

# TABLE OF CONTENTS

## 0.1-1 Compendium of MHD-Unique Terminology

A.T. Hart, D. Lofftus, *MSE, Inc.*; R.J. Rosa, *Montana State University*; J.N. Chapman, *University of Tennessee Space Institute*; Y.C.L. Wu, *Engineering Research and Consulting, Inc.*

## Session 1: Status Reports - U.S. Major Facilities

### 1.1-1 Coal-Fired MHD Topping Cycle Hardware and Test Progress at the Component Development and Integration Facility

A.T. Hart, J.E. Joyce, I.E. Stepan, *MSE, Inc.*

### 1.2-1 Status of POC Testing at the CFFF

R.C. Attig, M.E. Sanders, J.N. Chapman, *University of Tennessee Space Institute*

## Session 2: Status Reports - International MHD Programs

### 2.1-1 Indian MHD Programme 1988 Status Review

S. Sridharan, *Bharat Heavy Electricals Limited, India*

### 2.2-1 Progress Report on MHD Researches in 1988 in the People's Republic of China

Ju Zixiang, *Institute of Electrical Engineering, Academia Sinica, Beijing, China*

### 2.3-1 Japanese MHD Program

S. Kabashima, *Tokyo Institute of Technology, Japan*

### 2.4-1 Israel MHD Program

H. Branover, *Center for MHD Studies, Ben-Gurion University, Israel*

### 2.5-1 MHD in The Netherlands

L.H.Th. Rietjens, *Eindhoven University of Technology, The Netherlands*

### 2.6-1 MHD Developments in Australia

H.K. Messerle, *University of Sydney, Australia*

### 2.7-1 Status of U.S. National Program

Sun Chun, *U.S. DOE, Pittsburgh Energy Technology Center*

## Session 3: Bottoming Cycle/Diagnostics

### 3.1-1 Ash/Seed Tube Fouling in the CFFF

M.K. White, *University of Tennessee Space Institute*

### 3.2-1 Corrosion Behavior of Materials for MHD Steam Bottoming Plant

K. Natesan, W.M. Swift, *Argonne National Laboratory*

### 3.3-1 The Study of Noncorona High Temperature Electrostatic Precipitation

C. Aizhu, W. Qidong, Z. Jingsheng, W. Yanhua, G. Xianzhao, *Southeast University, Nanjing, China*

### 3.4-1 Comparisons of LDV Results with Theoretical Flow Predictions for the CFFF Radiant Furnace

W.W. Wilson, D.V. Srikantaiah, *Mississippi State University*; J.T. Lineberry, J.J. Lee, *University of Tennessee Space Institute*

## Session 4: Topping Cycle

- 4.1-1 Dynamic Processes of IEE Mark II MHD Flow Train**  
B.C. Winkleman, J.T. Lineberry, *University of Tennessee Space Institute*
- 4.2-1 Experimental Investigation on the Effects of the TRW Two Stage Coal Combustor on the Performance of the Avco MkVI MHD Generator**  
A. McClaine, J. Pinsley, *Avco Research Laboratory, Inc.*; B. Pote, *TRW Applied Technology Division*
- 4.3-1 Analysis of CDIF Coal-Fired Faraday Generator Test Data**  
G. Nelson, Y.M. Lee, I. Stepan, *MSE, Inc.*; J.T. Lineberry, Y.C.L. Wu, *Engineering Research and Consulting, Inc.*; J.T. Lineberry, *University of Tennessee Space Institute*
- 4.4-1 Coal-Fired MHD Power Train Performance Upgrade Test Activities**  
R. Braswell, A. Grove, B. Pote, T. Koyama, C. Shih, A. Solbes, *TRW Applied Technology Division*

