

## VOLUME II

### I. SPACE PLASMAS

#### Nonlinear, Relativistic, Langmuir Waves in Astrophysical Magnetospheres

*Abraham C.-L. Chian* 639

#### Stochastic Diffusion of Dust Grains by the Interplanetary Magnetic Field

*M.H.A. Hassan and M.K. Wallis* 655

#### Correlations in the Synchrotron-Self Compton Spectra

*J.H. You and G.Z. Xie* 673

#### The Cyclotron Maser Instability Driven by a Loss-Cone Distribution

*F.J. Ke, H.K. Wong and C.S. Wu* 681

#### A Steady State Model of Active Region Coronal Loops

*V. Krishan* 690

Resistive Interchange Modes in the Ionosphere <i>G.S.Lakhina and A.Bhattacharyya</i>	696
Electrodynamic Interaction of Greatly Separated Plasma Objects: Magnetospheres of Jupiter and Saturn <i>W.Macek and S.Grzedzielski</i>	706
The Fast Extraordinary Wave Transformation on a Density Barrier <i>M.Majewski</i>	723
<b>II. FUSION AND LABORATORY PLASMAS</b>	
Factors Affecting the Pace of World Fusion Development <i>S.O.Dean</i>	735
<b>II.1 RADIO FREQUENCY HEATING AND CURRENT DRIVE IN MAGNETIZED PLASMA</b>	
Antenna Plasma Coupling and Energy Deposition Profile in the Ion-Cyclotron Resonance Heating of Tokamaks <i>V.P.Bhatnager et al.</i>	740
Electron Cyclotron Absorption in the Presence of Temperature Anisotropy <i>M.Bornatici, M.Crestani and P.Ferri</i>	753
The Role of Boundary Conditions and Refraction on the Propagation of Ion Cyclotron Waves <i>M.Brambilla</i>	765
A Simple Theory of Linear Mode Conversion <i>R.A.Cairns and C.N.Lashmore-Davies</i>	775
Linear and Quasilinear Theory of Electron Cyclotron Wave Resonance Heating in Tokamak Plasmas <i>I.Fidone, G.Giruzzi, G.Granata and R.L.Meyer</i>	784
Current-Drive in Toroidal Plasma <i>N.J.Fisch</i>	796
Relativistic Dielectric Tensor of a Maxwellian Current-Carrying Magnetized Plasma <i>V.Krivenksi and A.Orefice</i>	805

Power Spectrum Optimization of the Three Waveguide Grill for the T-7 Tokamak	
<i>J.Preinhaelter</i>	813
Geometry Effects on Ion Heating at Ion Cyclotron Frequencies	
<i>H.Weitzner</i>	823
II.2 WAVES, INSTABILITIES, AND TRANSPORT IN MAGNETIZED PLASMAS	
Universal Instabilities	
<i>I.L.Caldas</i>	828
The Effect of Ambipolar Field for Low Frequency Drift Instabilities in Sheet Plasmas	
<i>M.B.Chaudhry, T.Watanabe and K.Nishikawa</i>	835
Kinetic Theory of Inhomogeneous Bounded Plasmas	
<i>C.J.Diaz</i>	842
A Two-Fluid Interpretation of Anomalous Transport in Tokamaks	
<i>F.A.Haas and A.Thyagaraja</i>	851
Buneman's Instability in Inhomogeneous Magnetized Plasma	
<i>Sh.M.Khalil, T.A.Sayed and W.H.Amein</i>	864
Drift Wave Turbulence: Theory Versus Experiment	
<i>G.Hasselberg and A.Rogister</i>	870
Coupling of Tearing Modes and Phenomenon of Disruptions in Tokamak Plasma	
<i>G.Murtaza, H.U.Rahman and M.Salahuddin</i>	879
Nonlinear Coupling of Low-Frequency Waves in Finite Beta Magnetoplasma	
<i>H.U.Rahman, G.Murtaza and M.Salahuddin</i>	889
Magnetic Drift Waves and Nonlinear Convective Motions	
<i>P.K.Shukla and M.Y.Yu</i>	899
II.3 MHD EQUILIBRIUM AND STABILITY OF PLASMA	
Experimental Determination of Tokamak Plasma Configurations	
<i>M.Brusati, E.Lazzaro and V.Symons</i>	912

