

TABLE OF CONTENTS

1. SYSTEM AND RETROFIT STUDIES

SESSION CHAIRMAN: George Seikel/Seitec, Cleveland, OH

- 1.1 RESULTS FROM COMPARATIVE ANALYSIS OF DIFFERENT MHD GENERATOR AND POWER TRAIN DESIGNS FOR EARLY COMMERCIAL POWER PLANT APPLICATIONS; F. A. Hals, C. C. P. Pian, A. M. Demirjian, I. Sadovnik and J. O. Stankevics, Avco Everett Research Laboratory, Everett, MA.
- 1.2 A SITE-SPECIFIC ENGINEERING ASSESMENT OF A RETROFIT MHD TOPPING CYCLE; G. L. Nelson, D. W. Cott and G. A. Simmons, Mountain States Energy, Butte, MT.
- 1.3 A PARAMETRIC STUDY OF COMMERCIAL MHD/STEAM POWER PLANT PERFORMANCE, COST, AND COST OF ELECTRICITY; R. R. Holman, J. A. Christenson and W. L. Lundberg, Westinghouse Electric Corporation, Pittsburgh, PA.
- 1.4 DYNAMIC RESPONSE OF A RETROFITTED MHD-STEAM POWER PLANT UNDER NORMAL AND ABNORMAL OPERATING CONDITIONS; D. A. Rudberg, Montana State University, Bozeman, MT.

2. OPERATIONS WITH LARGE TEST FACILITIES

SESSION CHAIRMAN: Harold F. Chambers, Jr./Pittsburgh Energy Technology Center
Pittsburgh, PA

- 2.1 STATUS OF MHD TESTING AT THE U.S. DEPARTMENT OF ENERGY'S COMPONENT DEVELOPMENT AND INTEGRATION FACILITY (CDIF); J. M. Sherick and G. E. Staats, Mountain States Energy, Butte, MT.
- 2.2 SIGNIFICANT MHD POWER GENERATION TEST RESULTS AT THE CDIF; L. C. Farrar, Mountain States Energy, Butte, MT.
- 2.3 INTEGRATED MHD GENERATOR-INVERTER SYSTEM TEST RESULTS AT CDIF; J. K. Koester, Stanford University, Stanford, CA; L. C. Farrar, Mountain States Energy, Butte, MT; P. Wood, Westinghouse Electric Corp., Pittsburgh, PA; R. J. Ferraro, EPRI, Palo Alto, CA.
- 2.4 STATUS OF TESTING AT CFFF; Joel W. Muehlhauser, The University of Tennessee Space Institute, Tullahoma, TN.
- 2.5 GAS DYNAMIC AND HEAT TRANSFER EVALUATION OF THE CFFF LMF1 FLOW TRAIN; J. T. Lineberry, F. L. Galanga and D. E. Gonzalez, The University of Tennessee Space Institute, Tullahoma, TN.
- 2.6 DEVELOPMENT STATUS OF THE TRW 20-MWt MHD COAL COMBUSTOR; M. Bauer, R. Braswell, H. Iwata and J. Stewart, TRW Energy Development Group, Redondo Beach, CA.
- 2.7 MHD GENERATOR PERFORMANCE COMPARISONS BETWEEN COAL AND ASH FIRING; S. Petty, G. Enos, R. Kessler and D. Swallom, Avco Everett Research Laboratory, Everett, MA.
- 2.8 EXPERIMENTAL INVESTIGATION OF ETL MARK VII MHD FACILITY; Y. Kusaka, K. Takano, K. Onda, K. Kato, Y. Kaga and Y. Aiyama, Electrotechnical Laboratory, Ibaraki, M. Irino, T. Imatake and Y. Fukaya, Mitsubishi Heavy Industries, Tokyo, Japan.

3. CHANNELS I - ANALYSIS AND PERFORMANCE

SESSION CHAIRMAN: Albert Solbes/TRW Electronics and Defense Systems,
Redondo Beach, CA

- 3.1 PROGRESS IN ANALYTICAL MODELING OF MHD POWER GENERATORS; S. T. Demetriades, C. D. Maxwell and D. A. Oliver, STD Reseach Corporation, Arcadia, CA.
- 3.2 MODELS OF THE FUNDAMENTAL ACOUSTIC WAVES IN PLASMA MHD GENERATORS; N. Riahi and J. S. Walker, University of Illinois, Urbana, IL.
- 3.3 MAGNETOACOUSTIC EFFECTS ON PHASE VELOCITY OF WAVES IN MHD GENERATORS; A. C. Munce, Jr., M. Mitchner and J. K. Koester, Stanford University, Stanford, CA.
- 3.4 PERFORMANCE CHARACTERISTICS OF A SUBSONIC MHD GENERATOR LOADED IN THE DIAGONAL MODE; A. W. McClaine, D. W. Swallom and R. Kessler, Avco Everett Research Laboratory, Everett, MA.
- 3.5 EVIDENCE OF SECONDARY FLOW IN FARADAY MHD GENERATORS; S. L. Girshick and C. H. Kruger, Stanford University, Stanford, CA.
- 3.6 REDUCTION OF THE AVERAGE ELECTRICAL CONDUCTIVITY BY A WAKE TYPE PLASMA NON-UNIFORMITY; V. J. Hruby, I. Sadovnik and R. Kessler, Avco Everett Research Laboratory, Everett, MA; L. Trefethen, Tufts University, Medford, MA.

