

## Table of Contents

1. Introduction . . . . .	1
2. The Plasma Arc . . . . .	4
2.1. The Plasma State . . . . .	4
2.2. Plasma Generators . . . . .	6
3. Plasma Spraying . . . . .	10
3.1. Plasma Spraying Equipment . . . . .	10
3.2. The Plasma Spray Process (Powder Spraying) . . . . .	15
3.3. Testing of Sprayed Coatings . . . . .	34
3.4. Other Flame Spray Process . . . . .	42
3.4.1. Combustion Spray Process . . . . .	42
3.4.2. Detonation Process . . . . .	44
3.4.3. Liquid Fuel Gun . . . . .	45
3.4.4. The Electric Arc Process . . . . .	48
3.4.5. Comparison of Flame Spray Processes . . . . .	48
4. Materials and Applications for Plasma Spraying . . . . .	49
5. Material Evaluations Utilizing the Plasma Jet . . . . .	74
5.1. Plasma Test Facilities . . . . .	74
5.2. Screening of Ablation Materials . . . . .	77
5.3. Thermal-Shock Evaluations . . . . .	80
5.4. Thermal-Stress Tests . . . . .	82
5.5. Dynamic Oxidation . . . . .	83
5.6. Reentry Simulation . . . . .	85
5.7. Rocket-Exhaust Simulation . . . . .	88
6. Characterization of Plasma Effluent . . . . .	93
6.1. Energy Balance Technique . . . . .	93
6.2. Sonic-Flow Method . . . . .	99

7. Diagnostic Techniques . . . . .	104
7.1. Enthalpy Probes . . . . .	104
7.2. Calorimeters . . . . .	119
7.3. Pressure Probes . . . . .	129
7.4. Velocity Measurement . . . . .	129
7.5. Density Determinations . . . . .	131
7.6. Gas Temperature . . . . .	133
7.7. Chemical Composition . . . . .	134
7.8. Catalytic Effects . . . . .	136
7.9. Material Response . . . . .	140
References . . . . .	144
Appendix: Bibliography of Plasma Arc Technology . . . . .	151
Subject Index . . . . .	202
