List of participants.....	XI
D. PALUMBO - Welcome and Introduction.....	1
W. J. HOLTSLANDER - Review of tritium-related problems in fusion reactors.....	23
P. J. DINNER - Tritium in fusion reactors.....	43
A. MALEIN - Tritium research in the European fusion programme.....	59
K. KAWAMURA - Tritium research activities at Universi- ties in Japan.....	69
F. REITER - Tritium production and extraction from liq- uid breeders.....	77
J. M. MILLER - Tritium behaviour in ceramic breeder blankets.....	97
V. G. VASILYEV - Fuel cycle of fusion reactor blanket..	115
P. V. ROMANOV - Tritium dynamics retention in iter blan- ket with solid $\text{Li}_{17}\text{Pb}_{83}$ eutectic.....	153
P. V. ROMANOV - Tritium leakage from blanket with solid eutectic.....	161
A. IASONNA and V. VIOLANTE - Conceptual design of a pi- lot plant for tritium recovery from ceramic breeder...	169
P. L. CARCONI, S. CASADIO, M. R. MANCINI, A. MOAURO and M. BRIEC - Strategies of tritium extraction from neutron irradiated lithium aluminate.....	185
A. STUCHELI, M. SCHAUB, D. ULRICH and R. ZMASEK - Tri- tium extraction from light water and heavy water.....	193
S. K. SOOD, K. M. KALYANAM and A. BUSIGIN - Tritium ex- traction from water and heavy water.....	219
G. GERVASINI and F. REITER - The impact of surface con- ditions on tritium recycling, permeation and inventory in a self cooled Pb-17Li fusion reactor blanket.....	233
M. ZUCCHETTI - Simplified calculations of tritium pro- duction in a lithium-lead blanket for a DEMO fusion reactor.....	243

R. DOS SANTOS and R. A. S. S. BORDA - Tritium breeding calculations for fusion reactor blankets.....	251
B. HIRCQ - Tritium storage.....	257
G. BONIZZONI - Tritium system for the ignitor experiment	277
M. NASSI - Sol plasma behavior in the ignitor device: preliminary results.....	289
G. BONIZZONI - Tritium related problems in the ignitor vacuum system.....	299
G. BONIZZONI, A. CONTE, G. GATTO, G. GERVASINI, F. GHEZZI and M. RIGAMONTI - Tritium storage plant in a glove-box with controlled atmosphere.....	315
G. BONIZZONI, A. CONTE, G. GATTO, G. GERVASINI, F. GHEZZI and M. RIGAMONTI - Tritium transfer line from the storage to the injection system for a high field fusion device.....	327
P. KUPSCHUS - Fuelling of magnetically confined fusion reactor plasmas.....	343
V. VIOLANTE and M. BUDD - Analysis of tritium inventory of the first wall of a fusion reactor protected by radiatively cooled graphite tiles.....	363
A. PERUJO, J. CAMPOSILVAN, M. CAORLIN, B. PIOSCZYK, F. REITER and S. TOMINETTI - An experimental apparatus for hydrogen isotopes recycling and outgassing studies under fusion reactor conditions.....	377
P. E. STOTT and A. E. COSTLEY - Diagnostics for experimental fusion reactors.....	385
R. HAANGE and J. L. HEMMERICH - Pumping of tritiated plasma exhaust.....	407
P. J. DINNER - Pumping of tritiated plasma exhaust.....	419
H. WEICHSELGARTNER - Methods for plasma - exhaust purification.....	433
G. BONIZZONI, A. CONTE, G. GATTO, G. GERVASINI, F. GHEZZI and M. RIGAMONTI - Design of on line plasma exhaust purification system for a compact fusion device.....	451
A. DOMBRA and R. HAANGE - Impurity separation. A review of plasma exhaust purification methods.....	463
H. DWORSCHAK - Tritium safety.....	515
V. K. KAPYSHEV - Tritium radiation safety of fusion installations and reactors.....	535

C. RIZZELLO - Tritium containment & recovery systems in ignitor.....	551
R. M. BROWN - A review of tritium dispersal in the environment.....	557
G. VASSALLO, F. MANNONE, P. NEELY and J. L. DRINKWATER - The design and operation of experimental glove-boxes and related gaseous detritiation systems in the European tritium handling experimental laboratory.....	577
H. DWORSCHAK and F. MANNONE - Management of tritiated wastes.....	585
Y. TAKASHIMA - Behavior of tritium in ecological systems	605
A. TRIVEDI, J. W. LEON, C. A. BARR and R. G. C. McELROY - Skin-contact exposure to tritium on stainless-steel surfaces.....	623
G. H. MILEY - Overview of advanced fuel fusion.....	633
H. MOMOTA and Y. TOMITA - Needs for advanced fuels.....	659
M. MOMOTA and Y. TOMITA - Physics of advanced fuels in an FRC.....	665
I. N. GOLOVIN, V. I. KHVESYUK, V. V. KOSTENKO, D. L. POLETAJEV and N. V. SHABROV - Kinetics and an analysis of the D ³ He tandem mirror reactor plasma parameters...	673
B. A. KNYAZEV and D. D. RYUTOV - Low-radioactive open-ended fusion reactor with D ³ He fuel.....	693
G. CASINI - Safety and environmental aspects of D- ³ He fusion power reactor plants.....	711
QIU LIJIAN - Fusion-fission hybrid reactor conceptual design (only producing fuel) for China.....	731
M. B. KALINOWSKI - Nuclear weapons uses of tritium and multilateral control measures.....	747
List of Authors.....	755