## Session 5: Generators, Part A

- 5.1-1 Improvement of SiC-CuG-Cu Insulator Performance in MHD Generator Channels**  
T. Okuo, *Electrotechnical Laboratory, Tsukuba, Japan*; T. Ookouchi, *Hitachi Ltd., Ibaraki, Japan*; Y. Aoki, *Hokkaido University, Sapporo, Japan*
- 5.2-1 Performance of a Multi-Grid Three-Dimensional MHD Generator Calculation Procedure**  
J.X. Bouillard, J.L. Krazinski, S.P. Vanka, G.F. Berry, *Argonne National Laboratory*
- 5.3-1 Recent Investigations of Cathode Wall Nonuniformities**  
E.W. Schmitt, W. Brownell, A.W. McClaine, S.W. Petty, C. Pian, I. Sadovnik, *Avco Research Laboratory, Inc.*
- 5.4-1 An Investigation of Secondary Flow in an MHD Channel**  
R.C. Goforth, C.H. Kruger, *Stanford University*; T. Aoki, *Kyushu University, Kasuga City, Japan*
- 5.5-1 Coal-Fired MHD Channel Parametric Studies – Aspects of Power Generation With Iron Oxide Addition**  
S.W. Petty, C. Pian, E.W. Schmitt, *Avco Research Laboratory, Inc.*; L.C. Farrar, *Montec Associates*

## Session 6: Generators, Part B

- 6.1-1 High Enthalpy Extraction Experiments with the Fuji-1 Disk Generator**  
H. Yamasaki, S. Kabashima, N. Harada, K. Yoshikawa, Y. Saito, E. Kobayashi, T. Gejo, H. Tamura, S. Shioda, *Tokyo Institute of Technology, Japan*; Y. Hasegawa, *Mechanical Engineering Laboratory, Tsukuba, Japan*; T. Yokota, M. Ishimura, K. Matsutani, T. Sasaki, *Toshiba Corporation, Tokyo, Japan*
- 6.2-1 Effects of Coal Slag on MHD Generator Electrical Behavior**  
L.C. Farrar, R.J. Pollina, *Montec Associates*; R.J. Rosa, *Montana State University*
- 6.3-1 Power-Loss Mechanisms in Coal-Fired MHD Generators**  
V.W. Daniel, J. Lohrasbi, *MSE, Inc.*
- 6.4-1 Prototypical Channel Sidewall Design and Material Studies**  
S.W. Petty, R.J. Pollina, *Avco Research Laboratory, Inc.*; L.C. Farrar, *Montec Associates*; R. DeSaro, V.J. Hruby, *J. Busek Co. Inc.*
- 6.5-1 Design Study of a Combustion Gas Diagonally Connected MHD Generator Channel**  
C.A. Borghi, P.L. Ribani, *Istituto di Elettrotecnica, Universita di Bologna, Italy*

## Session 7: Combustion

- 7.1-1 Cold Flow Mixing Study of 50 MW<sub>t</sub> MHD Coal-Fired Combustor Second Stage**  
A. Grove, *TRW Applied Technology Division*
- 7.2-1 Cold Model Testing of a Coal-Fired MHD Combustor with Axial and Tangential Air Injections**  
S. Junjie, C. Song, L. Hao, Z. Wende, *Southeast University, Nanjing, China*
- 7.3-1 A Prototypical MHD Coal Combustor Design**  
G. Listvinsky, J. Alpay, L. Hill, K. King, D. Paul, D. Vanevenhoven, *TRW Applied Technology Division*
- 7.4-1 Slagging Combustor Development at BHEL, India**  
S.A. Arunachalam, G.V.S. Rao, V. Ramesh, K. Venkataraman, *MHD Centre, Bharat Heavy Electricals Limited, India*

