|---|------|
| Preface | 2 |
| Honorary Council | 3 |
| Financial Support | 3 |
| International Programme Committee | 4 |
| Organizing Committee | 4 |
| Chronological Index of Abstracts | 5 |
| Sessions, Abstracts | |
| Survey Lectures: | |
| A Lehnert B., Bers A., Minardi E. | A |
| G Ikezi H., Hendel H.W. | G |
| L DuBois D.F., Silin P.V., Chu T.K., Meltz G. L | L |
| T Chodura R., Mercier C., Vandenplas P.E., Chen F.F. | T |
| Short Communications (Parallel Sessions): | |
| B Instability Analyses, General Treatment ... | B |
| C MHD Instabilities | C |
| D Turbulence and Anomalous Dissipation | D |
| E Wave Particle Interaction | E |
| F Wave Experiments in Quiescent Plasmas | F |
| H Drift Waves and Instabilities | H |
| I Diagnostics | I |
| K Stability Problems in Weakly Ionized Laboratory Plasmas | K |
| M Parametric and Decay Instabilities | M |
| N Beam Plasma Interaction | N |
| O Dynamic and Feedback Stabilization | O |
| P Wave Theory, Selected Topics | P |
| Q Ion and Electron Waves (Nonlinear, Linear).. | Q |
| R Velocity-Space Instabilities | R |
| S Laboratory Experiments Involving Various Waves and Instabilities | S |
| U Waves and Resonances in Bounded Plasmas, Scattering | U |
| V Plasma Heating | V |
| W Applications to Natural Plasmas | W |
| Author Index | X |