4. CHANNELS II - ELECTRICAL EFFECTS

SESSION CHAIRMAN: Ezzat Doss/Argonne National Laboratory, Argonne, IL

- 4.1 A SURVEY OF BOUNDARY LAYER ARCING; R. J. Rosa, Montana State University, Bozeman, MT.
- 4.2 SEED LAYER ELECTRICAL CONDUCTIVITY MEASUREMENTS AND VOLTAGE DROP PREDICTIONS; J. A. Schwoerer and W. Unkel, Massachusetts Institute of Technology, Cambridge, MA.
- 4.3 ARCING AND CORROSION AT MHD ANODES; W. Unkel, Massachusetts Institute of Technology, Cambridge, MA; V. Yousefian, K. Annen, G. W. Stewart, A. Freeman and C. Stinespring, Aerodyne Research, Billerica, MA.
- 4.4 ROD ELECTRODES FOR COMBUSTION MHD GENERATORS; R. P. Heydt and R. H. Eustis, Stanford University, Stanford, CA.
- 4.5 EFFECTS OF CATHODE SLAG POLARIZATION ON MHD GENERATOR PERFORMANCE; S. W. Petty, Avco Everett Research Laboratory, Everett, MA.
- 4.6 ELECTRICAL NONUNIFORMITIES IN SLAGGING MHD CHANNELS; S. W. Simpson and S. M. Marty, University of Sydney, Sydney, Australia.
- 4.7 THE EFFECT OF THE HALL PARAMETER AND PLASMA BOUNDARY LAYERS ON INFLUENCE CO-EFFICIENTS FOR GENERATOR ELECTRICAL NONUNIFORMITIES; R. D. Schlueter and J. K. Koester, Stanford University, Stanford, CA.

- 4.8 APPROXIMATE ELECTRICAL SOLUTION OF MHD GENERATOR WITH CATHODE WALL NONUNIFORMITIES; C. C. P. Pian, A. W. McClaine, I. Sadovnik and D. W. Swallom, Avco Everett Research Laboratory, Everett, MA.
- 4.9 EFFECTS OF CATHODE SHORTING ON INTERNAL MHD ELECTRICAL CHARACTERISTICS; I. Sadovnik, C. C. P. Pian and A. W. McClaine, Avco Everett Research Laboratory, Everett, MA.

5. CHANNELS III - CHEMICAL EFFECTS

SESSION CHAIRMAN: John Kent Koester/Stanford University, Stanford, CA

- 5.1 MASS SPECTROMETRIC DETERMINATION OF THE THERMODYNAMICS OF POTASSIUM HYDROXIDE, POTASSIUM SULFIDE, AND MINOR POTASSIUM-CONTAINING SPECIES REQUIRED IN MAGNETO-HYDRODYNAMIC POWER SYSTEMS; M. Farber and R. D. Srivastava, Space Sciences, Monrovia, CA; J. W. Moyer and J. D. Leeper, Southern California Edison Company, Rosemead, CA.
- 5.2 EFFECTS OF THERMOCHEMICAL DATA BASE ON ANALYSIS OF MHD GENERATOR PERFORMANCE; C. W. Sha, Academy Sinica, Beijing, China; M. C. Altstatt, The University of Tennessee Space Institute, Tullahoma, TN.
- 5.3 A STUDY OF THE EFFECT OF SEED-SLAG INTERACTION ON THE POTASSIUM CONCENTRATION BOUNDARY LAYER IN AN MHD GENERATOR; C. A. Luongo and C. H. Kruger, Stanford University, Stanford, CA.