## Session 8: Poster Session

- 8.1-1 Ambient Concentrations of Pollutants Associated with Magnetohydrodynamics and Comparison to Model Predictions**  
J.L. Casey, J.K. Holt, *University of Tennessee Space Institute*
- 8.2-1 Performance Characteristics of Regenerative High Temperature Air Pre Heater with LPG as Fuel**  
N.N. Pandey, *MHD Centre, Bharat Heavy Electricals Limited, India*
- 8.3-1 An Emission Absorption Technique Suitable for Automatic Measurement of Seed Atom Density in Coal-Fired MHD Flows**  
L.E. Bauman, X. Ma, J.C. Luthe, *Mississippi State University*
- 8.4-1 Intrusive Sensors for Gas Stream and Surface Temperature Measurements in MHD Facilities**  
L.R. Hester, R.A. Green, R.W. Iles, *Mississippi State University*
- 8.5-1 Efficiency Measurements of Downstream Particulate Retention Components at the Coal-Fired Flow Facility**  
J.S. Lindner, P.R. Jang, J.C. Luthe, W.P. Okhuysen, W.S. Shepard, R.L. Cook, *Mississippi State University*
- 8.6-1 Status Report of 1A Test Train Hardware Performance and Development**  
R.J. Glovan, J.M. Richards, *MSE, Inc.*
- 8.7-1 Summary of University of Tennessee Space Institute–IEE Cooperative MHD Research (1985 through 1987)**  
J.T. Lineberry, B.C. Winkleman, *University of Tennessee Space Institute*; Y.C.L. Wu, *Engineering Research and Consulting, Inc.*; J. Zixiang, S. Ciwen, *Institute of Electrical Engineering, Academia Sinica, Beijing, China*
- 8.8-1 Material Balance, Stack Gas Composition, and Combustion Efficiency in the MHD Topping Cycle at the CDIF**  
J.A. Tourikis, C.G. Whitworth, D.L. Shoop, *MSE, Inc.*
- 8.9-1 Modeling of CCMHD Disk Generator: Channel Design and Fuji-1 Analyses**  
S. Kabashima, H. Matsubara, H. Yamasaki, S. Shioda, *Tokyo Institute of Technology, Japan*
- 8.10-1 Preliminary Analysis of New Power Shuffling Circuit for MHD Generator**  
M. Ishikawa, N. Aomori, J. Umoto, *Kyoto University, Japan*
- 8.11-1 Progress in Power Consolidation for MHD Systems**  
R. Putkovich, *Westinghouse Electric Corporation*

- 8.12-1 Boundary Layer Controlled Electrodes for MHD Generator**  
V.R. Malghan, *MHD Centre, Bharat Heavy Electricals Limited, India*
- 8.13-1 Performance of an Inert Gas Driven Disk MHD Generator**  
N. Harada, H. Yamasaki, H. Nakamura, M. Itagaki, A. Gotoh, S. Shioda, *Tokyo Institute of Technology, Japan*
- 8.14-1 On the Arcing Phenomena in the MHD Channel**  
V. Goldfarb, C. Pian, I. Sadovnik, *Avco Research Laboratory, Inc.*
- 8.15-1 Two-Dimensional Simulation of Nonequilibrium Disk MHD Generator Using Helium Gas**  
Y. Inui, T. Hara, M. Ishikawa, J. Umoto, *Kyoto University, Japan*
- 8.16-1 Split Coal Feed Control and Measurement for the TRW 50 MW<sub>t</sub> Combustor at the CDIF**  
J.M. Richards, S.K. Lundberg, R.T. Burkhart, *MSE, Inc.*
- 8.17-1 Materials Considerations for the Prototypical MHD Coal Combustor**  
L.E. Hill, R.I. Batista, T. Koyama, G. Listvinsky, *TRW Applied Technology Division*; K. Natesan, D.Y. Wang, *Argonne National Laboratory*
- 8.18-1 Potassium Extraction from MHD Slag and Spent Seed Insolubles**  
J.K. Holt, D.G. Rasnake, D.M. Jackson, A.C. Sheth, *University of Tennessee Space Institute*
- 8.19-1 Seed Types for a Magnetohydrodynamic System**  
L.C. McClanathan, R. Meyers, S. Myrick, G. Ogle, *TRW Applied Technology Division*
- 8.20-1 A Comparative Analysis of the Alternatives for the Indian MHD Retrofit Proposals**  
K.V.S. Sundaram, S.K. Somasundaram, S. Sridharan, *MHD Centre, Bharat Heavy Electricals Limited, India*
- 8.21-1 Evaluation of Electrical and Thermodynamic Transport Properties of Seeded Combustion Products of Indian Coals for MHD Systems**  
A. Chandra, U.K. Singh, *Centre for Energy Studies, Indian Institute of Technology, India*
- 8.22-1 MHD Enhancement of Heat-Transfer**  
H. Branover, C. Henoch, D. Klaiman, S. Sukoriansky, *Center for MHD Studies*; E. Greenspan, *Israel Atomic Energy Commission, Israel*
- 8.23-1 Multi-megawatt MHD Space Power System Development Status**  
C.D. Maxwell, S.T. Demetriades, *STD Research Corporation*
- 8.24-1 Review of Superconducting Magnet Technology for Large-Scale Applications**  
P.G. Marston, A.M. Dawson, J.R. Hale, *Massachusetts Institute of Technology*
- 8.25-1 Superconducting Magnet Design for the Coal-Fired MHD Retrofit of the J.E. Corette Plant**  
H. Gurol, *General Dynamics*

