| TRANSLATOR'S PREFACE                            | vii  |
| PREFACE   | ix   |
| ACKNOWLEDGMENTS                                 | xiii |
| <b>1. General Equations</b>                     |      |
| 1.1. Integral Form of the Equations of Motion   | 1    |
| 1.2. The Equations of Motion                    | 6    |
| 1.3. The Shock Equations                        | 17   |
| <b>2. Propagation of Small Disturbances</b>     |      |
| 2.1. Propagation of Small Disturbances          | 23   |
| 2.2. Flows with Simple Waves                    | 36   |
| <b>3. Propagation of Shock Waves</b>            |      |
| 3.1. General Properties                         | 48   |
| 3.2. Stability of Shock Waves                   | 67   |
| 3.3. The Wedge and Piston Problems              | 80   |
| <b>4. One-Dimensional and Rectilinear Flows</b> |      |
| 4.1. Equations of Motion                        | 96   |
| 4.2. Structure of Shock Waves                   | 103  |
| 4.3. Nozzle Flows                               | 123  |

**5. Flow past Bodies**

|  |     |
|--|-----|
| 5.1. Reduction of the Equations in Special Cases | 139 |
| 5.2. Flow past a Semi-Infinite Flat Plate        | 148 |
| 5.3. Flow past a Flat Plate of Finite Length     | 161 |
| 5.4. Flow past a Magnetized Sphere               | 175 |
| 5.5. Flow past a Sphere with a Cavity            | 186 |

**6. Flow past Thin Profiles**

|                           |     |
|---------------------------|-----|
| 6.1. Incompressible Flows | 194 |
| 6.2. Compressible Flows   | 202 |
| 6.3. Unsteady Flows       | 212 |

|                   |     |
|-------------------|-----|
| <b>Conclusion</b> | 223 |
|-------------------|-----|

|                   |     |
|-------------------|-----|
| <b>References</b> | 225 |
|-------------------|-----|

|              |     |
|--------------|-----|
| <b>INDEX</b> | 229 |
