, T.Y. Hou and J.S. Lowengrub	11
<i>Can Three-Dimensional Ideal Flows Become Singular in a Finite Time?</i> M.E. Brachet, M. Meneguzzi, A. Vincent, H. Politano and P.L. Sulem	39
<i>Singularity Formation for Models of Axi-Symmetric Swirling Flow</i> R.E. Caflisch and P. Smereka	53
<i>Complex Analytic Branching Structures in Porous Media Convection</i> T. Dombre	65
<i>Singularities of the Velocity Field and Interaction Locality of Turbulence</i> G.E. Falkovich	75
<i>Solitons, Euler's Equation, and the Geometry of Curve Motion</i> R.E. Goldstein and D.M. Petrich	93
<i>Asymptotic and Numerical Results for Blowing-up Solutions to Semilinear Heat Equations</i> J.B. Keller and J.S. Lowengrub	111
<i>Scaling of a Singularity of Euler</i> R.M. Kerr	131
<i>The Rayleigh Centrifugal Instability for Vortex Rings with Swirl</i> A. Lifschitz	137
<i>Dynamics of Magnetic Vortex Rings</i> N. Papanicolaou	151
<i>Morphology and Singularities of Vortex Flows</i> A. Pumir and E.D. Siggia	159
<i>Topological Transitions in Hele-Shaw Flow</i> M.J. Shelley, R.E. Goldstein and A.I. Pesci	167

**II. Singularities in Optics and Plasmas**

<i>Separatrices and Singularities</i> A. Bhattacharjee	189
<i>Nonlinear Dynamics of Ultra-Cold Gas</i> V. Flambaum and E. Kuznetsov	197
<i>The Interaction Representation for Nonlinear Schrodinger Equation Penleve Problem</i> G.M. Fraiman	205
<i>Self-Similar Regimes of Subsonic Langmuir Wave Collapse</i> V.M. Malkin and V.N. Khudik	213
<i>Asymptotic Profiles of Blow-up Solutions of the Nonlinear Schrödinger Equation</i> H. Nawa	221
<i>Modulational Stability of Periodic Solutions of the Kuramoto-Sivashinsky Equation</i> D.T. Papageorgiou, G.C. Papanicolaou and Y.S. Smyrlis	255
<i>Dynamic Rescaling for Tracking Point Singularities: Application to Nonlinear Schrödinger Equation and Related Problems</i> G. Papanicolaou, C. Sulem, P.L. Sulem and X.P. Wang	265
<i>Dynamic Self-Focusing of Structured Laser Beams in Plasma</i> H.A. Rose and D.F. DuBois	281
<i>Experimental Manifestation of Strong Langmuir Turbulence</i> A.M. Rubenchik	301
<i>On Long-Lived Singularities in the Nonlinear Schroedinger Equation</i> V.F. Shvets, N.E. Kosmatov and B.J. LeMesurier	309
<i>On Collapsing Solutions of the Nonlinear Schroedinger Equation in Supercritical Case</i> V.F. Shvets, N.E. Kosmatov and B.J. LeMesurier	317
<i>Sharp Criteria for Wave Collapse and Wave Collapse Ideology in Application to Optical Pulses Compression</i> S.K. Turitsyn	323
<i>Fluid Analogies in Optics</i> C.O. Weiss, K. Staliunas, C.P. Smith, G. Sleky and M.F.H. Tarroja	333