On the Study of the Forces Acting on a Coil Carrying Current in a Theta-Pinch Discharge	
<i>M.A.Bourham et al.</i>	924
Mutual Inductive Coupling between Plasma and External Circuit in a Helicoidal Hard-Core Thetatron Discharge	
<i>M.A.Bourham</i>	935
Effects of Magnetic Bending on the High Frequency Stability of the Elmo Bumpy Torus	
<i>A.M.El Nadi and J.C.Whitson</i>	942
MHD Equilibrium and Instability of Infinitely Long Belt-Pinch	
<i>F.L.Tang and M.L.Xue</i>	948
Effect of Plasma Density Profile of Tokamak on Kelvin-Helmholtz Instability	
<i>F.L.Tang</i>	957
A New Theory for the Fast Compressional Pinch	
<i>S.Lee</i>	967
Plasma Focus Model Yielding Trajectory and Structure	
<i>S.Lee</i>	978
Hydromagnetic Oscillations and Instabilities of a Plane Plasma Jet	
<i>H.R.Sanchez, P.Gaska and J.Grattan</i>	988
Electron-Acoustic Instability in Homogeneous Hot Ion Plasma	
<i>Y.A.Sayed, Sh.M.Khalil and N.M.El-Siragy</i>	998
Magnetohydrodynamic Equilibrium of a Field-Reversed Theta- Pinch with Axisymmetric Toroidal Rotation	
<i>C.S.Shibata and P.H.Sakanaka</i>	1004

#### II.4 PLASMA EXPERIMENTS AND DIAGNOSTICS

Electromagnetic Radiation from a Turbulent Plasma of a Straight Thetatron Discharge	
<i>M.A.Bourham, H.A.El Gamal and T.Z.Abu El Nasr</i>	1018
The Mirrotron—a Compact, Disposable Tandem Mirror Fusion Reactor	
<i>A.Sternlieb</i>	1026

A Soft X-Ray Spectrometer with MWPC <i>M.Y.Ma and Z.L.Zhou</i>	1033
Design and Realization of a Mini REB Machine and Preliminary Results <i>S.Sinman and A.Sinman</i>	1045
A Study of REB Observed from a DPF System for Different Focus Plasma <i>A.Sinman and S.Sinman</i>	1055
Fluctuations in Three Los Alamos Experiment <i>B.L.Wright</i>	1061
Determination of Electron-Atom Collision Frequency in an Arc Plasma <i>S.N.Sen, S.K.Ghosal and G.P.Nandi</i>	1077
Investigation of the Magnetic Field Configuration in a Theta-Pinch with a Reversed Axial Magnetic Field <i>A.M.Youssef et al.</i>	1087
 III. LASER AND BEAM-PRODUCED PLASMAS	
III.1 NONLINEAR THEORY OF LASER-PLASMA INTERACTIONS	
Nonlinear Effects on Laser Heating of Plasmas by Inverse Bremsstrahlung <i>L.C.Braga, R.M.O.Galvão and L.C.M.Miranda</i>	1099
Nonlinear Wave Transformation Due to Harmonic Generation in Magnetoactive Plasma <i>V.M.Čadež and D.Jovanović</i>	1110
Generation of Quasi-Stationary Magnetic Fields in Turbulent Plasmas <i>D.Jovanović and S.Vuković</i>	1117
Morphology of Magnetic Fields in Laser Produced Plasmas <i>L.N.Jha and M.P.Srivastava</i>	1126
Hamiltonian Formulation of Ponderomotive Effects in Fusion Plasmas <i>M.M.Skorić</i>	1131

Stochastic Motion of a Charged Particle in Strongly Reflected Electromagnetic Waves from an Inhomogeneous Plasma <i>R.Uma and D.Subbarao</i>	1139
A Losscone Electron Beam Parametric Instability <i>S.W.Zhen and R.Bingham</i>	1148
 III.2 LASER-PLASMA EXPERIMENTS	
Self-Focusing in Crossing Laser Plasmas <i>J.S.Bakos and I.B.Foldes</i>	1166
Spectroscopic Studies of Ablation and Lateral Energy Transport in Laser Produced Plasmas from Layered Targets <i>P.D.Gupta, P.A.Naik and H.C.Pant</i>	1174
Lateral Energy Transport in Laser-Produced Plasmas <i>H.C.Pant, S.Sharma, L.J.Dhareshwar and P.A.Naik</i>	1184
Displacement of $2\omega_0$ Line in CO <sub>2</sub> Laser-Plasma Interactions <i>W.Sharkawy</i>	1198
