

Contents

Preface	v
1 Introduction	1
2 Elastic-Collision Cross Sections	13
2.1. Probability of Elastic Collisions between Electrons and Gas Atoms	13
2.2. Probability of Elastic Collisions for Ions with Gas Atoms	42
3 Charge-Transfer Cross Sections	47
4 Mobility and Diffusion	79
4.1. Electron Mobility	79
4.2. Diffusion	98
4.3. Average Energy of Electrons	99
4.4. Ion Mobility	107
4.5. Mobility of Negative Ions	126
4.6. Ambipolar Diffusion	128
5 Inelastic Collisions of Electrons	131
5.1. Probability of Excitation	131
5.2. Ionization	140
5.3. The First Ionization Coefficient	182
6 Electron Attachment and Electron Detachment	191
6.1. Electron Attachment	191
6.2. Electron Detachment	208