6. DISK GENERATORS

SESSION CHAIRMAN: Jean Louis/Massachusetts Institute of Technology, Cambridge, MA

- 6.1 RADIAL ELECTRIC FIELD LIMITATIONS IN OPEN-CYCLE DISK GENERATORS; W. E. Lear and T. Nakamura, Stanford University, Stanford, CA.
- 6.2 RESULTS OF COMBUSTION DRIVEN INFLOW DISK GENERATOR EXPERIMENTS; T. Nakamura, W. E. Lear, Stanford University, Stanford, CA; Y. Fang, Nanjing Institute of Technology, Nanjing, China.
- 6.3 DYNAMICAL BEHAVIOR OF DISK TYPE CLOSED CYCLE MHD GENERATOR; S. Kabashima, Y. Yoshikawa, H. Yamasaki, N. Harada and S. Shioda, Tokyo Institute of Technology, Yokohama, Japan.
- 6.4 RECENT EXPERIMENTAL RESULTS WITH FUJI-1 FACILITY FOR CLOSED CYCLE MHD POWER GENERATION; H. Yamasaki, S. Kabashima, K. Yoshikawa, N. Harada and S. Shioda, Tokyo Institute of Technology, Yokohama; Y. Hasegawa, Mechanical Engineering Laboratory, Ibaragi; T. Yokota, M. Ishimura, K. Matsutani, A. Tanaka and T. Sasaki, Toshiba Corp., Tokyo, Japan.

7. LIQUID METAL MHD AND MAGNETS

SESSION CHAIRMAN: Edward Pierson, Purdue University Calumet, Hammond, IN

- 7.1 DEVELOPMENT OF A LOW TEMPERATURE LIQUID-METAL MHD SMALL SCALE PILOT PLANT; H. Branover, A. El-Boher, S. Sukoriansky and A. Yakhot, Ben-Gurion University

of the Negev, Beer Sheva, Israel; M. Petrick, Argonne National Laboratory, Argonne, IL; E. Pierson, Purdue University Calumet, Hammond, IN; I. Smith, City University, London, England.

- 7.2 METAL GAS MHD CONVERTER DEVELOPMENT PLANS; J. P. Thibault, F. Jousselein and A. Alemany, Institute de Mecanique de Grenoble, France; A. Dupas, Centre National d'Etudes Spatiales, Paris, France.
- 7.3 IMPACT OF DESIGN CURRENT DENSITY ON THE COST AND RELIABILITY OF SUPERCONDUCTING MAGNET SYSTEMS FOR EARLY COMMERCIAL MHD POWER PLANTS; A. M. Hatch, P. G. Marston, R. J. Thome, A. M. Dawson, W. G. Langton and W. R. Mann, Massachusetts Institute of Technology, Cambridge MA.

8. DOWNSTREAM SYSTEMS

SESSION CHAIRPERSON: Y. C. L. Susan Wu/The University of Tennessee Space Institute, Tullahoma, TN

- 8.1 RESULTS OF THE NITROGEN-OXIDE CONTROL TEST SERIES IN THE DOE COAL-FIRED FLOW FACILITY; L. W. Crawford, R. C. Attig, J. N. Chapman, F. L. Galanga and J. T. Lineberry, The University of Tennessee Space Institute, Tullahoma, TN.
- 8.2 COMPARISONS BETWEEN EXPERIMENTAL RESULTS AND ANALYTICAL PREDICTIONS OF SEED-SLAG FOULING IN AN MHD STEAM BOTTOMING PLANT; L. S. H. Chow, E. B. Smyk and T. R. Johnson, Argonne National Laboratory, Argonne, IL.
- 8.3 TURBULENT MIXING STUDIES IN A SECONDARY COMBUSTOR MODEL; J. P. Foote, R. J. Schulz and T. V. Giel, Jr., The University of Tennessee Space Institute, Tullahoma, TN.
- 8.4 A COMPARISON OF THE HRSR SYSTEM WITH STATE-OF-THE-ART BOILERS; A. D. Bolek, Babcock & Wilcox, Barberton, OH.
- 8.5 ASH DEPOSITION, METAL CORROSION, AND REFRACTORY PERFORMANCE IN A COAL FIRED MHD TEST TRAIN; T. C. Shaver and M. K. White, The University of Tennessee Space Institute, Tullahoma, TN.
- 8.6 MEASUREMENTS OF ENTRAINED SEED PARTICLES; J. Klinger, E. B. Smyk, R. K. Ahluwalia, S. A. Johnson and J. D. Staffon, Argonne National Laboratory, Argonne, IL.
- 8.7 TEMPERATURE AND SPECTRAL EMISSION/TRANSMISSION MEASUREMENTS IN THE DOE COAL-FIRED FLOW FACILITY; B. C. Winkleman, T. V. Giel, Jr. and W. E. Baucum, The University of Tennessee Space Institute, Tullahoma, TN.

9. LATE PAPERS

- 9.1 COMPARISON BETWEEN LONG AND SHORT DURATION LOADING FAULTS FOR FARADAY AND DIAGONAL TYPE MHD GENERATORS; M. Ishikawa and J. Umoto, Kyoto University, Kyoto, Japan.