## Session 9: Liquid Metal MHD

- 9.1-1 Natural-Gas-Fired Liquid-Metal MHD Systems**  
G.F. Berry, *Argonne National Laboratory*; E.S. Pierson, *Purdue University-Calumet*
- 9.2-1 Research and Development of Single-Phase Liquid MHD Generators**  
H. Branover, U. Deckel, A. El-Boher, S. Lesin, *Center for MHD Studies, Israel*
- 9.3-1 Two-Phase Liquid-Metal/Gas Flow Characteristics in MHD Systems**  
H. Branover, A. El-Boher, D. Farchi, S. Lesin, Y. Unger, *Center for MHD Studies, Israel*

## Session 10: DOD MHD Applications

- 10.1-1 Disk MHD Generator Performance in a Rankine Space Power Cycle with Fissioning Working Fluid**  
W.E. Lear, G.E. Welch, E.T. Dugan, *University of Florida*
- 10.2-1 Design of a Ten Megawatt Rocket Driven Disk MHD Generator**  
A. Solbes, J. Weede, R. Hession, P. Mitchell, *TRW Applied Technology Division*
- 10.3-1 Annular DC MHD Thrusters for Submarines**  
D.W. Cott, V.W. Daniel, R.A. Carrington, *MSE, Inc.*
- 10.4-1 Ultrahigh Temperature Vapor Core Nuclear Reactor – MHD Power Generation and Conversion System for Space Application**  
I. Maya, N.J. Diaz, S. Anghaie, E.T. Dugan, *University of Florida*
- 10.5-1 An Unseeded Air MHD Accelerator Concept for High Mach Number Hypersonic Propulsion Testing**  
G. Simmons, G. Nelson, R. Hiers, A. Western, *MSE, Inc.*

## Session 11: Plant Engineering/Studies

- 11.1-1 A Commercial Demonstration Project for Coal-Fired MHD**  
J.M. Sherick, *MSE, Inc.*
- 11.2-1 Conceptual Design of the Scholz MHD Retrofit Plant**  
L.E. Van Bibber, F.E. Bernard, R.R. Holman, R. Putkovich, D.A. Wiseman, *Westinghouse Electric Corporation*; W.D. Jackson, *HMJ Corporation*; G.R. Seikel, *SeiTec*; J. Cuchens, *Southern Electric Integration*; C. Maxwell, *STD Research Corporation*; N. Johanson, *University of Tennessee Space Institute*
- 11.3-1 The Corette Retrofit: Conceptual Design Summary**  
R. Labrie, N. Egan, *MHD Development Corporation*
- 11.4-1 The Beijing No. 3 Thermal Power Plant Retrofit: Design Basis and Status**  
S. Ciwen, C. Kua, *Institute of Electrical Engineering, Academia Sinica, Beijing, China*; J. Ming, *Shanghai Power Equipment Research Institute, Shanghai, China*; C. Ningsheng, *Nanjing Institute of Technology, Nanjing, China*
- 11.5-1 An Open-Cycle Magnetohydrodynamic Power Plant with CO<sub>2</sub> Recycling**  
G.F. Berry, *Argonne National Laboratory*

## Session 12: Plan Engineering/Seed Regeneration

- 12.1-1 TRW Econoseed Process for MHD Seed Regeneration: Results of Benchscale Testing and Design and Cost Engineering**  
R. Meyers, W.B. Coleman, L.C. McClanathan, *TRW Applied Technology Division*
- 12.2-1 An Economic Analysis of the Optimum Stoichiometry for an Early Commercial MHD Steam Plant**  
J.N. Chapman, W.H. Boss, *University of Tennessee Space Institute*
- 12.3-1 First Indian MHD Retrofit Plant – Air Preheat Options**  
S. Sridharan, B.R. Rao, *MHD Centre, Bharat Heavy Electricals Limited, India*
