

CONTENTS

Microscopic Kinetic Theory of Fluids	1
<i>E. P. Gross</i>	
Perturbative and Non-Perturbative Methods for Quantum and Classical Plasmas	59
<i>A. Sjölander</i>	
Equilibrium Statistical Mechanics of Strongly Coupled Plasmas by Numerical Simulation	81
<i>H. E. DeWitt</i>	
Computer Simulation of Collective Modes and Transport Coefficients of Strongly Coupled Plasmas	117
<i>J. P. Hansen</i>	
Methods and Approximations for Strongly Coupled Plasmas	141
<i>G. Kalman</i>	
Theoretical Approaches to Strongly Coupled Plasmas	187
<i>S. Ichimaru</i>	
Generalized Response Function Approach to Strongly Coupled Plasmas	223
<i>K. I. Golden</i>	
Dynamic Behavior of Electrons in Metals	259
<i>K. S. Singwi</i>	
Microscopic Theory of Time Dependent Fluctuations	279
<i>M. Baus</i>	
Nodal Expansion for Strongly Coupled Plasmas	313
<i>C. Deutsch</i>	

Selected Topics on the Equilibrium Statistical Mechanics of Coulomb Systems	347
<i>Ph. Choquard</i>	
Strongly Correlated Plasmas and Astrophysics	407
<i>E. Schatzman</i>	
The Status of Laser Fusion	427
<i>R. A. Grandey</i>	
Electron Transport in a Spherically Symmetric Plasma	479
<i>R. A. Grandey</i>	
Computer Experiments in One-Dimensional Plasmas	499
<i>M. R. Feix</i>	
 <u>Seminars</u>	
Configuration Space Formulation and Implications for Approximation Schemes for Strongly Coupled Plasmas	533
<i>P. Bakshi</i>	
Strong Laser Plasma Coupling	547
<i>S. Krishan</i>	
Asymptotic Behavior of the Correlation Function of Dense Plasmas	557
<i>M. Lavaud</i>	
Some Equilibrium Properties of the 2D Strongly Coupled Plasma	587
<i>D. Merlini</i>	
Group Transformation for Phase Space Fluids	597
<i>J. R. Burgan, J. Gutierrez, A. Munier, E. Fijalkow, M. R. Feix</i>	
Equation of State of Reacting Strongly Coupled Plasmas	643
<i>F. J. Rogers</i>	
SUBJECT INDEX	653
