

CONTENTS

New Types of Microwave Cavities for Optical Emission Spectroscopy	1
E. Reszke and R. Parosa, Poland	
Laser Interaction with Plasma Induced by Microwaves	9
L. Z. Ismail, T. M. Atwee and L. El-Nadi, Egypt	
Surface Treatment of Glass Fibers in a Low-Pressure Microwave Plasma	25
Ryszard Parosa, Poland	
The Anodic Oxidation of Ge, Si, and GaAs in a High-Frequency Oxygen Plasma	31
Liu Chunrong and Sun Zhaoqi, People's Republic of China	
Germanium Nitride Film Grown by Plasma Anodic Nitridation	45
Liu Chunrong, Sun Zhaoqi and Du Daoming, People's Republic of China	
Preparation and Analysis of the Plasma-Anodized Film on Germanium	57
Liu Chunrong and Liu Ling, People's Republic of China	
Preparation and C-V Characteristic of the Aluminum Plasma-Anodized Film Germanium Structure	71
Sun Zhaoqi, Cui Jingbiao, Yu Yi, Liu Chunrong, People's Republic of China	

Optical Applications of Amorphous Hydrogenated Silicon Alloys	79
J. I. B. Wilson, Scotland	
A Study of the Chemical Structure and Electrical Properties of PECVD SiO₂-InSb MIS Structures	91
E. P. Valcheva, K. G. Germanova and S. G. Georgiev, Bulgaria	
Investigation of the Physical Properties of the Interface of PECVD SiO₂-InSb	101
E. P. Valcheva, Bulgaria	
Effects of Low-Temperature Plasmas (Ar, He, H₂) on Thin Si-SiO₂ Structures	123
J. Kassabov and E. Atanassova, Bulgaria	
Peculiarities of Atom Ejection from the Surface Atomic Layer of a Single Crystal	153
Vladimir N. Samoylov, U.S.S.R.	
Corona Discharge Processing of CO₂/N₂ and NO₂/N₂ Mixtures	199
Alina Wozniak, Tadeusz Czech and Jerzy Mizeraczyk, Poland	
Kan-Ichi Fujii, Japan	
Modification of Rabbit Hair with Low-Temperature Plasma	211
Pei Jinchang, Pan Guanmo and Zhou Baoguan, People's Republic of China	
Preparation of a Glucose Oxidase Membrane for the Application of Glucose Sensor by Plasma Activation	219
G. H. Hsiue, C. H. Liu and C. C. Wang, People's Republic of China	
Ferroelectric Plasma Sources and Some of Their Applications	237
Józef Kusz, Poland	
Properties of Vacuum-Deposited Polyethylene Terephthalate Coatings	315
G. P. Arina and Y. V. Lipin, Latvija	
N. K. Duobinis and D. J. Sablinskiene, Lithuania
