

TABLE OF CONTENTS
TABLE DES MATIÈRES

VOLUME 1

Table of Contents } Table des matières }	7
Présidence d'Honneur	16
Comité du Programme et de Lecture	17
I. PHYSICAL PROPERTIES OF THE MHD (Session I) WORKING FLUID (COMBUSTION GAS) PROPRIETES PHYSIQUES DU FLUIDE DE CONVERSION MHD (GAZ DE COM- BUSTION)	
Electron Temperatures in Flame Plasmas	21
M.C. Attard (U.K.)	
Electron Concentration and Electrical Conductivity of Seeded Coal Combustion Plasmas	31
H. Bincer (U.K.)	
Approximations for the Thermodynamic and Transport Properties of High Temperature and Working Fluids	47
M. Kishi, M. Mizutani, T. Ito (Japan)	
Mesure de la conductivité électrique de gaz de combustion ensemencés	61
R. Devime, J. Poncelet, Al. Pozwolski, A. Quéraud, H. Lecroart (France)	
Caractéristique de contact gaz-électrode dans le cas de l'ionisation thermique ..	79
P. Ricateau (France)	
Conductivité de gaz de combustion ensemencés	91
F. Rostas (France)	
Experimental Studies in Open-Cycle MHD Generation	105
G.J. Womack, I.A. McGrath, M.W. Thring (U.K.)	
Electrical Potential Variation Layers near Electrodes	125
G.A. Lyubimov (U.S.S.R.)	
Formation of Space Charge Sheaths and Flow of an Electric Current in a Plasma Stream - Investigations of Ionization Characteristics of Plasma Streams in an Electric Field	131
A.K. Musin (U.S.S.R.)	

II. PHYSICAL PROPERTIES OF THE MHD
 WORKING FLUID (CLOSED-CYCLE FLUID)
 PROPRIETES PHYSIQUES DU FLUIDE
 DE CONVERSION MHD (FLUIDE POUR
 CYCLE FERME)

(Session II)

Conduction Processes in Rectangular Ducts with Controlled Electric Fields	149
J.F. Armstrong, B.J. Elliott, D.W. George, H.K. Messerle, A.D. Stokes (Australia)	
Photoionization in MPD Generators	159
D. Balfour, J.H. Harris (U.K.)	
On Plasma Through Neutron Irradiation	179
J. Braun, K. Nygaard, E. Witalis (Sweden)	
Résistivité des plasmas colloïdaux	195
F. Dennery (France)	
Cross Section Measurements and Transport Properties in Seeded Inert Gas MPD Generators	215
A.B. Jolly, J. Newcombe (U.K.)	
Sur la mesure par sonde haute fréquence de la conductivité d'un plasma faible- ment ionisé	229
Th. Moulin, J. Massé (France)	
Recombination and Electrode Effects in Extra-Thermally Ionized Argon	249
P.B. Curtis, A. Reddish (U.K.)	
Nature of a High Current Discharge in an Argon-Potassium Atmosphere at Elevated Temperatures	263
M. Sakuntala (U.K.)	
Electrical Conductivity and Breakdown in Caesium Vapour	279
A. Sands, D. Balfour (U.K.)	
Enhancement of Gas Conductivity by Dust Suspension and its Application to Closed- Cycle MHD Power Generation	289
M.S. Sodha, E. Bendor (U.S.A.)	
Measurement of Plasma Velocity in the MHD Generator Channel	303
S. Suckewer, Z. Celinski (Poland)	
On the Problem of Optimum Composition of Conductive Gaseous Mixture	319
E.P. Zimin, V.A. Popov (U.S.S.R.)	
Electron Emission in MHD Generators	339
D. Halasz, C. Szendy, C.P. Kovacs (Hungary)	
Fonction de distribution et densité électronique d'un plasma hors d'équilibre thermodynamique	349
Y. Archambault, N. Cuenca (France)	
Measurement of the Electron and Stagnation Temperatures in a Linear Argon- Potassium MHD Generator	363
G. Brederlow, W. Riedmüller, R. Eustis (U.S.A.)	
Measurement of Plasma Electron Temperature by an External Langmuir-Type Probe ..	375
R.A. Chapman (U.S.A.)	
Résultats expérimentaux sur les phénomènes d'ionisation hors d'équilibre dans les générateurs MHD	385
Z. Croitoru, A. Békiarian, R. Graziotti, M. Pithon (France)	

Conductivité électrique à l'équilibre et hors d'équilibre d'un gazensemencé ...	395
E. Labois, A. Lemaire (France)	
Non-Equilibrium Processes in Reacting Plasma Flow Across a Magnetic Field	413
H.E. Wilhelm, R.T. Schneider (U.S.A.)	
Enhancement of the Electrical Conductivity of Seeded Rare Gases in Electric Field	425
S. Yano, S. Matsunaga, T. Hiramoto, H. Shirakata (Japan)	
Effects Governing Magnetically Induced Ionization	439
B. Zauderer (U.S.A.)	
Experimental Investigation of Non-Equilibrium Ionization in a Mixture of Argon and Potassium	453
A.E. Sheindlin, V.A. Batenin, E.I. Asinovsky (U.S.S.R.)
